

Law enforcement perspectives on homelessness and overdose

OMB No: 0920-1419

Exp. Date: 10/31/2026

**The public reporting burden of this collection of information is estimated at 10 minutes per response, including the time for reviewing instructions, searching existing data sources, gathering, and maintaining the data needed, and completing and reviewing the collection of information. An agency may not conduct or sponsor, and a person is not required to respond to a collection of information unless it displays a currently valid OMB control number. Send comments regarding this burden estimate or any other aspect of this collection of information, including suggestions for reducing this burden to CDC/ATSDR Reports Clearance Officer, 1600 Clifton Road NW, MS D-74, Atlanta, GA 30333; Attn: PRA (0920-1419).**

**Project overview: The Overdose Response Strategy and U.S. Centers for Disease Control and Prevention are doing a study about overdose among people experiencing homelessness. The goal of the study is to improve services for people experiencing homelessness who use drugs. We are interested in hearing from law enforcement who work in communities where homelessness is common. We are interested in your opinion. There are no right or wrong answers.**

**Risks and Discomforts: You will be asked about your experiences and perspectives. There may be some questions you do not want to answer.**

**Benefits: There is no direct benefit to you for participating in this study. The information you give us will help improve services for people experiencing homelessness who use drugs. This includes helping law enforcement feel more informed and better prepared when serving people experiencing homelessness who use drugs. Findings from this study could lead to fewer overdoses in your community.**

**Compensation: This survey will take approximately 10 minutes to complete. You will not be compensated for your time.**

**Confidentiality: Your individual responses will be confidential and anonymous. Your name and agency will never be linked to your responses.**

**Voluntary Participation and Withdrawal from the Study: Participation is voluntary. You may stop the survey at any time without penalty. You may skip questions that you do not wish to answer.**

**Contact Information**

**Contact the project lead at 470-851-6012 if you have any questions about this project or your part in it.**

**If you agree to participate in the survey, check this box.**

\* Do you agree to participate in the survey?

**I consent to participate in the survey.**

## Law enforcement perspectives on homelessness and overdose

How many years have you been working in law enforcement? (Please only enter number of years).

In what state is your office located?

## Law enforcement perspectives on homelessness and overdose

In what ZIP code is your office located? (Enter 5-digit ZIP code; for example, 00544 or 94305. You may leave this field blank if you prefer not to answer.)

## Law enforcement perspectives on homelessness and overdose

In what U.S. region is your office located?

- Northeast (Connecticut, Maine, Massachusetts, New Hampshire, New Jersey, New York, Pennsylvania, Rhode Island, and Vermont)

- West (Alaska, Arizona, California, Colorado, Hawaii, Idaho, Montana, Nevada, New Mexico, Oregon, Utah, Washington, and Wyoming)

## Law enforcement perspectives on homelessness and overdose

What is your role?

- Commissioner
- Police chief
- Sheriff
- Deputy sheriff, patrol officer, or trooper
- Sergeant, lieutenant, or other supervisory role
- Detective or investigator
- Other (please specify)

## Law enforcement perspectives on homelessness and overdose

Does your department have a policy that guides field encounters with people experiencing homelessness who use drugs?

- Yes
- No
- Unsure

Explain if unsure

## Law enforcement perspectives on homelessness and overdose

Does your department have a community outreach or emergency response team to respond to calls for service involving people experiencing homelessness?

- Yes
- No
- Unsure

Explain if unsure

## Law enforcement perspectives on homelessness and overdose

Who is on this team? Check all that apply:

- Officers
- Peer navigators
- Social workers
- Clinicians
- Other (please specify)

experiencing homelessness to drug treatment or social services.

I know very little about how to refer someone experiencing homelessness to drug treatment or social services.

      

I would be able to respond effectively to someone who asks for drug treatment or social services.

## Law enforcement perspectives on homelessness and overdose

Have you received training in the past two years on how to help people experiencing homelessness reduce overdose risk?

- Yes  
 No

Are you interested in receiving future trainings on how to help people experiencing homelessness reduce overdose risk?

- Yes  
 No

What barriers would or does your department face in helping reduce overdose among people experiencing homelessness? Check all that apply.

- Lack of funding
- No departmental policy about helping reduce overdose among people experiencing homelessness (e.g., making referrals to drug treatment or case management, naloxone administration or distribution, etc.)
- Lack of access to naloxone to administer or distribute
- Lack of services (e.g., treatment, case management, social services, etc.) in the community to connect people to
- Lack of homeless outreach/response team in our community
- Lack of training in how to help reduce overdose among people experiencing homelessness
- People experiencing homelessness refuse offers to be helped
- Homelessness is not perceived as a priority issue in our community
- Overdose among people experiencing homelessness is not perceived as a priority issue in our community
- Stigma toward people experiencing homelessness who use drugs
- Other (please specify)

What support from public health, policymakers, or other law enforcement agencies would help you address the needs of people experiencing homelessness who use drugs?

Is there anything else you'd like us to know or that you would recommend to help reduce overdose among people experiencing homelessness?
