Please make corrections to name, address and ZIP Code, if necessary.

The information you provide will be used for statistical purposes only. Your response will be kept confidential and any person who willfully discloses ANY identifiable information about you or your operation is subject to a jail term, a fine, or both. This survey is conducted in accordance with the Confidential Information Protection and Statistical Efficiency Act of 2018, Title III of Pub. L. No. 115-435, codified in 44 U.S.C. Ch. 35 and other applicable Federal laws. For more information on how we protect your information please visit: <https://www.nass.usda.gov/confidentiality>. Response is voluntary.

According to the Paperwork Reduction Act of 1995, an agency may not conduct or sponsor, and a person is not required to respond to a collection of information unless it displays a valid OMB control number. The valid OMB number is 0535-0003. The time required to complete this information collection is estimated to average 20 minutes per response, including the time for reviewing instructions, searching existing data sources, gathering and maintaining the data needed, and completing and reviewing the collection of information.

Average prices received by farmers for cotton are needed to compute price indexes, parity prices, and farm income. By supplying the information requested below, you will be helping to accurately estimate prices received by farmers. Information requested in this survey is used to prepare estimates of selected agricultural commodities.

**Instructions for Reporting Prices**

Please report average prices for the time period specified. The prices should reflect an **f.o.b. warehouse price**. Reported price should account for all grades of cotton purchased or delivered to your firm directly from producers as first time sales, without regard to eventual ownership or user. Include only cotton for which you paid or will pay the check-off as cotton purchased from producers. Exclude purchases from country buyers or other merchants.

To arrive at an **f.o.b. warehouse price**, start with (1) the average price paid per pound to producers for cash purchases and contract deliveries, or (2) dollars per bale for option purchases (Form 605) for the period, or (3) the total dollars paid for cash or option purchases cotton during the period. Then, make the necessary adjustments, if any, listed below.

**Items TO BE Deducted from Reported Price:**

- Compression and load out;
- Interest, storage and other marketing charges incurred after the producer relinquishes title;
- Any government payments (i.e., loan deficiency payments, "POP" payments);
- Gains from repaying loan at less than the loan rate.

**Items NOT TO BE Deducted from Reported Price:**

- Transportation costs to the warehouse;
- Warehouse receiving charges;
- Interest, storage and other marketing cost incurred by the producer while retaining ownership;
- Producer check-off fees for the Cotton Research and Promotion Assessment Program.

**Note:** If current deductions or add-ons are not available, use the average of the previous 3 years projected to the current year.

**Cash Purchases and Contract Deliveries 2022 Crop and Earlier UPLAND Cotton**

Report cash cotton purchased directly from farmers except Form 605 transactions. Form 605 transactions should be reported as cotton acquired under loan. Include only cash cotton for which you paid or will pay the check-off fee as cotton purchased from producers. If "POP" cotton, exclude direct government payment to producer.
