Pesticide Enforcement Performance Measures

March 2015

State/Tribe: U.S. ENVIRONMENTAL PROTECTION AGENCY Fiscal Year: SFY 2019 - 2020 Reporting Period: 07/01/2019 - 06/30/2020

STRATEGIC GOAL 1: PROTECTION OF HUMAN HEALTH - OCCUPATIONAL USERS

MEASURE 1A: COMPLIANCE WITH WPS REGULATIONS
Measure Description: The intent of this measure is to determine how well agricultural employers/operators (which includes workers and handlers as appropriate) follow the WPS regulations. The type of violation is not required to be reported.
Reporting Criteria:

- Number of WPS inspections and investigations (Tier 1 and 2) conducted during the reporting period:
- Number of WPS violations identified during the reporting period:
- Number of enforcement actions taken for WPS violations (during the reporting period):

MEASURE 1B: COMPLIANCE WITH APPLICATOR CERTIFICATION REQUIREMENTS AS REQUIRED BY STATE/TRIBAL/FEDERAL LAW
Measure Description: The intent of this measure is to determine the compliance of pesticide applicators with certification requirements by considering: 1) the number of applicators found to be in compliance at the time of the inspection, and 2) the number of applicators who came into compliance after an inspection by obtaining certification due to state/tribal enforcement response.

Pesticide Performance Measures Form Entry Page 2

MEASURE 1B: COMPLIANCE WITH APPLICATOR CERTIFICATION REQUIREMENTS AS REQUIRED BY STATE/TRIBAL/FEDERAL LAW
Measure Description: The intent of this measure is to determine the compliance of pesticide applicators with certification requirements by considering: 1) the number of applicators found to be in compliance at the time of the inspection, and 2) the number of applicators who came into compliance after an inspection by obtaining certification due to state/tribal enforcement response.
Reporting Criteria:

- Number of inspected applicators who are required to comply with certification requirements:
- Number of uncertified applicators found during those inspections that should have been certified:
- Number of uncertified applicators obtaining certification, discontinued making applications where certification was required, or were brought into compliance (during the reporting period):

STRATEGIC GOAL 2: PROTECTION OF HUMAN HEALTH: ALL PEOPLE (PEOPLE WHO GET EXPOSED TO PESTICIDES)

MEASURE 2: COMPLIANCE WITH FOOD AND DRINKING WATER PROTECTION REGULATIONS
Measure Description: The intent of this measure is to determine compliance with pesticide label language intended to protect human health from the harmful effects of pesticides in the diet.
Reporting Criteria:

- Number of use inspections and use complaint investigations conducted:
- Number of use cases that identified label language violations related to food or drinking water:

Pesticide Performance Measures Form Entry Page 3

Number of use cases that identified label language violations related to food or drinking water (E.g. misuse in dining/eating areas, drift onto food crops, mix/load within buffer areas, etc.):

STRATEGIC GOAL 3: PROTECTION OF ENVIRONMENTAL MEDIA: WATER, SOIL AND NON-TARGET SPECIES

MEASURE 3: COMPLIANCE WITH LABEL LANGUAGE FOR PROTECTION OF WATER, SOIL, AND NON-TARGET SPECIES

Measure Description: The intent of this measure is to determine how well pesticide applicators protect environmental resources by following pesticide label language intended to protect those resources.

Reporting Criteria:

Number of inspections and investigations that involved environmental media by type of media (see below):

Number involving water resources:

Number involving soil resources:

Number involving non-target species:

Number of cases identifying violations of label language regarding protection of the following environmental media (This can include cases where no damage is seen but the state/tribe finds chemical residues which they consider a label violation.):

Number with water resources violations:

Number with soil resource violations:

Pesticide Performance Measures Form Entry Page 4

Number with soil resource violations:

Number with non-target species violations:

Number of enforcement actions taken by the state/tribe for violations of label language regarding protection of the following environmental media:

Number with water resource enforcement actions:

Number with soil resource enforcement actions:

Number with non-target species enforcement actions:

STRATEGIC GOAL 4: ASSURING THE AVAILABILITY OF EFFECTIVE PESTICIDES IN THE MARKETPLACE

MEASURE 4: COMPLIANCE WITH FIFRA REGISTRATION REQUIREMENTS

Measure Description: The intent of this measure is to assess the degree to which unregistered, misbranded or misformulated pesticides are found in the marketplace. Marketplaces include both brick-and-mortar facilities and internet websites, so long as the labels reviewed and enforcement actions taken are accounted for in the state/tribal enforcement program. It is important to note that only labels reviewed as a part of an inspection or investigation for enforcement purposes are to be reported, not the labels reviewed annually by state/tribal registration programs.

Reporting Criteria:

Number of inspections and investigations involving review of pesticide labels for registration status, misbranding or composition differing from that provided on the label (includes internet investigations if compliance can be determined, but NOT routine registration reviews):

The browser address bar shows the URL: cdxnodengn2.epa.gov/cdx-opp-fifra-cepg/#grant/140640/budgetPeriod/140641/perfmeas/workPlanAccomplishments. The EPA logo and 'FIFRA Work Plan and Report Application' are visible at the top left. The user is identified as 'Loren Lapointe, U.S. ENVIRONMENTAL PROTECTION AGENCY' with a 'Logout' link. A sidebar on the left contains a navigation menu with options like 'Work Plan Accomplishments', '5700 Main', '5700 WPS', '5700 CC', 'Performance Measures', 'Total Program Accomplishments', and 'Grant Number:'. The main content area features a section titled 'STRATEGIC GOAL 4: ASSURING THE AVAILABILITY OF EFFECTIVE PESTICIDES IN THE MARKETPLACE'. Under this goal, there is a sub-section 'MEASURE 4: COMPLIANCE WITH FIFRA REGISTRATION REQUIREMENTS'. The 'Measure Description' explains the intent of the measure to assess pesticide compliance in the marketplace. The 'Reporting Criteria' section includes three input fields for reporting: 'Number of inspections and investigations involving review of pesticide labels for registration status, misbranding or composition differing from that provided on the label (includes internet investigations if compliance can be determined, but NOT routine registration reviews)', 'Number of inspections and investigations involving violations of registration requirements which were subject to the state/tribe enforcement response policy, but were not referred to EPA', and 'Number of inspections and investigations referred to EPA for further review due to potential registration, misbranding or composition differs violations:'. The Windows taskbar at the bottom shows the search bar, taskbar icons, system tray with temperature (43°F) and date (2/10/2022).
