

Instructions:

1. Before accessing the CMS MERIT (Measures Under Consideration Entry/Review and Information Tool) online system, you are invited to complete the measure template below by entering your candidate measure information in the column titled “Add Your Content Here.”
2. All rows that have an asterisk symbol * in the Field Label require a response, unless otherwise indicated in the template.
3. For each row, the “Guidance” column provides details on how to complete the template and what kinds of data to include. Unless otherwise specified, the character limit for text fields in CMS MERIT is 8000 characters.
4. For check boxes, note whether the field is “select one” or “select all that apply.” You can click on the box to place or remove the “X.”
5. For all fields, especially Numerator and Denominator, use plain text whenever possible. Please convert any special symbols, math expressions, or equations to plain text (keyboard alphanumeric, such as + - * /).
6. For all free-text fields: Be sure to spell out all abbreviations and define special terms at their first occurrence.
7. Numeric fields are noted, where applicable, in the “Add Your Content Here” column.
8. Row numbers are for convenience only and do not appear on the CMS MERIT user interface.
9. Send any questions to MMSsupport@battelle.org with the subject line “Pre-Rulemaking”.

PROPERTIES

Subsection	Row	Field Label	Guidance	ADD YOUR CONTENT HERE
Measure Information	001	*Measure Title	<p>Provide the measure title only (255 characters or less). Put any program-specific identification (ID) number under Characteristics, not in the title.</p> <p>Note: Do not enter the CMIT ID, consensus-based entity (endorsement) ID, former Jira MUC ID number, or any other ID numbers here (see other fields below). The CMS program name should not ordinarily be part of the measure title, because each measure record already has a required field that specifies the CMS program. An exception would be if there are several measures with otherwise identical titles that apply to different programs. In this case, including or imbedding a program name in the title (to prevent there being any otherwise duplicate titles) is helpful. For additional information on measure title, see: https://mmshub.cms.gov/measure-lifecycle/measure-specification/document-measure.</p>	Free text field
Measure Information	002	*Measure Description	<p>Provide a brief description of the measure. For additional information on measure description, see: https://mmshub.cms.gov/measure-lifecycle/measure-specification/document-measure.</p>	Free text field

Subsection	Row	Field Label	Guidance	ADD YOUR CONTENT HERE
Measure Information	003	*Select the CMS program(s) for which the measure is being submitted.	<p>Select all that apply. Please note, measures specified and intended for use at more than one level of analysis must be submitted separately for each level of analysis (e.g., individual clinician, facility).</p> <p>If you choose multiple programs for this submission, please ensure the programs fall under the same level of analysis. If you choose multiple programs and need guidance as to whether your selection represents multiple levels of analysis, please contact MMSSupport@battelle.org. There is functionality within CMS MERIT to decrease the data entry process for multiple submissions of the same measure. Please reach out to MMSSupport@battelle.org for guidance and support.</p> <p>If you are submitting for MIPS, there are two choices of program. Do NOT enter both MIPS-Quality and MIPS-Cost for the same measure. Choose MIPS-Quality for measures that pertain to quality and/or efficiency. Choose MIPS-Cost only for measures that pertain to cost.</p>	<input type="checkbox"/> Ambulatory Surgical Center Quality Reporting Program <input type="checkbox"/> End-Stage Renal Disease (ESRD) Quality Incentive Program <input type="checkbox"/> Home Health Quality Reporting Program <input type="checkbox"/> Hospice Quality Reporting Program <input type="checkbox"/> Hospital Inpatient Quality Reporting Program <input type="checkbox"/> Hospital Outpatient Quality Reporting Program <input type="checkbox"/> Hospital Readmissions Reduction Program <input type="checkbox"/> Hospital Value-Based Purchasing Program <input type="checkbox"/> Hospital-Acquired Condition Reduction Program <input type="checkbox"/> Inpatient Psychiatric Facility Quality Reporting Program <input type="checkbox"/> Inpatient Rehabilitation Facility Quality Reporting Program <input type="checkbox"/> Long-Term Care (LTC) Hospital Quality Reporting Program <input type="checkbox"/> Medicare Promoting Interoperability Program <input type="checkbox"/> Medicare Shared Savings Program <input type="checkbox"/> Merit-based Incentive Payment System-Cost <input type="checkbox"/> Merit-based Incentive Payment System-Quality <input type="checkbox"/> Part C Star Ratings <input type="checkbox"/> Part D Star Ratings <input type="checkbox"/> Prospective Payment System-Exempt Cancer Hospital Quality Reporting Program <input type="checkbox"/> Rural Emergency Hospital Quality Reporting Program <input type="checkbox"/> Skilled Nursing Facility Quality Reporting Program <input type="checkbox"/> Skilled Nursing Facility Value-Based Purchasing Program
n/a	n/a	If you select "Merit-based Incentive Payment System - Quality" in Row 003, then Row 004 becomes an optional field. If you do not select "Merit-based Incentive Payment System - Quality" in Row 003, then skip to Row 005.	n/a	This is not a data entry field.

Measure Information	004	MIPS Quality: Identify any links with related Cost measures and Improvement Activities	Where available, provide description of linkages and a rationale that correlates this MIPS quality measure to other performance category measures and activities.	Free text field
Measure Information	005	*Completed Stage(s) of Development	<p>Select all stages of development that have been completed. There are five stages in the Measure Lifecycle: conceptualization; specification; testing; implementation; and use, continuing evaluation, and maintenance. Measure conceptualization is the first stage; however, the stages are not necessarily sequential. Instead, the stages are iterative and can occur concurrently.</p> <p>The measure conceptualization stage initiates information gathering and business case development. The measure specification stage involves establishing the basic elements of the measure, including the numerator, calculation algorithm, and data source identification.</p> <p>The measure testing stage examines the specifications, usually with a limited number of real settings, to make sure the measure is scientifically acceptable and feasible.</p> <p>Measure specification and measure testing are iterative.</p> <p>For additional information regarding stage of development, see: https://mmshub.cms.gov/blueprint-measure-lifecycle-overview.</p>	<input type="checkbox"/> Measure Conceptualization <input type="checkbox"/> Measure Specification <input type="checkbox"/> Measure Testing <input type="checkbox"/> Measure Use, Continuing Evaluation & Maintenance
n/a	n/a	If you select only "Measure Conceptualization" and/or "Measure Specification" in Row 005, then Row 006 becomes a required field. If your selections include "Measure Testing" or "Measure Use, Continuing Evaluation & Maintenance" in Row 005, then skip to Row 007.	n/a	This is not a data entry field.

Evidence	106	* Outline the clinical guideline(s) supporting this measure	<p>Provide a detailed description of which guideline(s) support the measure and indicate for each, whether they are evidence-based or consensus-based.</p> <p>Summarize the meaning/rationale of the guideline statements that are being referenced, their relation to the measure concept and how they support the measure whether directly or indirectly, and how the guideline statement(s) relate to the measure’s intended accountable entity. Describe the body of evidence that supports the statement(s) by describing the quantity, quality and consistency of the studies that are pertinent to the guideline statements/sentence. Quantity of studies represent the number of studies and not the number of publications associated with a study. If the statement is advised by 3 publications reporting outcomes from the same RCT at 3 different time points, this is considered a single study and not 3 studies.</p> <p>If referencing a standard norm which may or may not be driven by evidence, provide the description and rationale for this norm or threshold as reasoned by the guideline panel.</p> <p>If this is an outcome measure or PRO-PM, indicate how the evidence supports or demonstrates a link between at least one process, structure, or intervention and the outcome.</p> <p>Document the criteria used to assess the quality of the clinical guidelines such as those proposed by the Institute of Medicine or ECRI Guideline’s Trust (see the Information Gathering Overview on the CMS MMS Hub (https://mmshub.cms.gov/measure-lifecycle/measure-conceptualization/information-gathering-overview) and the Environmental Scan supplemental material section addressing evidence review (https://mmshub.cms.gov/tools-and-resources/mms-supplemental-materials)).</p> <p>If there is lengthy text, describe the guidelines in an evidence attachment.</p>	Free text field

Subsection	Row	Field Label	Guidance	ADD YOUR CONTENT HERE
Evidence	107	* Guideline citation	Provide any of the following: <ul style="list-style-type: none"> • Full citation for the primary clinical guideline in any established citation style (e.g., AMA, APA, Chicago, Vancouver, etc.) • URL • DOI or ISBN for clinical guideline document 	<input type="checkbox"/> Citation (enter here) <input type="checkbox"/> URL (enter here) <input type="checkbox"/> DOI (enter here) <input type="checkbox"/> Not available
Evidence	108	* List the guideline statement that most closely aligns with the measure concept.	<p>If there are more than one statement from this clinical guideline that may be relevant to this measure concept, document the statement that most closely aligns with the measure concept as it is written in the guideline document.</p> <p>For example, Statement 1: In patients aged 65 years and older who have prediabetes, we recommend a lifestyle program similar to the Diabetes Prevention Program to delay progression to diabetes. No more than one statement should be written in the text box. All other relevant statements should be submitted in a separate evidence attachment.</p>	Free text field
Evidence	109	* Is the guideline graded?	<p>A graded guideline is one which explicitly provides evidence rating and recommendation grading conventions in the document itself. Grades are usually found next to each recommendation statement.</p> <p>Select one.</p>	<input type="checkbox"/> Yes <input type="checkbox"/> No
n/a	n/a	<i>If you select "Yes" in Row 109, then Rows 110-111, and 113 become required fields.</i>	n/a	<i>This is not a data entry field.</i>
Evidence	110	* List evidence grading system used and all categories and corresponding definitions for the evidence grading system used to describe strength of recommendation in the guideline.	<p>Insert the complete list of evidence grading systems, grading categories, and category definitions used by the clinical guideline (e.g., GRADE or USPSTF) to describe the guideline statement's strength of recommendation.</p> <p>If there is lengthy text, include details in a separate evidence attachment.</p>	Free text field

Subsection	Row	Field Label	Guidance	ADD YOUR CONTENT HERE
Evidence	111	*For the guideline statement that most closely aligns with the measure concept, what is the associated strength of recommendation?	Select the associated strength of recommendation using the convention used by the guideline developer. Select one.	<input type="checkbox"/> USPSTF Grade A, Strong recommendation or similar <input type="checkbox"/> USPSTF Grade B, Moderate recommendation or similar <input type="checkbox"/> USPSTF Grade C or I, Conditional/weak recommendation or similar <input type="checkbox"/> Expert Opinion <input type="checkbox"/> USPSTF Grade D, Moderate or high certainty that service has no net benefit or harm outweighs benefit <input type="checkbox"/> Best Practice Statement/Standard Practice
n/a	n/a	<i>If you select "USPSTF Grade D, Moderate or high certainty that the service has no net benefit or harm outweighs benefit" in Row 111, then Row 112 becomes a required field; otherwise, skip to Row 113.</i>	n/a	<i>This is not a data entry field.</i>
Evidence	112	*Is the selected guideline statement used to support an inappropriate use/care measure?	Select one. Indicate whether the guideline statement mentioned in "List the guideline statement that most closely aligns with the measure concept" is used to promote the practice of not performing a specific action, process or intervention to support an inappropriate use or inappropriate care measure.	<input type="checkbox"/> Yes <input type="checkbox"/> No
Evidence	113	*List all categories and corresponding definitions for the evidence grading system used to describe level of evidence or level of certainty in the evidence.	Insert the complete list of grading categories and their definitions.	Free text field

Subsection	Row	Field Label	Guidance	ADD YOUR CONTENT HERE
Evidence	114	* Briefly summarize the peer-reviewed systematic review(s) that inform this measure concept	<p>Summarize the peer-reviewed systematic review(s) that address this measure concept. For each systematic review, provide the number of studies within the systematic review that addressed the specifications defined in this measure concept, indicate whether a study-specific risk of bias/quality assessment was performed for each study, and describe the consistency of findings. Number of studies is not equivalent to the number of publications. If there are three publications from a single cohort study cited in the systematic review, report one when indicating the number of studies. If this is an outcome measure or PRO-PM, indicate how the evidence supports or demonstrates a relationship between at least one process, structure, or intervention with the outcome.</p> <p>If there is lengthy text, submit details via an evidence attachment.</p>	Free text field
Evidence	115	* Peer-reviewed systematic review citation	<p>If more than one article was identified, provide at least one of the following for one key article:</p> <ul style="list-style-type: none"> • Citation • URL • DOI <p>Provide the complete list of citations with accompanying DOI or URL in a separate attachment.</p>	<input type="checkbox"/> Citation (enter here:) <input type="checkbox"/> URL (enter here:) <input type="checkbox"/> DOI (enter here:) <input type="checkbox"/> Not available
Evidence	116	* Peer-reviewed original research	<p>If the evidence synthesis provided to support this measure concept was performed using peer-reviewed original research articles, indicate whether a systematic search of the literature was conducted.</p> <p>If “Yes,” please provide documentation of the search strategy in an attachment (e.g., years searched, keywords and search terms used, databases used, etc.).</p>	<input type="checkbox"/> Yes <input type="checkbox"/> No
