Instrument 1. SRAENE Co-Regulation Measures Pilot Study: Youth Screener for Cognitive Interviews and Pilot Survey

THE PAPERWORK REDUCTION ACT OF 1995

This collection of information is voluntary and will be used to provide the Administration for Children and Families with information to help refine and guide the development of a survey on self- and co-regulation in the area of adolescent pregnancy prevention. Public reporting burden for this collection of information is estimated to average 5 minutes per response, including the time for reviewing instructions, gathering and maintaining the data needed, and reviewing the collection of information. An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number. The OMB number and expiration date for this collection are OMB #: 0970-0355, Exp: 08/31/2024. Send comments regarding this burden estimate or any other aspect of this collection of information, including suggestions for reducing this burden, to Heather Zaveri at hzaveri@mathematica-mpr.com.

Summer 2024

YOUTH COGNITIVE INTERVIEW FOCUS GROUPS: Thank you for your interest in this research study. We are testing a survey and want your feedback to learn if the questions are clear and easy to understand, if topics are missing, or if there are better ways to ask the questions. If you are selected for the study and choose to join it, you will participate in a 90-minute [in-person/virtual] discussion group. The survey we are testing will be used by the Administration for Children and Families (ACF). ACF is an agency in the federal government within the U.S. Department of Health and Human Services that supports the health and well-being of people. ACF has hired Mathematica, a research company, to do this research study.

- This effort is to refine a measure that is appropriate for youth who have various backgrounds and represent different subpopulations. To ensure we receive feedback from a diverse set of youth, we are asking about certain demographic characteristics.
- If you are selected to participate, joining this study is completely voluntary. This means there are no consequences if you choose to join the study or not.
- The survey questions will ask about how you handle your emotions and make decisions. You do
 not have to answer any questions that you are not comfortable with. You can also stop at any
 time. Your answers to these questions will help us improve the survey questions.
- Your survey answers will not be linked with your name and no information will be reported that
 could identify you. Your survey answers and what is discussed in the discussion group will not be
 shared with your parents or guardians, teachers, or anyone outside of our research team. We will
 write a report that tells ACF what we learned from the discussion groups and how to improve the
 survey guestions. We will destroy all data at the end of the study.

YOUTH PILOT SURVEY: Thank you for your interest in this research study. We are testing a survey and want to see how long it takes youth to complete and understand if it works well when administered online. If you are selected for the study and choose to join it, you will participate by completing the survey online. It should take approximately 10 minutes to complete. The survey we are testing will be used by the Administration for Children and Families (ACF). ACF is an agency in the federal government within the U.S. Department of Health and Human Services that supports the health and well-being of people. ACF has hired Mathematica, a research company, to do this research study.
