SUPPLEMENTARY INFORMATION:

Title: Reduction of Truck Emissions at Port Facilities Grant Program.

Background: The Bipartisan Infrastructure Law (BIL) created the Reduction of Truck Emissions at Port Facilities (RTEPF), which includes a discretionary grant program that was allocated up to \$400 million over the five-year life of the BIL. The BIL provides the RTEPF Grant Program funding to test, evaluate, and deploy projects that reduce port-related emissions from idling trucks, including through the advancement of port electrification and improvements in efficiency, focusing on port operations, including heavy-duty commercial vehicles, and other related projects.

Respondents: Eligible applicants for RTEPF Grant Program funds are entities that (1) have authority over, operate, or utilize port facilities and/or intermodal port transfer facilities, (2) have authority over areas within or adjacent to ports and intermodal port transfer facilities, or (3) will test and/or evaluate technologies that reduce truck emissions at port facilities and/or intermodal port transfer facilities.

Frequency: RTEPF Grant Program Notices of Funding Opportunity (NOFOs) will be issued annually during the life of the BIL, though some years of funding created for the program may be combined, resulting in a multi-year NOFO.

Estimated Average Burden per Response: 40 hours per respondent per application.

Estimated Total Annual Burden Hours: In the first round of the RTEPF Grant Program (FY 2022-2023 NOFO), approximately 50 applications (both complete and incomplete combined)

were received. It is expected a similar number of applications will be submitted for the FY 2024 NOFO, creating an estimated total of 2000 annual burden hours.

The agency will summarize and/or include your comments in the request for OMB's clearance of this information collection.

Authority: The Paperwork Reduction Act of 1995; 44 U.S.C. chapter 35, as amended; and 49 CFR 1.48.
