APPENDIX B1-A. DRAFT COLORADO LEADERSHIP ANNOUNCEMENT TO CENTER DIRECTORS AND TEACHERS IN INTERVENTION AND CONTROL CENTERS

Dear [NAME],

As you know, the Colorado Department of Early Childhood (CDEC) is conducting a pilot initiative, the Colorado Early Childhood Teacher Salary Increase Pilot, to increase salaries paid to child care teachers. An evaluation study of the pilot initiative aims to measure the effects of the salary increase on teachers' employment, earnings, and economic and psychological well-being. It also aims to understand how the initiative is implemented, the costs associated with the initiative, and how the initiative is experienced by the early care and education workforce. This study is funded by the Administration for Children and Families (ACF), of the U.S. Department of Health and Human Services, in partnership with the CDEC.

The next phase of the evaluation study is here! **In the next few weeks, you will receive an email or a phone call from the research team with more information.** The research team is led by MDRC, a non-profit research company, and includes MEF Associates and Decision Information Resources, Inc. (DIR).

Data collection activities for directors and teaching staff include the following:

- Surveys of directors and teachers, starting [MONTH/YEAR]

- For select centers/staff:
 - Interviews with select center directors and teachers, starting [MONTH/YEAR]
 - Completion of a cost workbook, starting [MONTH/YEAR]

Participation in this study is voluntary. **Each response matters!** The hope is that findings from this study will help Colorado and other states find better ways to support educators in the future.

If you have any questions about the survey, the study, or about your rights as a research subject, you may call MDRC's Colorado Teacher Salary Increase Pilot hotline at (855) 907-6695 or e-mail COSalaryStudy@mdrc.org.

The Colorado Department of Early Childhood
