B. Accomplishments ?

Remember to save all your changes before leaving the page.

[Expand/Collapse All](#)

▼ B.1 What are the major goals of the project?

List the major goals of the project as stated in the approved application or as approved by the agency. If the application lists milestones/target dates for important activities or phases of the project, identify these dates and show actual completion dates or the percentage of completion.

Generally, the goals will not change from one reporting period to the next. However, if the awarding agency approved changes to the goals during the reporting period, list the revised goals and objectives. Also explain any significant changes in approach or methods from the agency approved application or plan.

"Goals" are equivalent to "specific aims." Significant changes in objectives and scope require prior approval of the agency (e.g., NIH Grants Policy Statement, 8.1.2).

List the major goals below

The overall goal of this project is to test the efficacy of a brain-selective estrogen in mitigation of the symptoms of hot flush within an advanced animal model.

The most immediate and patient reported 'unbearable' symptom of the menopause are hot flushes, which cause not only physical discomfort but also negatively impact mood, behavior and general quality of life. Among current treatments of hot flushes, only estrogen therapy (ET) and hormone therapy (HT, estrogens and progestins) have satisfactory efficacy. Although ET/HT prevents hot flushes, they have unwanted side effects in the periphery, including the stimulation of the uterus and breast leading to a significantly increased cancer risk in these organs.

We developed an old-world advanced translational animal model which undergoes a menopausal process that is hormonally identical to that of women. This also involved development of novel use of non-invasive thermal imaging to detect these events, alleviating the need for older train-and-restrain models used in this species for hot flush research in the past. Using this model, we propose to test a novel estrogen prodrug therapy using 10 β ,17 β -dihydroxyestra-1,4-dien-3-one (DHED). In the prodrug form it is highly shelf-stable at room temperature, can be taken orally, has no

B.1.a Have the major goals changed since the initial competing award or previous report? Yes No

▼ B.2 What was accomplished under these goals?

For this reporting period describe:

1. major activities
2. specific objectives
3. significant results (including) major findings, developments, or conclusions (both positive and negative)
4. key outcomes or other achievements

Include a discussion of stated goals not met. As the project progresses, the emphasis in reporting in this section should shift from reporting activities to reporting accomplishments.

Goals are equivalent to specific aims. In the response, emphasize the significance of the findings to the scientific field. Include the approaches taken to ensure robust and unbiased results. For most NIH awards the response should not exceed 2 pages.

RPPR_Accomplishments_010123-123123.pdf

▼ B.3 Competitive Revisions/Administrative Supplements

For this reporting period, is there one or more Revision/Supplement associated with this award for which reporting is required? Yes No

If yes, identify the Revision(s)/Supplement(s) by grant number (e.g., 3R01CA098765-01S1) or title and describe the specific aims and accomplishments for each Revision/Supplement funded during this reporting period. Include any supplements to promote diversity or re-entry, or other similar supplements to support addition of an individual or a discrete project.

▼ **B.3 Competitive Revisions/Administrative Supplements**

For this reporting period, is there one or more Revision/Supplement associated with this award for which reporting is required? Yes No

If yes, identify the Revision(s)/Supplement(s) by grant number (e.g., 3R01CA098765-01S1) or title and describe the specific aims and accomplishments for each Revision/Supplement funded during this reporting period. Include any supplements to promote diversity or re-entry, or other similar supplements to support addition of an individual or a discrete project.

[+ Add/New](#)

▼ **B.4 What opportunities for training and professional development has the project provided?**

If the research is not intended to provide training and professional development opportunities or there is nothing significant to report during this reporting period, select "Nothing to Report."

Describe opportunities for training and professional development provided to anyone who worked on the project or anyone who was involved in the activities supported by the project. "Training" activities are those in which individuals with advanced professional skills and experience assist others in attaining greater proficiency. Training activities may include, for example, courses or one-on-one work with a mentor. "Professional development" activities result in increased knowledge or skill in one's area of expertise and may include workshops, conferences, seminars, study groups, and individual study. Include participation in conferences, workshops, and seminars not listed under major activities.

For all projects reporting graduate student and/or postdoctoral participants in Section D. Participant, grantees are encouraged to describe the use of Individual Development Plans (IDPs) for those participants. Do not include the actual IDP; instead include information to document that IDPs are used to help manage the training for those individuals.

For T, F, K, R25, R13, D43 and other awards or award components designed to provide training and professional development opportunities, a response is required. Do not reiterate what is reported under Accomplishments. Limit the response to this reporting period.

Nothing to Report

Upload Description and Diversity Report, as applicable

Drop files here to upload, or [browse](#).

Max File Count: 1 Accepted File Types: PDF Max File Size: 6MB

▼ **B.5 How have the results been disseminated to communities of interest?**

Describe how the results have been disseminated to communities of interest. Include any outreach activities that have been undertaken to reach members of communities who are not usually aware of these research activities, for the purpose of enhancing public understanding and increasing interest in learning and careers in science, technology, and the humanities.

Reporting the routine dissemination of information (e.g., websites, press releases) is not required. For awards not designed to disseminate information to the public or conduct similar outreach activities, a response is not required and the grantee should select "Nothing to Report". A detailed response is only required for awards or award components that are designed to disseminate information to the public or conduct similar outreach activities. Note that scientific publications and the sharing of research sources will be reported under Products.

▼ B.6 What do you plan to do during the next reporting period to accomplish the goals?

Describe briefly what you plan to do during the next reporting period to accomplish the goals and objectives.

- 🔗 Discuss efforts to ensure that the approach is scientifically rigorous and results are robust and unbiased. Remember that significant changes in objectives and scope require prior approval of the agency (e.g., NIH Grants Policy Statement, 8.1.2.).
- 🔗 Include any important modifications to the original plans. Provide a scientific justification for any changes involving research with human subjects or vertebrate animals. A detailed description of such changes must be provided under Changes.

C.5.b Resource Sharing

PD/PIs and recipient organizations are expected to make the results and accomplishments of their activities available to the research community and to the public at large. For additional information on NIH Sharing Policies and Related Guidance on NIH-Funded Research Resources see <https://grants.nih.gov/grants/sharing.htm>.

If the initial research plan addressed, or the terms of award require, a formal plan for sharing final research data, model organisms, Genome Wide Association Studies data, or other such project-specific data, describe the progress in implementing that plan. For sharing model organisms, include information on the number of requests received and number of requests fulfilled during this reporting period. If the sharing plan is fully implemented, provide a final statement on data sharing.

[Instructions for flattening PDFs](#)

The following applies to all NIH Awards EXCEPT FELLOWSHIPS:

- For NIH awards, Commons IDs are now required for individuals with the Undergraduate, Graduate Student, and Postdoctoral roles. Commons IDs can be created by going to the eRA Commons Home Page and Creating an Account or by contacting the signing official of their organization.
- Individuals with these roles on a project are required to complete their Commons Personal Profile.
- Individuals with a Graduate Student role must enter at least one degree, and those with a Postdoctoral role must enter a doctoral degree. Degrees can be entered under the individual's Personal Profile found after they log into Commons.

[Expand/Collapse All](#)

D.1 What individuals have worked on the project?

Provide or update the following information for:

- program director(s)/principal investigator(s) (PDs/Pis); and
- each person who has worked at least one person month per year on the project during the reporting period, regardless of the source of compensation (a person month equals approximately 160 hours or 8.3% of annualized effort).

Provide the name and identify the role the person played in the project. Indicate the nearest whole person month (Calendar, Academic, Summer) that the individual worked on the project. Show the most senior role in which the person has worked on the project for any significant length of time. For example, if an undergraduate student graduates, enters graduate school, and continues to work on the project, show that person as a graduate student.

[Instructions](#)

- An individual's Commons user ID may be used to partially populate his or her information.
- A Commons ID is required for all individuals with a postdoctoral role and/or supported by a Reentry or Diversity Supplement
- Individuals with a postdoctoral-like role should be identified as "Postdoctoral (scholar, fellow, or other postdoctoral position)."
- Do not include Other Significant Contributors who are not committing any specified measurable effort to this project.
- Do not report personnel for whom a PHS 2271 Appointment form has been submitted through xTRAIN.
- Required fields are marked with an *.

[/ D.2 Personnel Update](#)

▼ D.2.a Level of Effort

Will there be, in the next budget period, either

1. a reduction of 25% or more in the level of effort from what was approved by the agency for the PD/PI(s) or other senior/key personnel designated in the Notice of Award, or
2. a reduction in the level of effort below the minimum amount of effort required by the Notice of Award?

Yes No

Reductions are cumulative, i.e., the 25% threshold may be reached by two or more successive reductions that total 25% or more. Once agency approval has been given for a significant change in the level of effort, then all subsequent reductions are measured against the approved adjusted level. Selecting "yes" constitutes a prior approval request to the agency and the issuance of a subsequent year of funding constitutes agency approval of the request.

If yes, provide an explanation below

700 characters remaining

▼ D.2.b New Senior/Key Personnel

Are there, or will there be, new senior/key personnel? Yes No

Senior/key personnel are those identified by the grantee institution as individuals who contribute in a substantive measurable way to the scientific development or execution of the project, whether or not salaries are requested. Typically these individuals have doctoral or other professional degrees, although individuals at the masters or baccalaureate level may be considered senior/key personnel if their involvement meets this definition. Consultants may be considered senior/key personnel if they meet this definition. "Zero percent" effort or "as needed" is not an acceptable level of involvement for senior/key personnel.

If yes, upload biosketches and other support for all new senior/key personnel

Please upload supporting document:

Drop files here to upload, or [browse](#).

Max File Count: 1 Accepted File Types: PDF Max File Size: 6MB

▼ D.2.c Changes in Other Support

Has there been a change in the active other support of senior/key personnel since the last reporting period? Yes No

If yes, upload active other support for senior/key personnel whose support has changed and indicate what the change has been

Please upload supporting document:

Drop files here to upload, or [browse](#).

Max File Count: 1 Accepted File Types: PDF Max File Size: 10MB

Combined_OS.pdf

✖ ✔

▼ D.2.d New Other Significant Contributors

Are there, or will there be, new other significant contributors? Yes No

Other significant contributors are individuals who have committed to contribute to the scientific development or execution of the project, but are not committing any specified measurable effort (i.e., person months) to the project.

If yes, upload biosketches for all new other significant contributors.

Please upload supporting document:

Drop files here to upload, or [browse](#).

Max File Count: 1 Accepted File Types: PDF Max File Size: 6MB

▼ D.2.e Multi-PI (MPI) Leadership Plan

Will there be a change in the MPI Leadership Plan for the next budget period? N/A Yes No

Change in status of PD/PI requires prior approval of the agency (e.g., NIH Grants Policy Statement, &1.2.6).

If yes, upload a revised MPI Leadership Plan that includes a description of the change(s)

Please upload supporting document:

Drop files here to upload, or [browse](#).

F.1 Not Applicable

 F.2 Actual or anticipated challenges or delays and actions or plans to resolve them

Describe challenges or delays encountered during the reporting period and actions or plans to resolve them.

 Describe only significant challenges that may impede the research (e.g., accrual of patients, hiring of personnel, need for resources or research tools) and emphasize their resolution.

Nothing to Report

or describe challenges or delays and plans to resolve them below

One challenge encountered during the current reporting period is the significant increase in dosage of DHED.

✓ F.3 Significant changes to Human Subjects, Vertebrate Animals, Biohazards, and/or Select Agents

Describe significant deviations, unexpected outcomes, or changes in approved protocols for human subjects, vertebrate animals, biohazards, and/or select agents during this reporting period.
Remember that significant changes in objectives and scope require prior approval of the agency (e.g., NIH Grants Policy Statement, 8.1.2.). If there are changes in any of the following areas check the appropriate box and provide a description of the changes.

F.3.a Human Subjects

If human subject protocols are or will be different from the previous submission, include a description and explanation of how the protocols differ and provide a new or revised Protection of Human Subjects Section as described in the competing application instructions.

Nothing to Report

or upload description of change

📁 Drop files here to upload, or [browse](#).

Max File Count: 1 Accepted File Types: PDF Max File Size: 6MB

F.3.b Vertebrate Animals

If there are or will be significant changes to the uses of vertebrate animals from the previous submission, provide a description of the changes. Examples of changes considered to be significant include, but are not limited to, changing animal species, changing from noninvasive to invasive procedures, new project/performance site(s) where animals will be used, etc. If studies involving live vertebrate animals are planned and were not part of the originally proposed research design, provide a new or revised Vertebrate Animal Section as described in the competing application instructions.

Max File Count: 1 Accepted File Types: PDF Max File Size: 6MB

F.3.d Select Agents

If the possession, use, or transfer of Select Agents is or will be different from that proposed in the previous submission, including any change in the select agent research location and/or the required level of biocontainment, provide a description and explanation of the differences. If the use of Select Agents was proposed in the previous submission but has not been approved by regulatory authorities, provide an explanation. If studies involving Select Agents are planned and were not part of the originally proposed research design, provide a description of the proposed use, possession, transfer, and research location as described in the competing application instructions. ▼ G.9 Foreign Component

"Foreign component" is defined as significant scientific activity that was performed outside of the United States, either by the grantee or by a researcher employed by a foreign organization, whether or not grant funds were expended. The following grant-related activities are significant and must be reported:

- involvement of human subjects or research with live vertebrate animals;
- extensive foreign travel by awardee project staff to collect data, or conduct surveys or sampling activities; or
- any awardee activity that may have an impact on U.S. foreign policy.

Examples of other award-related activities that *may* be significant are:

- collaborations with investigators at a foreign site anticipated to result in co-authorship;
- use of facilities or instrumentation at a foreign site; or
- receipt of financial support or resources from a foreign entity.

Foreign travel for consultation does not meet the definition of foreign component.

No foreign component

or provide the organization name, country, and description of each foreign component

▼ G.10 Estimated Unobligated Balance

G.10.a Is it anticipated that an estimated unobligated balance (including prior year carryover) will be greater than 25% of the current year's total approved budget? Yes No

[AHRQ Special Instructions](#)

The "total approved budget" equals the current fiscal year award authorization plus any approved carryover of funds from a prior year(s). The numerator equals the total amount available for carryover and the denominator equals the current year's total approved budget.

If yes, provide the estimated unobligated balance.

G.10.b Provide an explanation for unobligated balance below

700 characters remaining

G.10.c If authorized to carryover the balance, provide a general description of how it is anticipated that the funds will be spent. To determine carryover authorization, see the [Notice of Award](#)

The screenshot shows the Commons RPPR module interface. At the top is a navigation bar with the Commons logo and NIH Office of Extramural Research. Below it is a menu with tabs for Grant List, Rppr Menu, PD/PI Assurance Report, A. Cover Page, B. Accomplishments, C. Products, D. Participants, E. Impact, F. Changes, G. Special Reporting Req, and H. Budget (which is highlighted). Below the menu is a section titled "H. Budget" with a help icon. A blue banner contains the text "Remember to save all your changes before leaving the page." Below this is a link for "Expand/Collapse All" and the text "Not Applicable". At the bottom right is a "Cancel" button. A breadcrumb trail at the bottom reads: "A. Cover Page | B. Accomplishments | C. Products | D. Participants | E. Impact | F. Changes | G. Special Reporting Req | H. Budget".

When Budget Forms are Required

The screenshot shows the "SF424 Research & Related Budget" form. The navigation bar is similar to the previous screenshot, with the "H. Budget" tab highlighted. The form title is "SF424 Research & Related Budget" with a help icon. A blue banner contains the text "Remember to save all your changes before leaving the page." Below this is a link for "Expand/Collapse All" and the text "Component ID: Core-5152". The form contains several input fields: "OMB Number: 0925-0001", "Unique Entity Identifier (UEI)" with the value "Z9CRZKD42ZT1", "Organization Name" with the value "UNIVERSITY OF MARYLAND BALTIMORE", "Budget Period" with the value "1", "Start Date" with the value "07/01/2024", "End Date" with the value "06/30/2025", and "Budget Type" with the value "Project". Below these fields are two sections: "A. Senior/Key Person" with an "Add Senior/Key Person" button, and "B. Other Personnel" which contains a table. The table has columns for "Number of Personnel", "Project Role", "Person Months" (Calendar, Academic, Summer), "Requested Salary", "Fringe Benefits", and "Funds Requested". The table is currently empty, with all values set to 0.00. Below the table are summary rows for "Total Number Other Personnel", "Total Other Personnel", and "Total Salary, Wages and Fringe Benefits (A+B)". Below the table is a section for "C. Equipment Description" with an "Add Equipment Item" button.

Final/Interim-RPPR Outcomes

I. Outcomes ?

Remember to save all your changes before leaving the page.

For NIH Section I, Outcomes will be made **publicly available**, thus allowing recipients to provide the general public with a concise summary of the cumulative outcomes or findings of the project at the end of a competitive segment. For NIH awards the length should not exceed half a page. In addition, for the interim or final RPPR, the summary of outcomes or findings of the award must be written in the following format:

- Is written for the general public in clear, concise, and comprehensible language;
- Is suitable for dissemination to the general public, as the information may be available electronically;
- Does not include proprietary, confidential information or trade secrets

Please refer to the following link for samples of acceptable project outcomes: https://grants.nih.gov/grants/rppr/sample_project_outcomes_RPPR.htm
