The information the client provides is voluntary. The client's home can be enrolled in the program whether they decide to participate in the evaluation or not. The public reporting burden for collection of this information is estimated to be 20 minutes per response. HUD may not collect this information, and you are not required to complete this form, unless it displays a currently valid OMB control number.

Grantee Instructions: Conduct this interview **only with the client you have enrolled in the OAHM Program, i.e., the beneficiary receiving direct services from your program who has been identified as the client by the licensed occupational therapist (OT), or a licensed OT Assistant (OTA) or Certified Aging-in-Place Specialist (CAPS) whose work is overseen by a licensed OT.** Make sure this client's information has been correctly entered into Item 9 of the Client Eligibility Documentation Form. For each question, do not give "not answered" as an answer choice. Instead, gently probe for answers and only record "not answered" as a last resort.
