Rural Utilities Service

Title: 7 CFR part 1738 Rural Broadband Loans, Loan/Grant Combinations, and Loan Guarantees.

OMB Control Number: 0572-0154.

Summary of Collection: The Rural Utilities Service (RUS) is authorized by Title VI, Rural Broadband Access, of the Rural Electrification Act of 1936, as amended (RE Act), to provide loans, loan/grant combinations, and loan guarantees to fund the cost of construction, improvement, or acquisition of facilities and equipment for the provision of broadband service in eligible rural areas in the States and Territories of the United States. The regulation for this program, 7 CFR part 1738, prescribes the types of loans available, facilities financed, and eligible applicants, as well as minimum equity requirements to be considered for a loan. In addition, 7 CFR part 1738 outlines the process through which RUS will consider applicants under the priority consideration required in Title VI.

The term of the loan or loan/grant combination is based on the expected composite economic life based on the depreciation rates of the facilities financed. The term of the loan or loan/grant combination can be as high as 35 years. These loans are secured by a first lien on the borrower's broadband system. In the interest of protecting loan security and accomplishing the statutory objective of a sound program of rural broadband service access, Title VI of the RE Act further requires that RUS make or guarantee a loan only if there is reasonable assurance that the loan, together with all outstanding loans and obligations of the borrower, will be repaid in full within the time agreed; the information gathered in this collection will help RUS determine that reasonable assurance.

Need and Use of the Information: Lending entities who wish to participate in this program must submit an application and/or certain information to Rural Development (RD). This information will be used to determine an applicant's eligibility to borrow under the terms of the RE Act and that the applicant complies with statutory, regulatory, and administrative eligibility requirements for loan assistance. This information is also used by RUS to determine that the Government's security for loans is reasonably adequate and that the loans will be repaid within the time agreed.

The program is authorized pursuant to 5 U.S.C. 301; 7 U.S.C. 1989; 16 U.S.C. 1005; Division B, Title VII General Provisions, Section 783 of the Further Consolidated Appropriations Act, 2020 (Pub. The program is implemented through 7 CFR part 1775, Technical Assistance Grants, and the provisions of this NOFO. Other Federal statutes and regulations are listed at 7 CFR 1775.8, Other Federal statutes.

Need and Use of the Information: The RUS National Office staff will use the information collected to determine applicant eligibility, project feasibility, and the applicant's ability to meet the grant and regulatory requirements. Based on funding availability for each Fiscal Year and the dollar amount requested by applicants, it may not be possible to fund all applications for the amount requested. If a particular application/project cannot be funded for the full amount, the applicant will be requested to submit revised documents to reflect the revision in the scope of the project based on the amount that can be awarded. Failure to collect proper information could result in improper
