BLOCK 23

Specific Purpose

A. Select all that apply

- Overhaul/Repair
- Modification/Updated
- Other (Provide Details)

Details

Provide a complete account of the specific purpose of the requested temporary import. Simply stating, "For use in military exercise," "for transshipment," or "for space launch" is inadequate.

In order to provide rationale for the review and final U.S. Government determination, the specific details in this block should describe the intended uses, end-users, and end-use platforms of the commodities involved in the transaction. Additionally, specify if this is for a space launch occurring from the United States and reference any broader authorizations (e.g. technical assistance agreements) this transaction relates to. If applicable, list the RWA license number.

B. End-Use System/Platform

List the systems and/or platforms for which the commodity will be used on, in, or with (as described in the Details section of this block). All intended end-use systems and/or platforms must be identified. If the commodity is a system, identify the end-use platforms. If the commodity is a component or part, then identify both the end-use system and platform. For example, if the commodity is a component/part going into a remote weapons system (RWS) which will in turn be installed on an armored vehicle, then both the RWS and the vehicle must be listed. If a commodity itself is the end-use platform (e.g., a night vision goggle), then list the commodity.

C. Select One

This is a statement whether the material is being returned to the foreign country from which it is to be shipped (returned to country in Block 16) or involves a transshipment through the United States to a third country.

- Return to country in Block 16
- Transshipment to third country

BLOCK 24

Foreign Intermediate Consignee

If applicable, list all foreign intermediate consignees that may receive the goods for onward movement to the foreign consignee or foreign end-user. Otherwise select the "None" checkbox. To enter one or more foreign intermediate consignees, click the "Add Entry" button.

- None**

If there are no foreign intermediate consignees, select the 'None' check box. If the 'None' check box is selected, the 'Add' button becomes inactive.

Name

Enter the full legal name of the foreign intermediate consignee. Do not include “subsidiary of” statements, partial address or location clarifiers, or go-by names in the Name field, unless those are part of the legal name. A foreign intermediate consignee is an entity who will receive the goods for onward movement to the foreign consignee or foreign end-user without actually taking title to the goods. This includes foreign freight forwarders, customs brokers, agents or representatives, and brokers as defined in 22 CFR 129(a). The foreign intermediate consignee may or may not be in the same country as the foreign consignee or foreign end-user. Note that foreign government entities must be identified, at a minimum, to the ministry-level equivalent (e.g., “Ministry of Defense of Lilliput”). Applications that only state “Government of (Country)” may be returned without action.

Address

Incomplete/imprecise addresses or use of P.O. boxes will result in your request being RWAed.
