

P2 IJA Communities EJ Grant Reporting Template

Welcome

Using this workbook will allow you to track all required reporting and outcome elements, automatically tabulate many of your required outputs, and submit your data for sequential annual reporting. Using this workbook will also allow EPA to easily import this information into its P2 Grants Database, which aggregates P2 grant performance information across the country. EPA is planning to make the P2 Grants database widely available through a searchable public website, which will allow other P2 providers and facilities to find demonstrated P2 practices and implemented P2 actions. By using this standardized workbook to report your results, you are helping to ensure that the database contains accurate, complete, and consistent data about P2 practices, which may allow others to replicate your successes. So, thanks!

Getting Started

Use the tabs below from left to right. Full instructions appear on each tab:

1. The **Grant Project Data** tab combines data entry and an automatic list. On top is the data entry area for grant/grantee information. Below that is an auto-generated tracking list that will pull in business establishment names you've entered in the numbered business establishment tabs.
2. The **Results Summary** tab automatically aggregates results from data entered in the Partners tab, Outreach Activities tab, and the numbered business establishment tabs.
3. The **Partners** tab is optional and provides a place to enter information about partners who helped strengthen your ability to provide P2 technical assistance to businesses in disadvantaged communities.
4. The **Outreach Activities** tab is for capturing information about outreach activities, including training, webinars, videos, etc.
5. The **Sample Business Establishment** tab serves as an example of how to sufficiently enter project data on the numbered business establishment tabs.
6. The **numbered** tabs are for data entry of business establishment-level data, one business establishment per numbered tab. While providing the business establishment name is optional, it is beneficial to do so because the Grant Project Data tab displays the name provided and associates it with its numbered tab, which will help you later when you need to find the correct tab for updating the status of follow-up, implementation and results achieved at a specific business establishment. This template has 75 numbered tabs for business establishments; please use a new file if you need more tabs.

Calculating Outcomes in the Numbered Tabs

[EPA's P2 calculators are designed to help you measure environmental and economic outcomes from pollution prevention activities.](#)

For help with calculating Metric Tons of Carbon Dioxide Equivalent (MTCO_{2e}), the required reporting unit for reductions in CO₂ and related greenhouse gases, please use the EPA P2 Greenhouse Gas Calculator. The calculator allows you to calculate your GHG reductions from electricity management, energy substitution (green energy), stationary sources, mobile sources, reduced water use, reduced chemical use, chemical substitution, and solvent remanufacturing. The calculator will also provide associated cost savings for the first five listed above (electricity management, green energy, stationary and mobile sources, and reduced water use).

For help with calculating cost savings, please use the P2 Cost Savings Calculator. This calculator allows you to calculate the annual net cost savings realized from avoiding fees and expenses from buying fewer hazardous inputs, shipping less hazardous waste, emitting fewer regulated air emissions, using less water, sending less wastewater through pre-treatment and treatment works, or buying less fuel or energy. It also allows you to calculate the cost differences of buying greener materials, fuel and energy. Users can use the tool to estimate prospective cost savings.

For help with calculating reductions in hazardous substances, pollutants, and contaminants, please use the P2 Calculator for Reductions in Hazardous Substances, Pollutants and Contaminants. This calculator has been expanded to cover all categories of pollutant and release reductions that EPA tracks and measures, including reductions in hazardous materials used, hazardous wastes, air emissions, water pollutants, and those achieved through solvent remanufacturing. To calculate pounds of water pollution that business establishments reduce, either use the business establishment's permit methodology or multiply wastewater gallons by 8.35 to get pounds and divide by 10,000 to eliminate water content. The calculator also provides fluid hazardous material densities for gallon-to-pound conversions.

Working with Numbered Tabs

When your follow-up confirms a P2 recommendation was implemented...

- 1 In Column K of the numbered business establishment tab, enter "Y" (indicating, yes, that it was implemented at this business establishment) and in Column L include the date of implementation.
- 2 In Columns C - J, enter updated cost, savings and outcome values. For calculating MTCO_{2e}, cost savings, and reductions in hazardous substances, pollutants, and contaminants, see the section above on "Calculating Outcomes in the Numbered Tabs."
- 3 In Column N, enter quantity information associated with implementation and the unit used for MTCO_{2e} conversion (kWh, BTU, etc.; see all units in P2 GHG Calculator).
- 4 In Column R, select "Y" if a case study covers this implemented action.
- 5 Please note: Columns C - J values for a row will tally in a tab's Total row and in the Results Summary tab only if row 20 has a follow-up date, Column K has a "Y", and Column L has a date implemented.
- 6 If more steps of a recommendation get implemented in a second year, add phase 2 steps in a separate row and complete Columns C - J.

When your follow-up confirms that a P2 recommendation has NOT yet been implemented...

- 1 Enter "N" in column K.
- 2 In Column P, enter "Y" if the business establishment plans to implement the recommendation within the next 5 years.
- 3 In Column Q, if the business establishment has no plans to implement the recommendation and can tell you why, enter the barrier(s) to implementation identified by the business establishment (e.g., high cost, not feasible, a regulatory barrier, etc.).

When cells are highlighted yellow...

- 1 On the numbered business establishment tabs, a cell will be highlighted yellow if your response is different than the expected input type (e.g., letters instead of numbers). Re-enter your response in the appropriate format to remove the highlighting.

Paperwork Reduction Act Burden Statement

This collection of information is approved by OMB under the Paperwork Reduction Act, 44 U.S.C. 3501 et seq. (OMB Control No. 2090-NEW). Responses to this collection of information are mandatory for certain persons, as specified at 42 U.S.C 13101 and 15 U.S.C.3701. An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number. The public reporting and recordkeeping burden for this collection of information is estimated to be approximately 20 hours per response. Send comments on the Agency's need for this information, the accuracy of the provided burden estimates and any suggested methods for minimizing respondent burden to the Regulatory Support Division Director, U.S. Environmental Protection Agency (2821T), 1200 Pennsylvania Ave., NW, Washington, D.C. 20460. Include the OMB control number in any correspondence. Do not send the completed form to this address.

Aggregate of Output Measures for All Business Establishments

Number of partner organizations.

Number of outreach activities and informational materials that widely share P2 practices.

Number of business establishments reached through outreach activities and informational materials.

Number of business establishments provided technical assistance.

Percentage of business establishments provided technical assistance that the grantee followed up with (should be 100%) by phone call, visit, letter or email) to determine which P2 practices were implemented.

Percentage of business establishments that implemented at least one new P2 practice as a result of the technical assistance provided by the grantee.

Number of case studies describing specific P2 best practices implemented through the grant.

P2 IIIA Communities EJ Grant: Sample Business Establishment

How to Use this Tab:

1. Enter Business Establishment Information in rows 11-20, noting that rows 12-14 are optional. For the Business Establishment Name, if you do not wish to disclose the actual name, enter a meaningful proxy so that you will be able to find it when entering follow-up information.
2. Under P2 Actions and Outcomes, enter each P2 recommendation provided as part of the technical assistance. You may enter initial estimates of costs, annual savings and annual reductions.
3. Once you have followed up with the business establishment to learn which P2 recommendations it has implemented, enter in row 20 the date(s) of follow-up.
4. When your follow-up confirms a P2 recommendation was implemented, enter "Y" in Column K and select a date implemented in Column L. Update any preliminary estimates based on the actual implementation at the business establishment. (Important: The values in this tab's Total rows and in the Results Summary tab only if row 20 has a follow-up date, Column K has a "Y", and Column L has an implementation date selected.)
5. Additionally, enter implementation details in column N. See "Working with Numbered Tabs" on the "Getting Started" tab for more details.
6. On this tab, cells will be highlighted yellow if your response is different than the expected input type (e.g., letters instead of numbers). Re-enter the information in the appropriate format to remove the highlighting.

How to Use this Tab:

1. Enter Business Establishment Information in rows 11-20, noting that rows 12-14 are optional. For the Business Establishment Name, if you do not wish to disclose the actual name, enter a meaningful proxy so that you will be able to find it when entering follow-up information.
2. Under P2 Actions and Outcomes, enter each P2 recommendation provided as part of the technical assistance. You may enter initial estimates of costs, annual savings and annual reductions.
3. Once you have followed up with the business establishment to learn which P2 recommendations it has implemented, enter in row 20 the date(s) of follow up.
4. When your follow-up confirms a P2 recommendation was implemented, enter "Y" in Column K and select a date implemented in Column L. Update any preliminary estimates based on the actual implementation at the business establishment. [Important: The values in columns C - J will tally in this tab's Total rows and in the Results Summary tab only if row 20 has a follow-up date, Column K has a "Y", and Column L has an implementation date selected.]
5. Additionally, enter implementation details in column N. See "Working with Numbered Tabs" on the "Getting Started" tab for more details.
6. On this tab, cells will be highlighted yellow if your response is different than the expected input type (e.g., letters instead of numbers). Re-enter the information in the appropriate format to remove the highlighting.

2. Under P2 Actions and Outcomes, enter each P2 recommendation provided as part of the technical assistance. You may enter initial estimates of costs, annual savings and annual reductions.
3. Once you have followed up with the business establishment to learn which P2 recommendations it has implemented, enter in row 20 the date(s) of follow up.
4. When your follow-up confirms a P2 recommendation was implemented, enter "Y" in Column K and select a date implemented in Column L. Update any preliminary estimates based on the actual implementation at the business establishment. (Important: The values in columns C - J will tally in this tab's Total rows and in the Results Summary tab only if row 20 has a follow-up date, Column K has a "Y", and Column L has an implementation date selected.)
5. Additionally, enter implementation details in column N. See "Working with Numbered Tabs" on the "Getting Started" tab for more details.
6. On this tab, cells will be highlighted yellow if your response is different than the expected input type (e.g., letters instead of numbers). Re-enter the information in the appropriate format to remove the highlighting.

P2 IHA Communities EJ Grant: Business Establishment 36

How to Use this Tab:

1. Enter Business Establishment Information in rows 11-20, noting that rows 12-14 are optional. For the Business Establishment Name, if you do not wish to disclose the actual name, enter a meaningful proxy so that you will be able to find it when entering follow-up information.
2. Under P2 Actions and Outcomes, enter each P2 recommendation provided as part of the technical assistance. You may enter initial estimates of costs, annual savings and annual reductions.
3. Once you have followed up with the business establishment to learn which P2 recommendations it has implemented, enter in row 20 the date(s) of follow up.
4. When your follow-up confirms a P2 recommendation was implemented, enter "Y" in Column K and select a date implemented in Column L. Update any preliminary estimates based on the actual implementation at the business establishment. (Important: The values in columns C - J will tally in this tab's Total rows and in the Results Summary tab only if row 20 has a follow-up date, Column K has a "Y", and Column L has an implementation date selected.)
5. Additionally, enter implementation details in column N. See "Working with Numbered Tabs" on the "Getting Started" tab for more details.
6. On this tab, cells will be highlighted yellow if your response is different than the expected input type (e.g., letters instead of numbers). Re-enter the information in the appropriate format to remove the highlighting.

P2 IIA Communities EJ Grant: Business Establishment 47

How to Use this Tab:

1. Enter Business Establishment Information in rows 11-20, noting that rows 12-14 are optional. For the Business Establishment Name, if you do not wish to disclose the actual name, enter a meaningful proxy so that you will be able to find it when entering follow-up information.
2. Under P2 Actions and Outcomes, enter each P2 recommendation provided as part of the technical assistance. You may enter initial estimates of costs, annual savings and annual reductions.
3. Once you have followed up with the business establishment to learn which P2 recommendations it has implemented, enter in row 20 the date(s) of follow-up.
4. When your follow-up confirms a P2 recommendation was implemented, enter "Y" in Column K and select a date implemented in Column L. Update any preliminary estimates based on the actual implementation at the business establishment. (Important: The values in columns C - J will tally in this tab's Total rows and in the Results Summary tab only if row 20 has a follow-up date, Column K has a "Y", and Column L has an implementation date selected.)
5. Additionally, enter implementation details in column N. See "Working with Numbered Tabs" on the "Getting Started" tab for more details.
6. On this tab, cells will be highlighted yellow if your response is different than the expected input type (e.g., letters instead of numbers). Re-enter the information in the appropriate format to remove the highlighting.

P2 IIIA Communities EJ Grant: Business Establishment 64

How to Use this Tab:

- Enter Business Establishment Information in rows 11-20, noting that rows 12-14 are optional. For the Business Establishment Name, if you do not wish to disclose the actual name, enter a meaningful proxy so that you will be able to find it when entering follow-up information.
- Under P2 Actions and Outcomes, enter each P2 recommendation provided as part of the technical assistance. You may enter initial estimates of costs, annual savings and annual reductions.
- Once you have followed up with the business establishment to learn which P2 recommendations it has implemented, enter in row 20 the date(s) of follow up.
- When your follow-up confirms a P2 recommendation was implemented, enter "Y" in Column K and select a date implemented in Column L. Update any preliminary estimates based on the actual implementation at the business establishment. (Important: The values in columns C - J will tally in this tab's Total rows and in the Results Summary tab only if row 20 has a follow-up date, Column K has a "Y", and Column L has an implementation date selected.)
- Additionally, enter implementation details in column N. See "Working with Numbered Tabs" on the "Getting Started" tab for more details.
- On this tab, cells will be highlighted yellow if your response is different than the expected input type (e.g., letters instead of numbers). Re-enter the information in the appropriate format to remove the highlighting.
