It is designed to aid DoD mission planners, aircraft operators and DoD personnel in meeting host nation aircraft diplomatic and personnel travel clearance requirements outlined in the DoD Foreign Clearance Guide. APACS provides requesting, approving, and monitoring organizations (i.e., country clearance approvers at U.S. Embassies, Geographical Combatant Commands (GCC) theater clearance approvers, and Office of the Secretary of Defense (OSD) special area clearance approvers) access to a common, centralized, and secure database that contains all the information required to process/approve foreign travel clearances.

Routine Use:

- f. To appropriate agencies, entities, and persons when (1) the DoD suspects or has confirmed that there has been a breach of the system of records; (2) the DoD has determined that as a result of the suspected or confirmed breach there is a risk of harm to individuals, the DoD (including its information systems, programs, and operations), the Federal Government, or national security; and (3) the disclosure made to such agencies, entities, and persons is reasonably necessary to assist in connection with the DoD's efforts to respond to the suspected or confirmed breach or to prevent, minimize, or remedy such harm.
- g. To another Federal agency or Federal entity, when the DoD determines that information from this system of records is reasonably necessary to assist the recipient agency or entity in (1) responding to a suspected or confirmed breach or (2) preventing, minimizing, or remedying the risk of harm to individuals, the recipient agency or entity (including its information systems, programs and operations), the Federal Government, or national security, resulting from a suspected or confirmed breach.
- h. To contractors, grantees, experts, consultants, students, and others performing or working on a contract, service, grant, cooperative agreement, or other assignment for the federal government when necessary to accomplish an agency function related to this system of records.
- i. To appropriate Federal, state, local, territorial, tribal, foreign, or international agencies for the purpose of counterintelligence activities. This routine use complies with U.S. law or Executive Order, or for the purpose of executing or enforcing laws designed to protect the national security or homeland security of the United States, including those relating to the sharing of records or information concerning terrorism, homeland security, or law enforcement.
