

- policies, programs, or multi-stakeholder activities that—
 - promote or are related to the privacy of individuals who use or are affected by the Internet of Things;
 - may enhance the security of the Internet of Things, including the security of critical infrastructure;
 - may protect users of the Internet of Things; and
 - may encourage coordination among Federal agencies with jurisdiction over the Internet of Things

Note that agenda items may change without notice. The final agendas will be posted on the IoT Advisory Board web page: <https://www.nist.gov/itl/applied-cybersecurity/nist-cybersecurity-iot-program/internet-things-advisory-board>.

Public Participation: Written comments and requests to present comments orally to the IoT Advisory Board from the public are invited and may be submitted electronically by email to Barbara Cuthill at the contact information indicated in the **FOR FURTHER INFORMATION CONTACT** section of this notice by 5 p.m. on the Tuesday, January 16, 2024 to allow distribution of written comments to IoT Advisory Board members prior to the meeting. Each IoT Advisory Board meeting agenda will include a period, not to exceed sixty minutes, for oral presentation of comments from the public. Oral presentation of comments from the public during this sixty-minute period will be accommodated on a first-come, first-served basis and limited to five minutes per person for oral presentation if requested by the commenter. Members of the public who wish to expand upon their submitted comments, those who had wished to present comments orally but could not be accommodated on the agenda, and those who were unable to attend the meeting via webinar, are invited to submit written statements. In addition, written statements are invited and may be submitted to the IoT Advisory Board at any time. All written statements should be directed to the IoT Advisory Board Secretariat, Information Technology Laboratory by email to: Barbara.Cuthill@nist.gov.

Admittance Instructions: Participants planning to attend via webinar must register via the instructions found on the IoT Advisory Board's web page at <https://www.nist.gov/itl/applied->

cybersecurity/nist-cybersecurity-iot-program/internet-things-advisory-board.

Tamiko Ford,

NIST Executive Secretariat.

BILLING CODE 3510–13–P

DEPARTMENT OF COMMERCE

National Oceanic and Atmospheric Administration

Agency Information Collection Activities; Submission to the Office of Management and Budget (OMB) for Review and Approval; Comment Request; Alaska Region Logbook and Activity Family of Forms

AGENCY: National Oceanic & Atmospheric Administration (NOAA), Commerce.

ACTION: Notice of information collection, request for comment.

SUMMARY: The Department of Commerce, in accordance with the Paperwork Reduction Act of 1995 (PRA), invites the general public and other Federal agencies to comment on proposed, and continuing information collections, which helps us assess the impact of our information collection requirements and minimize the public's reporting burden. The purpose of this notice is to allow for 60 days of public comment preceding submission of the collection to OMB.

DATES: To ensure consideration, comments regarding this proposed information collection must be received on or before February 5, 2024.

ADDRESSES: Interested persons are invited to submit written comments to Adrienne Thomas, NOAA PRA Officer, at NOAA.PRA@noaa.gov. Please reference OMB Control Number 0648–0213 in the subject line of your comments. Do not submit Confidential Business Information or otherwise sensitive or protected information.

FOR FURTHER INFORMATION CONTACT: Requests for additional information or specific questions related to collection activities should be directed to Amy Hadfield, National Marine Fisheries Service, P.O. Box 21668, Juneau, AK 99802–1668, (907) 586–7376, amy.hadfield@noaa.gov.

SUPPLEMENTARY INFORMATION:

I. Abstract

NMFS, Alaska Region (NMFS AKR), is requesting renewal of this currently approved information collection that consists of paper logbooks and reports used for management of the groundfish

fisheries in the Bering Sea and Aleutian Islands Management Area (BSAI) and the Gulf of Alaska (GOA), management of the Individual Fishing Quota halibut and sablefish fisheries, and management of the BSAI Crab Rationalization Program crab fisheries. NMFS AKR manages the groundfish and crab fisheries in the exclusive economic zone (EEZ) of the BSAI and the groundfish fisheries of the GOA under fishery management plans (FMPs) for the respective areas. The North Pacific Fishery Management Council prepared, and NMFS approved, the FMPs under the authority of the Magnuson-Stevens Fishery Conservation and Management Act, 16 U.S.C. 1801 *et seq.* Regulations implementing the FMPs appear at 50 CFR parts 679 and 680. Regulations for the logbooks and reports in this information collection are at 50 CFR 679.5.

The information collected through the paper logbooks and reports promotes the goals and objectives of the FMPs, the Magnuson-Stevens Fishery Conservation and Management Act, and other applicable laws. The collection of reliable data is essential to the effective conservation, management, and scientific understanding of the fishery resources.

Collecting information from fishery participants is necessary to promote successful management of groundfish, crab, Pacific halibut, and salmon resources. A comprehensive information system that identifies the participants and monitors their fishing activity is necessary to enforce the management measures and prevent overfishing. An information system is also needed to measure the consequences of management controls. This collection supports an effective monitoring and enforcement system with information that includes identification of the participating vessels, operators, dealers, and processors; location of the fishing activity; timeframes when fishing and processing is occurring; and shipment and transfer of fishing products.

Shoreside processors, stationary floating processors, and motherships receiving EEZ-caught fish and all vessels of the United States harvesting EEZ fish are required to hold a Federal permit and thus comply with reporting requirements per CFR 679.5. The data collected are used for making in-season and inter-season management decisions that affect the groundfish resources and the fishing industry that uses them.

This information collection contains four components: Paper logbooks, vessel activity reports, check-in/check-out reports, and product transfer reports.

- Daily logbooks provide data about the location and timing of fishing effort, as well as discard information of prohibited species. NOAA Office for Law Enforcement (OLE) and the United States Coast Guard (USCG) use logbook information during vessel boardings and site visits to ensure conservation of groundfish, compliance with regulations, and reporting accuracy by the fishing industry. The logbooks are also an important source of information for NMFS to determine where and when fishing activity occurs and the number of sets and hauls.

- Vessel activity reports provide information about fish or fish product on board a vessel when it crosses the boundary of the EEZ off Alaska or crosses the U.S.—Canada international boundary between Alaska and British Columbia. NOAA OLE and USCG boarding officers use this information to audit and separate product inventory when boarding a vessel.

- Check-in/check-out reports provide information on participation by processors and motherships in the groundfish fisheries. The check-in/check-out information is used by NMFS in-season managers to monitor the fishing capacity and effort in fishery allocations and quotas. Additionally, NOAA OLE agents use this information to track commercial business activity and ensure accurate accountability and proper reporting is being performed.

- Product transfer reports provide information on the volume of groundfish disposed of by persons buying it from the harvesters. The product transfer report is an important enforcement document and provides an important check on buyer purchase reports. Information collected on product transfer reports is used by NOAA OLE to verify the accuracy of reported shipments through physical inspections. NOAA OLE uses the product transfer report to monitor movement of product in and out of the processor on a timely basis.

II. Method of Collection

Paper logbooks are submitted by mail or delivery. The Vessel Activity Report, Product Transfer Report, and Check-in/Check-out Reports are submitted by email or fax.

III. Data

OMB Control Number: 0648–0213.

Form Number(s): None.

Type of Review: Regular submission (extension of a current information collection).

Affected Public: Individuals or households; Business or other for-profit organizations.

Estimated Number of Respondents: 289.

Estimated Time per Response: Catcher Vessel Trawl DFL: 18 minutes; Catcher Vessel Longline/Pot DFL: 35 minutes; Catcher/Processor Longline/Pot DCPL: 50 minutes; Shoreside Processor Check-in/Check-out Report: 5 minutes; Mothership Check-in/Check-out Report: 7 minutes; Product Transfer Report: 20 minutes; Vessel Activity Report: 14 minutes.

Estimated Total Annual Burden Hours: 13,706 hours.

Estimated Total Annual Cost to Public: \$5,875 in recordkeeping and reporting costs.

Respondent's Obligation: Mandatory.

Legal Authority: Magnuson-Stevens Fishery Conservation and Management Act.

IV. Request for Comments

We are soliciting public comments to permit the Department/Bureau to: (a) Evaluate whether the proposed information collection is necessary for the proper functions of the Department, including whether the information will have practical utility; (b) Evaluate the accuracy of our estimate of the time and cost burden for this proposed collection, including the validity of the methodology and assumptions used; (c) Evaluate ways to enhance the quality, utility, and clarity of the information to be collected; and (d) Minimize the reporting burden on those who are to respond, including the use of automated collection techniques or other forms of information technology.

Comments that you submit in response to this notice are a matter of public record. We will include or summarize each comment in our request to OMB to approve this ICR. Before including your address, phone number, email address, or other personal identifying information in your comment, you should be aware that your entire comment—including your personal identifying information—may be made publicly available at any time. While you may ask us in your comment to withhold your personal identifying information from public review, we cannot guarantee that we will be able to do so.

Sheleen Dumas,

Department PRA Clearance Officer, Office of the Under Secretary for Economic Affairs, Commerce Department.

BILLING CODE 3510–22–P

DEPARTMENT OF COMMERCE

National Oceanic and Atmospheric Administration

Agency Information Collection Activities; Submission to the Office of Management and Budget (OMB) for Review and Approval; Comment Request; Processed Products Family of Forms

The Department of Commerce will submit the following information collection request to the Office of Management and Budget (OMB) for review and clearance in accordance with the Paperwork Reduction Act of 1995, on or after the date of publication of this notice. We invite the general public and other Federal agencies to comment on proposed, and continuing information collections, which helps us assess the impact of our information collection requirements and minimize the public's reporting burden. Public comments were previously requested via the **Federal Register** on July 26, 2023 during a 60-day comment period. This notice allows for an additional 30 days for public comments.

Agency: National Oceanic and Atmospheric Administration (NOAA), Commerce.

Title: Processed Products Family of Forms.

OMB Control Number: 0648–0018.

Form Number(s): NOAA Forms 88–13, 88–13C.

Type of Request: Regular submission (extension of a current information collection).

Number of Respondents: 240.

Average Hours per Response: 30 minutes per response (0.5 hours).

Total Annual Burden Hours: 135.

Needs and Uses: This request is for extension of a currently approved information collection. This family of surveys provides necessary information on the seafood processing sector including volume of seafood products produced and their value. This data aids in gauging the industry and provides the basis for economic and scientific analyses.

Affected Public: Business or other for-profit organizations.

Frequency: Form 88–13—Annual; Form 88–13c—Monthly.

Respondent's Obligation: Mandatory for some Federal Permit holders, otherwise voluntary.

Legal Authority: Magnuson-Stevens Fishery Conservation and Management Act.

This information collection request may be viewed at www.reginfo.gov. Follow the instructions to view the
