

## Welcome to the SNAP Work Requirements and E&T Data Survey

Westat is conducting the *Supplemental Nutrition Assistance Program (SNAP) Work Requirements and Employment and Training (E&T) Data* study for the U.S. Department of Agriculture's Food and Nutrition Service (FNS). This study aims to develop a framework that FNS can use to monitor and assess State agencies' progress toward equity in the future.

Your responses to this survey will provide a valuable picture of the administration of work requirements and SNAP E&T across State agencies, including areas such as hiring, case management, and participant reimbursements. This survey also asks about SNAP eligibility and SNAP E&T data.

The survey takes about 75 minutes to complete. It contains the following eight main sections that may be assigned to agency staff with relevant expertise:

- About Your State's SNAP E&T Program
- Screening for Work Requirements
- Case Management, Initial Assessment, and Participant Reimbursements
- SNAP E&T Service Providers and Components
- SNAP E&T Data Use and Decision Making
- Participant Outcomes
- SNAP Eligibility and E&T Data
- State Agency Hiring Practices

Your responses will be kept private, except as otherwise required by law. We will not share the information you provide with anyone outside the study team. Although participation is strongly encouraged, there are no penalties if you choose not to participate.

If you have questions about the survey, contact the Westat study team [here](#) or the FNS project officer, Kristen Corey, at [Kristen.Corey@usda.gov](mailto:Kristen.Corey@usda.gov).
