You have the right to appeal this decision

You have the right to ask us to review our decision by asking us for an appeal within 65 calendar days of the date of this notice. If you ask for an appeal after 65 days, you must explain why your appeal is late.

You or your prescribing provider have the right to ask us for a special type of appeal called an **“exception.”** Your prescribing provider must provide a statement to support your exception request. Examples of an exception are:

- **Formulary exception:** you need a drug that’s not on our list of our covered drugs (formulary).
- **Coverage rule exception:** you think a coverage rule (like prior authorization or a quantity limit) shouldn’t apply to you for medical reasons.
- **Tiering Exception:** you need to take a non-preferred drug that’s on a higher cost-sharing tier, and you want our plan to cover the drug at a lower cost-sharing amount.

Who can ask for an appeal?

You, your prescribing provider, or your representative can ask for an appeal. You can name a relative, friend, advocate, attorney, doctor, or someone else to be your representative. Others may already be authorized under State law to be your representative. To learn how to appoint a representative, call us at: () _____. TTY users call: () _____.

Important Information About Your Appeal Rights

There are 2 kinds of appeals: standard or expedited (fast)

Standard appeal: you’ll get a written decision within 7 days (or 14 days if your appeal is about a payment for a drug you already received).

Expedited appeal (fast): you’ll get a written decision within 72 hours.

- You can ask for an expedited (fast) appeal when you or your prescribing provider believe that your health could be seriously harmed by waiting for a standard decision.
- You can’t ask for an expedited appeal if you’re asking us to pay you back for a drug you already received.
- We’ll automatically expedite your appeal if your prescribing provider asks for one for you (or supports your request) and indicates that waiting for a standard decision could seriously harm your health. If you ask for an expedited appeal without support from your prescribing provider, we’ll decide if your health requires an expedited appeal. If we don’t give you an expedited appeal, we’ll process a standard appeal.

If you disagree with that decision, you'll have the right to further appeal. You'll be notified of your appeal rights if this happens.
