Designee Acknowledgment Statement

If designated under Title 49, United States Code, 544702(d) and/or 14 CFR Part 183, I understand that:

I represent the FAA Administrator and must maintain the highest standards, knowledge and skill levels. Designation is a privilege. Designees serve the needs of the FAA in fulfilling its safety mission, allowing the FAA to leverage its resources. This privilege conveys responsibilities, but does not imply employment or other rights unrelated to FAA needs. The FAA has oversight responsibilities over my designation, and can observe my activity as a designee at any time. I must successfully complete required training within the timeframes established, to include passing the examinations provided during training. I will perform my tasks with integrity and cooperation, exercising sound judgement and a professional attitude in all my dealings with the public and the FAA as related to my designation. My designation is predicated on an FAA need for a designee to perform certifications and the ability of the FAA to manage my designation.

FAA Designee Program

The Designee Management System (DMS) is a web-based tool designed to standardize the management of designees. The Designee Management Policy establishes the process and procedures for managing all aspects of administration including registration, application, selection, appointment, orientation, training, oversight, suspension and termination.

The DMS program represents a consolidation of existing policy and procedures across the Office of Aviation Safety (AVS) lines of business: Aircraft Certification Service (AIR), Flight Standards Service (AFS) and the Office of Aerospace Medicine (AAM). All Applicants for designation, current designees, and FAA personnel responsible for managing designees/delegations must follow the Designee Management Policy and use the DMS tool as directed except for the holders of Organization Designation Authorization (ODA).

Please click the link to view the policy.

Note: Due to security requirements, after 30 minutes of inactivity you will be automatically logged off DMS and required to login again before resuming activity.
