NIST Standard Reference Material (SRM) Registration System

NIST SRM Registration System

The NIST SRM Registration System allows you to receive notification of any developments or updates to that product. Notification requires the SRM user's contact information.

This collection of information contains Paperwork Reduction Act (PRA) requirements approved by the Office of Management and Budget (OMB). Notwithstanding any other provisions of the law, no person is required to respond to, nor shall any person be subject to a penalty for failure to comply with, a collection of information subject to the requirements of the PRA unless that collection of information displays a currently valid OMB control number. Public reporting burden for this collection is estimated to be 7 minutes per response, including the time for reviewing instructions, searching existing data sources, gathering and maintaining the data needed and completing and reviewing the collection of information. Comments regarding this burden estimate or any aspect of this collection of information, including suggestions for reducing this burden, may be sent to the following:

National Institute of Standards and Technology
Attn: Tracy Hayat
