

CERTIFIED CARGO SCREENING FACILITY (CCSF) LETTER OF INTENT

INSTRUCTIONS: Companies seeking to be designated as a Certified Cargo Screening Facility (CCSF) must sign this form. A separate form must be submitted with each application, and the completed form must be submitted as part of the CCSF application package via email to AirCargoPrograms@tsa.dhs.gov as a protected data file (PDF).

NOTE: A complete CCSF application package includes TSA Form 419A CCSF Letter of Intent; TSA Form 419B CCSF Facility Profile Application; TSA Form 419C CCSF SSI Agreement; TSA Form 419D CCSF Principal Attestation; and TSA Form 419E Security Profile.

SECTION I. CCSP Background

The Implementing Recommendations of the 9/11 Commission Act of 2007, P.L. 110-53, (2007), requires TSA to establish a system to screen 100% of all cargo originating in the U.S. and transported on passenger aircraft or all-cargo aircraft at a level commensurate with that of passenger baggage. The Certified Cargo Screening Standard Security Program (CCSSSP) provides a mechanism by which industry will achieve 100% screening without impeding the flow of commerce. The CCSSSP adds an additional layer to TSA's current risk-based tiered approach to air cargo security by allowing TSA-approved entities to screen cargo in the supply chain as CCSFs.

SECTION II. CCSF Requirements

CCSFs must:

- adhere to increased security standards outlined in the CCSSSP;
- share responsibility for supply chain security;
- employ chain of custody methods; and
- permit on site facility assessments, validations, and TSA inspections.

SECTION III. Approved CCSF Certification

When approved by TSA, the CCSF Certification is valid for three (3) years from the date of issuance.

- CCSFs are required to submit an annual verification of information. The verification should be updated to reflect all changes to their security program and attest that the CCSF remains in compliance with its original application and certification.
- CCSFs will be subject to random inspections by TSA.
- CCSFs are required to submit an application for renewal of their security program every three (3) years in order to maintain good standing, as specified in 49 CFR Part 1549.7(b). If TSA determines that the CCSF meets the requirements it will renew the CCSF's security program and certification.

SECTION IV. Transfer of Cargo

Formal movement of certified screened cargo cannot begin until the CCSF has received its CCSF screened cargo identifiers. CCSF must notify their Principal Security Specialist (PSS) via written notice or email when stickers have been received and the CCSF is ready to utilize them.

SECTION V. Submittal Agreement

By submitting the application, the CCSF applicant agrees to:

- Allow TSA to perform on-site validations of the facility's adherence to required standards.
- Follow required processes and procedures for protecting Sensitive Security Information (SSI).
- Comply with the program pursuant to the Code of Federal Regulations (CFR) Title 49 CFR 1549.
