RDS Application Instructions

Overview

The Centers for Medicare & Medicaid Services' ((CMS') Retiree Drug Subsidy (RDS) Program represents a particularly important strengthening of health care coverage for Medicare-eligible retirees. The RDS Program is designed to encourage employers, unions, and other Plan Sponsors to continue providing high quality prescription drug coverage. It has highly flexible rules that permit Plan Sponsors to continue providing drug coverage to their Medicare-eligible retirees at a lower cost while retaining their current plan designs that are at least equivalent to the value of the defined standard Medicare Part D drug benefit. CMS' RDS Program will pay 28 percent of the retiree's allowable Part D drug costs (as defined by the regulation) between the applicable cost threshold and cost limit. CMS' RDS Center will apply a mandatory payment reduction on applicable plan months when calculating interim payment requests and the Reconciliation Payment Request for affected Applications. To qualify for the subsidy, the Plan Sponsor must show that its coverage is as generous as, or more generous than, the defined standard coverage under the Medicare Part D prescription drug benefit. The final regulation includes a two-part test for Plan Sponsors to determine whether this standard, referred to as "actuarial equivalence," has been met. The subsidy only applies to qualifying covered retirees who are eligible for but not enrolled in a Medicare Part D plan.

General Instructions for Submitting the RDS Application

The RDS application has been designed by CMS to assist in the efficient administration of the RDS Program in compliance with federal regulatory requirements at 42 C.F.R. §423 Subpart R. The RDS Program is administered in a paperless environment via the RDS Secure Web Site. Plan Sponsors must submit this application to participate in the RDS Program. The following is an overview of the application process:

1. The Account Manager must go to the RDS Program Web Site at <https://www.rds.cms.hhs.gov> to establish a Plan Sponsor account (if one does not already exist).
2. The Account Manager will be notified when a new Plan Sponsor Account is established.
3. The Account Manager or Authorized Representative may start a new application and will receive an application identification number.
4. The Account Manager, Authorized Representative, or Designee(s) must complete ALL parts of the application, except for the Attestation of Actuarial Equivalence which must be completed by a qualified actuary, and the Plan Sponsor Agreement which must be signed by the Plan Sponsor's Authorized Representative.
5. The completed application is submitted electronically via the RDS Secure Web Site.
6. Plan Sponsors will be notified electronically about the status of their application.

Only one RDS application can be submitted for each qualified retiree prescription drug plan for which the Plan Sponsor is seeking the subsidy. The application must be completed in its entirety in order to participate in the RDS Program. Omission of any required information may delay the processing of your request.
