ARC	ARC001a	Question "First, we would like for you to rate (CHILD)'s current skills, knowledge, and behaviors within language and literacy, science, and mathematical thinking based on your experience with (him/her). If you are not (CHILD)'s primary teacher in any of these areas, you may want to consult with the person most familiar with (CHILD)'s progress in the area when completing the scales. x0000_x0000. This is NOT a test and should NOT be administered directly to the child. x0000_x0000. Examples are meant to help you think of the range of situations in which the child may demonstrate the identified skills and behaviors. These examples do not exhaust all the ways the child may demonstrate what he/she knows or can do. The examples do, however, indicate a level of proficiency a child should have reached in order to receive the highest ratings. Some of these examples describe a very high level of performance (beyond typical students) in order to evaluate achievement levels of the highest performing students. x0000_x0000. Rate (CHILD) compared to other children of the same age level. Please consider the full range of ratings when answering. x0000_x0000. Please press the Next button to continue." ARC	ARC001b	Question "The following five-point scale is used for each of the questions. It reflects the degree to which a child has acquired and demonstrated the targeted skills, knowledge, and behaviors. Please review the definitions before navigating to the next page. These definitions are also available next to each question via clicking the blue "i" icon. x0000_x0000. Not yet = Child has not yet demonstrated skill, knowledge, or behavior. x0000_x0000. Beginning = Child is just beginning to demonstrate skill, knowledge, or behavior but does so very inconsistently. x0000_x0000. In progress = Child demonstrates skill, knowledge, or behavior with some regularity but varies in level of competence. x0000_x0000. First grade 4. Second grade 5. The child is ungraded/in an ungraded classroom.	Current grade level	T-R01, T-R02	Yes		1. Response categories were changed due to comparability concerns. The response category "first grade or higher" was separated into two categories: first grade and second grade. This creates a separate category for "first grade" to match the category used in ECLS-K-2011 and allows for clear grade designations. In first grade of ECLS-K-2011, a similar question allows for response categories that were 2 grade levels higher than the expected grade. That was sufficient to cover the possibilities. 2. The option "This is an ungraded classroom" was changed so that wording was at the child-level rather than about the classroom. 3. "for pre-first grade" was changed to "for pre-first grade" in the second to last sentence in the instruction to respondent so that it would match the presentation in the first sentence of the instruction to respondent.
