CENTERS FOR MEDICARE & MEDICAID SERVICES (CMS) TRADING PARTNER AGREEMENT

For the use of the Medicare Health Insurance Portability and Accountability Act of 1996 (HIPAA) Eligibility Transaction System (HETS) to share health care eligibility inquiry and response transactions.

This Trading Partner Agreement ("Agreement") is made on between CMS and .

The Trading Partner intends to conduct eligibility transactions with CMS in electronic form. Both parties acknowledge and agree that data privacy and security are the highest priority. Each party agrees to take all steps reasonably necessary to ensure all electronic transactions between them conform to HIPAA and its regulations. Unless defined in this Agreement, all terms have the same meaning as in the regulations established to implement the Administrative Simplification provisions of HIPAA at 45 CFR Parts 160-164.

PAPERWORK REDUCTION ACT (PRA) DISCLOSURE STATEMENT

According to the Paperwork Reduction Act of 1995, no persons are required to respond to a collection of information unless it displays a valid OMB control number. The valid OMB control number for this information collection is 0938-0960. This information collection is per the federal law that requires CMS to take precautions to minimize the security risk to federal information systems who (Trading Partners) wants to connect to the HETS 270/271 system via the CMS Extranet and/or Internet to provide their details to identify, assign a unique name, agree to the HETS Rules of Behavior and the HETS Authorized Representative Roles and Responsibilities terms as a condition of receiving protected Medicare eligibility information.

The time required to complete this information collection is estimated to average less than 15 minutes per response, including the time to review instructions, search existing data resources, gather the data needed, to review and complete the information collection. This information collection is mandatory per HIPAA regulations that require covered entities to verify the identity of the person requesting PHI and the person's authority to have access to that information. Under the HIPAA Security rules, covered entities, regardless of their size, are required under 45 CFR Subtitle A, Subpart C 164.312(a)(2)(i) to "assign a unique name and/or number for identifying and tracking user identity." If you have comments concerning the accuracy of the time estimate(s) or

suggestions for improving this form, please write to: CMS, 7500 Security Boulevard,
Attn: PRA Reports Clearance Officer, Mail Stop C4-26-05, Baltimore, Maryland 21244-
1850.

CMS-Version 4.3

I. BACKGROUND

CMS maintains the integrity and security of Medicare health care data according to applicable laws and regulations. The Privacy Act of 1974 (Privacy Act) and HIPAA restrict the disclosure of Medicare beneficiary eligibility data. HETS may be used ONLY for business functions of health care providers and suppliers (collectively referred to as “providers”) with respect to Medicare Fee-for-Service (FFS). HETS may not be used for any other purpose, including that it may not be used by providers who may also participate in the Medicare FFS system with respect to any non-Medicare-FFS patients.

We administer HETS as a covered entity under HIPAA rules. HETS uses the ASC X12 270/271 standard. This Agreement is for non-CMS entities that want to obtain Medicare eligibility information. We will use information in this Agreement to establish connectivity, define data exchange requirements, and explain the responsibilities of HETS Trading Partners.

II. AUTHORIZED USES

You may only use Medicare eligibility data for Medicare FFS activities, including preparing accurate FFS claims or determining eligibility for certain services. The HETS Rules of Behavior, referenced in Appendix A, specifies what activities are authorized and unauthorized.

You may not electronically store, reuse, or disclose Medicare beneficiary Protected Health Information (PHI) you get from HETS, except:

- To record transaction processing history
- For security procedures, like routine system backups for disaster recovery
- To update patient records in the Medicare FFS provider’s system

You and your Business Associates, as defined by 45 CFR § 160.103, must comply with the HETS Rules of Behavior when you store data.

III. SYSTEM INTEGRITY

CMS monitors inquiries in HETS, and we will contact you if we find discrepancies. For example, we will check if you submit a high ratio of eligibility inquiries compared to your FFS claims. If we suspect improper use or if you violate the HETS Rules of Behavior, we may suspend your HETS access, place you on a corrective action plan, or refer you for investigation and you could be subject to other penalties, including civil or criminal actions.

IV. CONNECTIVITY

You can connect to HETS via the extranet or internet.

- Extranet:
 - o Transmission Control/Internet Protocol (TCP/IP)
 - Internet:
 - o Simple Object Access Protocol (SOAP) + Web Services Description Language (WSDL)
 - o Hypertext Transfer Protocol (HTTP) / Multipart Internet Mail Extensions (MIME)
- You must submit the required information in Appendix B to request connectivity. Review the HETS 270/271 Companion Guide for more information.

V. ASSURANCES

Your access to HETS is contingent on your assurances in this section. We can revoke HETS access without notice if we determine that you are not complying with these assurances.

You agree to and assure:
