INTRODUCTION

On July 31, 2018, The *Strengthening Career and Technical Education for the 21st Century Act* (Public Law 115-224) (Perkins V, the Act, or statute), was signed into law and reauthorized and amended the Carl D. Perkins Career and Technical Education Act of 2006. Section 122(a)(1) of Perkins V requires each eligible agency desiring assistance for any fiscal year under the Act to prepare and submit a State plan to the Secretary. Each eligible agency must develop its State plan in consultation with key stakeholders, the Governor, and other State agencies with authority for career and technical education (CTE), consistent with section 122(c) of Perkins V. Pursuant to section 122(b)(1) of the Act, the eligible agency may choose to submit its State plan as part of a Workforce Innovation and Opportunity Act (WIOA) Combined State Plan.

The U. S. Department of Education’s (Department) Office of Career, Technical, and Adult Education (OCTAE) developed and first issued this guide on April 26, 2019, to assist each eligible agency in preparing and submitting a new State Plan under Perkins V and applicable Federal regulations. Now, in January 2025 this guide has been updated to provide data specifications for numerators and denominators for the section 113 core indicators of performance to ensure that the indicators are measured in a manner that is consistent with the statute and to improve the consistency of the data collected from States to facilitate the “aggregate analysis” of performance and State-by-State comparisons that sections 113(b)(3)(C)(iv) and 114(a)(1)) of the law, respectively, directs the Department to produce.

Accordingly, the Department has amended this Guide to include data specifications for the numerators and denominators of the core indicators of performance (provided in Table 2) that each eligible agency may use to inform their State determined performance levels (SDPLs) for the period covered by its State plan. The data specifications are effective in Fiscal Year (FY) 2026, which begins July 1, 2026.

General State Plan Submission Instructions

For years subsequent to those covered by the initial State plan submission,¹ each eligible agency must submit one of the following pursuant to section 122(a)(5) of Perkins V to ensure it remains in compliance with the Act.

- Option 1: A subsequent (new) 4-year State Plan including SDPLs for the fiscal years covered by the plan and a budget for the upcoming fiscal year; or
- Option 2: Annual revisions to establish SDPLs, any other State plan revisions that the eligible agency determines to be necessary pursuant to section 122(a)(1) of Perkins V, and a budget for the upcoming fiscal year.

Under either option, an eligible agency may continue to, or newly, submit its Perkins State plan as part of a WIOA Combined State Plan.

¹ To fulfill the obligation for the initial State plans, each eligible agency submitted a 1-Year Transition Plan for FY 2019, covering July 1, 2019 – June 30, 2020, and then a 4-Year State Plan in FY 2020 covering FY 2020-23 (July 1, 2020 – June 30, 2024).

Option 1: New 4-Year State Plan

Pursuant to section 122(a)(5) of Perkins V and applicable Federal regulations, an eligible agency may submit, after the first 4-year State plan is submitted, subsequent 4-year plans not later than 120 days prior to the end of the 4-year period covered by the preceding State plan. The eligible agency must include the same contents and use the same procedures it used to develop and submit its initial 4-year State Plan as described in section 122(c) of Perkins V and must include a response to Item II.A. – State Plan Development and Consultation of this Guide in its State plan submission.

Each eligible agency must establish SDPLs that meet the requirements of section 113(b)(3)(A)(i)(III) of Perkins V. In addition, the eligible agency must engage in a public comment process pursuant to section 113(b)(3)(B) of Perkins V and include a response to Item D.5. of this Guide in its State plan submission.

Pursuant to section 113(b)(3)(A)(iii), if unanticipated circumstances arise in a State or changes occur related to the improvement in data or measurement approaches, the eligible agency may, at the end of any program year, revise its SDPLs for the remaining years covered by its State plan using the public comment process pursuant to section 113(b)(3)(B) of Perkins V and must include a response to Item D.5 of this Guide in its State plan submission. If the SDPL revisions require a change to its baseline data, the eligible agency should update its response to Item D.4 of this Guide in its State plan submission, as applicable.

For any fiscal years following the submission of the new 4-year State plan, an eligible agency must use the amendment procedure described in 34 CFR 76.140 when “there is a significant and relevant change in the information or the assurances in the plan.” Unless otherwise prescribed by the Secretary, the amendment procedure requires the eligible agency to use the same procedures it used to prepare and submit its initial State plan as described in section 122(c) of Perkins V and must include a response to Item II.A. – State Plan Development and Consultation of this Guide in its State plan submission.

Option 2: Annual Revisions to An Approved 4-Year State Plan

Each eligible agency must establish SDPLs that meet the requirements of section 113(b)(3)(A)(i)(III) of Perkins V. In addition, the eligible agency must engage in a public comment process pursuant to section 113(b)(3)(B) of Perkins V and include a response to Item D.5. of this Guide in its State plan submission. Pursuant to section 113(b)(3)(A)(iii), if unanticipated circumstances arise in a State or changes occur related to the improvement in data or measurement approaches, the eligible agency may, at the end of any program year, revise its SDPLs for the remaining years covered by its State plan using the public comment process pursuant to section 113(b)(3)(B) of Perkins V and must include a response to Item D.5 of this Guide in its State plan submission. If the SDPL revisions require a change to its baseline data, the eligible agency should update its response to Item D.4 of this Guide in its State plan submission, as applicable.

An eligible agency must use the amendment procedure described in 34 CFR 76.140. when “there is a significant and relevant change in the information or the assurances in the plan. Unless otherwise prescribed by the Secretary, the amendment procedure requires the eligible agency to use the same procedures it used to prepare and submit its initial State plan as described in section 122(c) of

Perkins V and include a response to Item II.A. – State Plan Development and Consultation of this Guide in its State plan submission.

Contents of Perkins V State Plans

State Plans under Perkins V must include the following items—

- A cover page, including a letter providing joint signature authority from the Governor;
- Narrative descriptions required by statute;
- Assurances, certifications, and other forms required by statute and/or applicable Federal regulations, including the Education Department General Administrative Regulations (EDGAR) at 34 CFR Part 76;
- A budget for the upcoming year;
- State determined levels of performance (SDPLs).

State Plan Submissions for FY 2026

For FY 2026, which begins July 1, 2026, each eligible agency has the same options (1 and 2) as noted above in making their State plan submission. We believe that some States may need to revise certain SDPLs in response to the updated data specifications. When an eligible agency makes any changes to its data specifications and chooses to make corresponding changes to its SDPLs, it must provide baseline data for that core indicator and include a response to Item D.4 of this Guide in its State plan submission, as applicable. As noted in Option 2, above, the State must follow the public comment process under section 113(b)(3)(B) of Perkins V and must include an updated response to Item D.5 of this Guide in its State plan when it revises its SDPLs for the remaining years covered by its State plan. Because the Perkins statute provides specific procedures for SDPL revisions, the regulatory provisions related to other State Plan amendments in 34 CFR 76.140 are not required.

State Plans and Revisions in Subsequent Years

In subsequent years, each eligible agency has the same options (1 and 2) as noted above in making its State plan submission.

Timeline for the Issuance of Perkins V Grant Awards

Table 1 below provides the annual timeline for the Department to issue Perkins V grant awards. Congress appropriates funding for Perkins V State grants in two installments, one of which becomes available on July 1 and a second which becomes available on October 1. In each fiscal year, the Secretary will issue program memoranda with a reminder about the State plan submission requirements and due dates, and estimated State allocations, respectively, for the upcoming fiscal year.

The Secretary shall not

² The Department will publish estimated State allocations no later than March provided that an appropriation for the next fiscal year has been enacted into law by this time.

³ Where practicable, the Department may determine that it does not need the full 120 day period allowable under section 122(f) of Perkins V to review State plans and/or revisions and issue Perkins grant awards on schedule on July 1.

⁴ Hard copy submissions will not be accepted as the Department met the requirement of 2 CFR 76.720(b)(3) for the transition from hard copy to electronic submission of State plans and revisions during the implementation of the *Carl D. Perkins Career and Technical Education Act of 2006*.

disapprove such plan unless the Secretary determines it does not meet the requirements of the Act pursuant to section 122(f)(1) and takes the disapproval actions described in section 122(f)(2) of the Act.

From amounts reserved under section 112(a)(2), each eligible agency shall—

- (1) conduct State leadership activities to improve career and technical education, which shall include support for—
 - (A) preparation for non-traditional fields in current and emerging professions, programs for special populations, and other activities that expose students, including special populations, to high-skill, high-wage, and in-demand occupations;

2. Implementing Career and Technical Education Programs and Programs of Study

- a. Describe the career and technical education programs or programs of study that will be supported, developed, or improved at the State level, including descriptions of the programs of study to be developed at the State level and made available for adoption by eligible recipients. (Section 122(d)(4)(A) of Perkins V)
- b. Describe the process and criteria to be used for approving locally developed programs of study or career pathways (see Text Box 3 for the statutory definition of career pathways under section 3(8) of Perkins V), including how such programs address State workforce development and education needs and the criteria to assess the extent to which the local application under section 132⁵ will—
 - i. promote continuous improvement in academic achievement and technical skill attainment;
 - ii. expand access to career and technical education for special populations; and
 - iii. support the inclusion of employability skills in programs of study and career pathways. (Section 122(d)(4)(B) of Perkins V)
- c. Describe how the eligible agency will—
 - i. make information on approved programs of study and career pathways (including career exploration, work-based learning opportunities, early college high schools, and dual or concurrent enrollment program opportunities) and guidance and advisement resources, available to students (and parents, as appropriate), representatives of secondary and postsecondary education, and special populations, and to the extent practicable, provide that information and those resources in a language students, parents, and educators can understand;
 - ii. facilitate collaboration among eligible recipients in the development and coordination of career and technical education programs and programs of study and career pathways that include multiple entry and exit points;

The correct section for local applications in Perkins V is section 134. Therefore, eligible agencies should respond to this item using the provisions in section 134 of Perkins V.

- vi. support effective and meaningful collaboration between secondary schools, postsecondary institutions, and employers to provide students with experience in, and understanding of, all aspects of an industry, which may include work-based learning such as internships, mentorships, simulated work environments, and other hands-on or inquiry-based learning activities; and

Text Box 6: Statutory Definition of CTE Concentrator

The term ‘CTE concentrator’ means—

- (A) at the secondary school level, a student served by an eligible recipient who has completed at least 2 courses* in a single career and technical education program or program of study; and
- (B) at the postsecondary level, a student enrolled in an eligible recipient who has—
 - (i) earned at least 12 credits within a career and technical education program or program of study; or
 - (ii) completed such a program if the program encompasses fewer than 12 credits or the equivalent in total. (Section 3(12) of Perkins V)

V. STATE DETERMINED PERFORMANCE LEVELS

A. Instructions

1. On the form in Item V.B, provide State determined performance levels (SDPLs), for the period covered by your State plan submission, for each of the secondary and postsecondary core indicators of performance for all CTE concentrators in the State described in section 113(b) of Perkins V (see Table 3). In preparing your SDPLs, refer to your narrative descriptions in Section II.D of this guide.
2. You must begin collecting and reporting performance data consistent with the numerator and denominator specifications in Table 3 of this Guide no later than FY 2026, beginning July 1, 2026.
3. In completing the SDPL form, provide—
Column 2: Baseline level - A State must establish a baseline level of performance in instances where an indicator of performance is added or is significantly modified in a subsequent program year. In any reporting year, if a State's measurement approach changes, the State must determine if it is necessary to establish a new baseline level of performance.

Columns 3-10: State determined levels of performance for each year covered by the State plan, beginning for FY 2020, expressed in percentage or numeric form and that meets the requirements of section 113(b)(3)(A)(III) of Perkins V. See Text Box 8 for the statutory requirements for setting State determined levels of performance under section 113(b)(3)(A)(i)(III) of Perkins V.
4. Revise, as applicable, the State determined levels of performance for any of the core indicators of performance—
 - i. Prior to the third program year covered by the State plan for the subsequent program years covered by the State plan pursuant to section 113(b)(3)(A)(ii); and/or
 - ii. Should unanticipated circumstances arise in a State or changes occur related to improvement in data or measurement approaches pursuant to section 113(b)(3)(A)(iii).

Text Box 8: Statutory Requirements for State Determined Performance Levels

- (III) REQUIREMENTS.—Such State determined levels of performance shall, at a minimum—
- (aa) be expressed in a percentage or numerical form, so as to be objective, quantifiable, and measurable;
 - (bb) require the State to continually make meaningful progress toward improving the performance of all career and technical education students, including the subgroups of students described in section 1111(h)(1)(C)(ii) of the Elementary and Secondary Education Act of 1965, and special populations, as described in section 3(48); and
 - (cc) have been subject to the public comment process described in subparagraph (B), and the eligible agency has provided a written response;
 - (dd) when being adjusted pursuant to clause (ii), take into account how the levels of performance involved compare with the State levels of performance established for other States, considering factors including the characteristics of actual (as opposed to anticipated) CTE concentrators when the CTE concentrators entered the program, and the services or instruction to be provided;
 - (ee) when being adjusted pursuant to clause (ii), be higher than the average actual performance of the 2 most recently completed program years, except in the case of unanticipated circumstances that require revisions in accordance with clause (iii); and
 - (ff) take into account the extent to which the State determined levels of performance advance the eligible agency's goals, as set forth in the State plan.

The Department interprets “within 1 year of completion” to have the plain meaning of those words: that the student would be counted if the student obtains the credential in the 1 year following that student’s completion of the program.</p>
