2024 Annual Grantee Satisfaction Survey

Introduction/Consent:

You have received this survey because your organization has one or more federal awards (grant or cooperative agreement) funded by the Office of Population Affairs (OPA). The purpose of this survey is to assess your satisfaction with OPA grantee support, communications, and resources. We are also interested in your suggestions for how to improve the services, technical assistance (TA) products, and support from OPA and our contractors. OPA plans to use the results of the survey for continuous quality improvement efforts, including more effective customer service and to identify areas for improvement.

Below is additional information:

- This survey is voluntary and will not affect your current award or eligibility for or receipt of future services or funding.
- This survey is anonymous (do not put your name or your organization's name on the survey).
- This survey should take about 20 minutes to complete.
- You can skip any item.
- Results will be reported to OPA in a manner that does not identify an individual or an organization and will be used only for continuous quality improvement.
- OPA may use aggregated results to share with selected stakeholders (e.g., grantees, federal partners, contractors) for knowledge-sharing and improving processes.

You are encouraged to consult with others within your organization as needed to answer the questions, but you should only submit one survey per organization. If you have more than one federal award from OPA, you will see some questions repeated for each grant project. You may stop and start the survey at any time. Once you click the submit button, you cannot revise any responses.

If you have questions about this survey, please email Dr. Jessica Salas-Brooks at OPASupport@norc.org. Thank you for your participation.

1. Is this the organization's first OPA grant?
 1. Yes
 2. No
 3. Unsure
