Quantities over this amount must be discarded and recorded as discard in the DFL.

CATCH-BY-SET INFORMATION

A set
includes a test set, unsuccessful harvest, or when gear is not working and is pulled in, even if no fish are harvested.

A set means
a string of longline gear,
a string of pots, or
a group of pots with individual pots deployed and retrieved in the water in a similar location with similar soak time.

In the case of pot gear, when the pots in a string are hauled more than once in the same position, a

new set is created each time the string is retrieved and re-deployed.

Record the following information for each set. If no catch occurred for a day, write “no catch.”
