

Recruitment & Data Collection Materials for the RECS Research Use Study

About this Document

As part of the Research and Evaluation Conference on Self-Sufficiency (RECS) Research Use study, the AIR team will conduct a survey and virtual focus groups with individuals who attend RECS 2024 (referred to as “attendees”).

This document includes communication materials that the study team will use to (A) invite and remind all RECS attendees to participate in the survey and (B) invite, remind, and thank focus group participants.

A. Survey Data Collection

1. **Survey Invite.** Following OMB approval, all conference attendees will receive an email inviting them to participate in the survey. The email will include a link to the survey. Based on the anticipated timeline for OMB approval, this invite will be sent in early August.
2. **Reminder Emails:**
 - i. **Survey Reminder Email 1.** Survey recipients who have not completed the survey will receive a reminder one week after receiving the survey invitation.
 - ii. **Survey Reminder Email 2.** Survey recipients who have not completed the survey will receive a reminder two days before the survey is closed. The survey will be closed 2 weeks after the initial survey invite is emailed to RECS attendees.

B. Focus Group Data Collection

1. **Focus Group Invite.** Following OMB approval and three weeks before the focus group, the study team will invite select attendees to participate in the focus group. This email will include the meeting link, time, and date. We plan to convene up to four focus groups, one focus group per attendee segment (diversifying segments on the basis of attendee professional affiliation and mode of RECS attendance). We will include up to six participants in each focus group, for a total of 24 participants. Based on the anticipated timeline for OMB approval, this invite will be sent in early August.
2. **Focus Group Non-Invite.** RECS attendees who expressed an interest in participating in a focus group but were not selected will be sent an email thanking them for their interest and letting them know that they have not been selected for participation.
3. **Focus Group Invite Reminder.** Five days after the focus group invitation is emailed to select attendees, those who do not confirm the status of their attendance will receive a reminder asking them to confirm their attendance.
4. **Focus Group Reminder.** One day prior to the focus group, the study team will send the participants a reminder about the focus group.

5. **Thank you Email.** Within two days after the focus group, the study team will send the participants a thank you email, which will include details to receive their honoraria.

Email body:

Dear [first name of RECS attendee],

The Office of Planning, Research, and Evaluation (OPRE)—the office that convenes the Research and Evaluation Conference on Self-Sufficiency (RECS)—has contracted with [American Institutes for Research \(AIR\)](#) to conduct a pilot study to understand whether and how RECS attendees use what they learned at the conference.

You are invited to participate in a 10-minute survey because you registered for RECS this year. This survey is different than the evaluation you may have completed immediately after the conference. This survey will ask a bit about you, your goals for attending the conference, your learning experience at the conference, and if and how you've been able to use what you learned at RECS. **The information you provide will help OPRE identify ways to improve the learning experience for future attendees.**

Interested in participating? Complete this 10-minute survey [this link will direct participants to the survey in Vovici – see Instrument I. Post-RECS Data Collection Survey Questions for survey items] **by [insert date that is two weeks from the date this survey is emailed to participants]**. Please do not share the link below with anyone else as the link is unique to you.

- Your decision to participate and what you share in the survey will not affect your access to Administration for Children and Families services or future conferences in any way.
- All responses will be kept private to the extent permitted by law. The study team will not use your name in any reports. They will also only use the information for the purposes of this project.

Who is AIR?
