TITLE OF INFORMATION COLLECTION:

2024 National Heat Photo Contest Submission Form

PURPOSE:

Employers need assistance developing and delivering clear messages about the risks of extreme heat and actions they can take to stay safe and provide healthy workplaces to ensure worker safety. Highlighting the dangers of this silent workplace hazard is an important first step in educating workers and supervisors on how to prevent and recognize when heat is affecting worker’s health and safety. Since heat illness is a true medical emergency, planning and preparing for heat illness is essential to increase the chances of a positive outcome. OSHA is sponsoring a nationwide photo contest to highlight and showcase the effective strategies that stakeholders are using to protect workers from the heat. OSHA wants stakeholders to see heat safety in action and be encouraged to adopt similar practices. There are many types of images that would be appropriate for this contest.

DESCRIPTION OF RESPONDENTS:

OSHA is encouraging submissions from any industries or individuals who have an interest in heat-related hazards in the workplace. This contest is open to any stakeholder, including private citizens, individual businesses, associations, trade groups, worker centers, unions, state and local governments, non-profit organizations, educational institutions, research groups, among others.
