Abstract: 30 CFR 874.16 requires that every successful bidder for an AML contract must be eligible under 30 CFR 773.15(b)(1) at the time of contract award to receive a permit or conditional permit to conduct surface coal mining operations. Further, the regulation requires the eligibility to be confirmed by OSMRE's automated Applicant/Violator System (AVS) and the contractor must be eligible under the

regulations implementing Section 510(c) of the Surface Mining Control and Reclamation Act to receive permits to conduct mining operations. This form provides a tool for OSMRE and the States/Indian tribes to help them prevent persons with outstanding violations from conducting further mining or AML reclamation activities in the State.
