Any request to fill one of these seats must describe the requestor's affiliation with commercial air tour operators, environmental concerns, or federally recognized Native American tribes, as appropriate. The request should also explain what expertise the requestor would bring to the NPOAG as related to issues and concerns with aircraft flights over national parks or tribal lands. The term of service for NPOAG members is 3 years. Members may re-apply for another term.

On August 13, 2014, the Office of Management and Budget issued revised guidance regarding the prohibition against appointing or not reappointing federally registered lobbyists to serve on advisory committees (79 FR 47482).

Title: Certificates of Waivers under 14 CFR 91.903.

Form Numbers: Not applicable.

Type of Review: Approval of new Information Collection.

Background: Title 14, Part 91 of the Code of Federal Regulations prescribes the rules governing the operation of aircraft within the United States. Included in this is the operation of unmanned aircraft systems (UAS), commonly known as drones, by both civil and public aircraft operators. 14 CFR 91.903 allows for operators of aircraft to apply for a certificate of waiver authorizing the operator to deviate from the rules listed in § 91.905 if the proposed operation can be conducted safely.

To process certificate of waiver requests, the FAA requires the name of the person or organization sponsoring the request, mailing address, information related to any pending or to prior waiver requests that were denied or rescinded, the regulation sought to deviate from, time and location of the proposed operation, the make and model of the aircraft, and the pilot's name, address, and certificate number and rating. This information is necessary for the FAA to meet its statutory mandate of maintaining a safe and efficient national airspace. See 49 U.S.C. 40103, 44701, and 44807. The FAA will use the requested information to determine if the proposed UAS operation can be conducted safely.

The FAA proposes to use a web portal accessible from the FAA website to

process certificate of waiver requests from the public. To initially access the web portal, the FAA requires respondents to complete an Access Request Form. This form requires the respondent to provide the date, the respondent's name, telephone number, and email address, to identify if the respondent is a civil or public operator, and to provide a general reason why operating a UAS.

Respondents: UAS operators seeking to a certificate of waiver under 14 CFR 91.903. Between 2023–2026, the FAA estimates that it will receive a total of 5,105 certificate of waiver requests with 4,925 coming from public users and 180 coming from civil users. The FAA also estimates that it will receive a total 2,572 requests to initially access the web portal.

Frequency: The requested information will need to be provided each time a respondent requests a certificate of waiver under Part 91 and the first time that a respondent requests to access the web portal.

Estimated Average Burden per Response: The FAA estimates the respondents will take an average of 15 minutes to complete the Access Request Form and 120 minutes to request a certificate of waiver.

Estimated Total Annual Burden: 3,283 hours for those completing certificate of waiver requests. 214 hours for those completing the Access Request Form.

Issued in Washington, DC, on May 31, 2023.

General Engineer, AJV-P22.
