Skip Patterns:

1. Simple skip patterns are identified with an arrow immediately following a response option, as in the example below:

A8A.

Is your program for profit, not for profit, or is it run by a government agency?

1. FOR PROFIT → SKIP TO A9
 2. NOT FOR PROFIT
 3. RUN BY A GOVERNMENT AGENCY
 4. OTHER, SPECIFY: _____
2. More complex skip patterns are identified with a bordered box, as in the example below. Skip Logic Boxes are titled in **bold** and numbered using the following naming convention: [Section]_S_[Sequential count].

Skip Logic Box A_S_1:

IF A8A = 1 OR 2 (“FOR PROFIT” OR “NOT FOR PROFIT”), ASK A9
ELSE, SKIP TO A11.

Loops:

A loop is a series of questions that are asked iteratively about one or more entities, for example, a series of personal characteristics asked about each child in the household. The loop’s questions appear once in the questionnaire, with skip instructions that indicate when the series starts and ends and for which entities the loop is asked. Sometimes one loop is nested within another.

1. Loop patterns are identified with a broken-line bordered box, as in the example below. All loops are bookended with a boxes designated as ‘Start of...’ and ‘End of...’ Loop. Loop boxes are titled in *italics* and numbered using the following naming convention: [Section]_L_[Sequential count].

*Start of B_L_1 Loop (*BL1):*

REPEAT B1_5 – B1_5H FOR EACH AGE GROUP = 1 (HAVE A RATE IN B1_3A)

2. All questionnaire items within a loop are identified with a truncated loop title, preceded by a ‘*’ and formatted in *italics* with blue font. A single questionnaire item may be included in none, one, or multiple loops and will be identified accordingly in the questionnaire with zero, one, or multiple loop titles.

B1_5C. **BL1*

How many hours per week does that cover?

Ranges:

Numeric open-ended responses throughout the questionnaire, such as number of years or weeks, have a pre-assigned lower and upper limit in the computerized questionnaire to minimize error. These ranges are shown directly beneath such open-ended responses, as in the example below. Ranges are prefixed with “RANGE:” in all caps and formatted with purple font.

B5d.

How many of the children in your program have variation in the number of paid hours of care each week?

_____ Number of children

RANGE: 0-999

Programmatic fills:

Some questions have customized text that is programmatically filled during computerized administration. A descriptor of the customized text is indicated, and users can tell that customized rather than generic text was visible during the interview because the text is bracketed and in CAPS. Programmatic fills within the questionnaire are contained within brackets [...], as in the example below. The fill text within the brackets provides a brief description of what the fill is.

A2G9a. *AL1 *AL2

In the past 12 months, has he/she contributed \$500 or more for [CHILD NAME]'s basic needs, for example, food, clothing, or medical expenses?

Hello, my name is [NAME], and I'm from NORC at the University of Chicago. We're conducting a study funded by the Administration for Children and Families of the U.S. Department of Health and Human Services. We would like to ask you a few questions to learn about young children in your community and who cares for them when they are not with their parents. Your answers will help the government better support the people who care for our nation's children. May I speak to someone living in this household who is 18 years or older and is knowledgeable about the household?

1. KNOWLEDGEABLE PERSON 18 YEARS OR OLDER AVAILABLE TO TALK →ASK S1
2. KNOWLEDGEABLE PERSON 18 YEARS OR OLDER, BUT NOT AVAILABLE NOW → SHOW SCREEN THAT SAYS "INTERVIEWER: MAKE APPOINTMENT TO CALL/COME BACK"
3. NO ONE IN THE HOUSEHOLD IS 18 YEARS OR OLDER → TERMINATE
4. DK/REF → SHOW SCREEN THAT SAYS "INTERVIEWER: MAKE APPOINTMENT TO CALL/COME BACK"

We are conducting an important study to learn about young children in your community and who cares for them when they are not with their parents. This information will help inform school districts, local, state and federal agencies, and private organizations in their efforts to improve child care services for all children. This study is funded by the Administration for Children and Families, of the U.S. Department of Health and Human Services. Please have an adult (18 years or older) who lives in this household answer the following questions. Even if you do not have any children, it is important for us to hear from you so that every type of household is represented. If you have any questions or would prefer to answer these questions by phone, please call toll-free at 1-800-487-4609.

An agency may not conduct or sponsor, and a person is not required to respond to a collection of information unless it displays a currently valid OMB control number. The OMB number for this information collection is 0970-0391 and the expiration date is 6/30/2026. Please send comments regarding the time required for this survey or any other aspect of this information collection to: NORC at the University of Chicago, 55 E Monroe St, Ste 3000, Chicago, IL, 60603, Attention: A. (Hello, my name is [NAME], and I am from NORC at the University of Chicago.)

IF R SCREENED IN AS ELIGIBLE THROUGH MAIL/FIELD AT PRIOR TIME, READ: [You recently completed a short questionnaire for the 2024 National Survey of Early Care and Education.] IF R SCREENED ELIGIBLE WITH INTERVIEWER: [Thank you for answering those questions.] We are looking to speak further with parents of young children to help us understand how families use and think about child care for children under age 13. This study is funded by the Administration for Children and Families, of the U.S. Department of Health and Human Services, and conducted by NORC at the University of Chicago. Your

participation in this study will help policy-makers and child care providers better understand and support the child care services that are most needed in your area.

This interview takes IF CHECK_S=2: [about an hour] IF CHECK_S=1 OR CHECK_SY = 1: [about 45 minutes], and your participation is voluntary. You may choose not to answer any questions you don't wish to answer, or end the interview at any time. We use computing systems, staff training, and strict data access requirements to protect your identity and keep your responses private. To better protect your privacy, this interview does not contain questions that require you to disclose any sensitive, private information about yourself. This study also has a Federal Certificate of Confidentiality from the government which protects researchers and other staff from being forced to release information that could be used to identify participants in court proceedings. You should understand, however, that we would take necessary action to prevent serious harm to children or others, including reporting to authorities.

Data collected for this study will be used for statistical purposes only, so that no individuals or organizations can be identified directly or indirectly in research findings. Identifiers such as your name and addresses will be considered private and can only be accessed for the study's research purposes by authorized personnel associated with the study. Access to identifying information is granted to authorized personnel only on a need-to-know basis.

An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number. We are asking your permission to search state or local government records for child care subsidy, Supplemental Nutritional Assistance Program (SNAP or Food Stamps), TANF, WIC, Medicaid, or other programs that provide assistance to families. We would give the state agency basic information that identifies [CHILD NAME], and request that information about [his/her] participation in government programs be sent to the Administration for Children and Families, of the U.S. Department of Health and Human Services or its contractors, for study purposes only. Do we have your permission to do so?

(SUGGESTED SCRIPT) State or local government program records can provide additional information about the child care and financial assistance that a child and his/her family may be receiving.

(IF NEEDED: For example, some pre-schools or after-school programs may be receiving government subsidies that parents are not aware of. These subsidies would be recorded in state program data on child care subsidies or such child care-related programs as Head Start or Universal Pre-Kindergarten.)

NORC requests your permission to search child care related government program records for information about your child or about the providers who serve your children. Even if your (child has/children have) not received subsidies or (has/have) never been in child care, it is still important for us to have your permission. We will use this information to help understand how families make different decisions about care for their children. We would not provide the state agency with any of the answers you've told me today, other than your name and the name(s) of your child/ren, and enough information to find them in state records.

All information about your child and your child's care provider will be considered private and used for study purposes only. Any names of children, as well as any names of childcare providers, will not be used in reporting the study results. Only authorized personnel associated with this study will be granted access to this identifying information on a need-to-know basis. The information will be reported as statistics to the Administration for Children and Families, of the U.S. Department of Health and Human Services as part of the results of this study.
