Submit a Request for Tissue Samples

Denors -

Researchers •

OMB Control Number: 0925-0723 Expiration Date: 10/31/2024 Public reporting burden for this collection of information is estimated to vary from 15 minutes per response, including the time for reviewing instructions, searching existing data sources, gathering and maintaining the data needed, and completing and reviewing the collection of information. An agency may not conduct or sponsor, and a person is not required to respond to, a collection of $information \ unless \ it \ displays \ a \ currently \ valid \ OMB \ control \ number. \ Send \ comments \ regarding \ this \ burden \ estimate \ or \ any \ other$ aspect of this collection of information, including suggestions for reducing this burden, to: NIH, Project Clearance Branch, 6705 Rockledge Drive, MSC 7974, Bethesda, MD 20892-7974, ATTN: PRA (0925-0723). Do not return the completed form to this address.

Publications

Planning the Request **Completing the Form Tissue Needs**

• If you are not sure precisely what tissue, tissue regions, or quantities are best for your research project, please submit a request for help to the NIII NeuroBioBank before completing the on-line request.

• The Request Form requires you to provide a **detailed** rationale for 1) number of subjects

- requested, 2) amount of tissue requested per subject, and 3) number of brain regions
- The more restrictive your subject characteristics, the less likely a brain bank will have tissue that meets your requirements. Ensure that any restrictions you place on subject characteristics (e.g., postmorteminterval (PMI), RNA Integrity Number (RIN), age range) are necessary for your study to be valid.
