Exp. Date 03/31/2027

### Attachment 3

## Evaluation of the Minority HIV/AIDS Research Initiative (MARI): 2003-present Survey Screenshots

Public reporting burden of this collection of information is estimated to average 30 minutes per response including the time for reviewing instructions, searching existing data sources, gathering and maintaining the data needed, and completing and reviewing the collection of information. An agency may not conduct or sponsor, and a person is not required to respond to a collection of information unless it displays a currently valid OMB control number. Send comments regarding this burden estimate or any other aspect of this collection of information, including suggestions for reducing this burden to CDC/ATSDR Reports Clearance Officer; 1600 Clifton Road NE, MS D-74, Atlanta, Georgia 30333; ATTN: PRA (0920-0840)

The screenshot shows a web browser window with the URL <https://www.surveymonkey.com/r/X3QDWXZ>. The survey title is "Evaluation of the Minority HIV/AIDS Research Initiative (MARI): 2003-present". The section title is "Consent to be in a Non-Research Program Evaluation". The text reads: "Thank you for your interest in this study. Before you decide to complete this survey, please read below and ask any questions to Dr. Kimberly Evans (xli5@cdc.gov; 404-463-1440). This study is being conducted by staff at the Centers for Disease Control and Prevention (CDC), Division of HIV Prevention, HIV Research Branch, Social Determinants of Health Research Team. We are asking you to be in this evaluation because you were a former CDC Minority HIV/AIDS Research Initiative (MARI) funding recipient. The purpose of this evaluation is to learn more about your research activities and funding experience, the impact of MARI on your career, and feedback on MARI as a research training program for early-career investigators, all so we can improve the MARI program. We expect the survey to take you approximately 30 minutes to complete. There is low risk to you if you decide to participate in this evaluation. Some of the questions are personal. You do not have to respond to any questions you do not want to and you may stop at any time. There is no reimbursement or token of appreciation for taking part in this survey. By participating in this evaluation, it will help CDC staff evaluate the impact of MARI as an early-career research training program and assess the impact of MARI on research and health outcomes within communities of color disproportionately affected by HIV. What you tell us will be kept private, and we will safeguard your identity and the information you share. Anonymous responses to the survey may be shared during national conferences and to write papers for submission to academic journals. At no". A progress bar at the bottom indicates "0 of 29 answered". The Windows taskbar at the bottom shows the time as 9:43 AM on 6/6/2024.

shared during national conferences and to write papers for submission to academic journals. At no time, will anyone be able to connect your name to what you said in your survey responses. We will also share our findings with you if you would like.

If you have any questions about this survey or your rights to being in this evaluation, you may call Dr. Kimberly Evans at 404-639-1440 or email at xli5@cdc.gov.

**OK**

\* 1. If you agree to be in this evaluation, please type your name in the box below. By signing your name, you also agree that you have read this information and have had a chance to ask any questions you may have about the evaluation.

## Evaluation of the Minority HIV/AIDS Research Initiative (MARI): 2003-present

### Impact of MARI on Research Career

21. How has being a MARI funding recipient affected your career? Feel free to briefly share any successes and/or challenges.

22. Approximately how much total subsequent funding did you receive in the ten years after initially being funded for MARI? This can include funding received from a different source (e.g., NIH-funding, CFAR funding, other CDC-RFA funding) while being a MARI investigator.

## Evaluation of the Minority HIV/AIDS Research Initiative (MARI): 2003-present

### Next Steps

27. The CDC MARI team is interested in developing a network of all MARI investigators for collaboration and knowledge sharing, e.g., GroupMe, Google Group, or list serv. Would you be interested in participating in a network created by CDC?

Yes

No

28. We are planning a 20+ Years Anniversary Celebration of MARI and have submitted an abstract for a workshop at the 2024 United States Conference for HIV/AIDS in New Orleans from September 12 – 15, 2024. Do you plan to attend this conference? (If no, end the survey)
