

This collection of information is approved by OMB under the Paperwork Reduction Act, 44 U.S.C. 3 to this collection of information are required in order to obtain benefits under the National Clean Investment Accelerator (CCIA) programs. An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number. The public reporting and recordkeeping burden for this collection of information is estimated to average 162.5 hours per response. Send comments on the Agency's need for this information, the accuracy of the information, the burden of the collection of information, or any other aspect of this collection of information, including suggested methods for minimizing respondent burden to the Regulatory Support Division Director, Office of Management and Budget, Paperwork Reduction Project (1505-0046), 1215 Pennsylvania Ave., NW, Washington, D.C. 20460. Include the OMB control number in any correspondence.

Color Key for Report Template Column Headers (Data Elements)	
Black	Indicates a data element i.e. a column header or field in the report template. Each data element has a unique identifier in the following format, "DE000" when complete, allowing for cross-reference to the data dictionary.
Red	Indicates a data element that requires a longitudinal reporting since it this data will change over time, like the unpaid principal balance, for example.
Green	Indicates a data element that is itself a calculated or inferred value, like many of the greenhouse gas emissions that are computed based on data input parameters like interconnection dates and geographic locations, for example.
Black with Red Text	Indicates metadata that will get added to the report based on when the data gets loaded into the system. The grantee does not report this data <i>directly</i> .
Pink	Indicates a data element that serves as the primary or foreign key among different flat files (0-AWARD; 1-TRANSACTIONS...; 4-PROJECTS; and so on) in the report template, thus linking the flat files together into a cohesive report.
Blue	Indicates a field or column header included in the flat file report template for ease of reference. Such fields will <i>*not*</i> be included in the actual report template and only help to make the test data more human readable .

# Assumptions	
1	Each transaction must have one and only one "transaction purpose." There are five possible values for the field "Transaction Purpose": TECHNICAL; FINANCIAL; SUBAWARD-TECHNICAL; SUBAWARD-FINANCIAL; ADMIN.
2	Each prime recipient can report transactions to end beneficiaries through direct lending financial operations on the "2-TRANSACTIONS-ENDBENEFICIARIES" tab or can report transactions to intermediaries, like subrecipients or the creation of financial products, like credit enhancements or loan loss reserves, that require the creation of reserve accounts with financial set asides.

# Business Objects	
1	Grant award (identified by the US EPA Grant Number)
2	Transactions (identified by a unique transaction number in the general or subledger)

3	Contracts (identified by a unique contract identifier in the ledger or subledger)
4	Projects (identified through a unique project identifier)
5	Project Sites (identified through a unique site identifier)
6	Benefits

Miscellaneous Notes	
1	Tab "4-PROJECTS" has grouped columns which can be expanded or collapsed using the grey "+" and "-". These groupings correspond to the three priority project areas and make it easier to navigate that tab.
