Instructions for Data Collection
Enter the date that the patient was admitted for inpatient care using a six-digit format (MMDDYY).

Enter the approriate diagnosis code(s) that describes the patient's admitting condition for this encounter.

Enter the appropriate two-digit admission time referring to the hour during which the patient was admitted for inpatient care.
Enter the appropriate two-digit type of visit priority code for the admission/visit.
Enter the appropriate two-digit condition code or to describe any of the conditions or events that apply to the billing period if applicable to the patient’s condition.
Enter the applicable HCPCS (CPT)/HIPPS rate code for the service line item if the claim was for ancillary outpatient services and accommodation rates.

Enter the approriate diagnosis code(s) to describe any health condition(s) identified/treated/observed during this encounter.

Enter the required value of “9” or only for the special conditions enter a “0”. Note: “0” is allowed if ICD-10 is named as an allowable code set under HIPAA.
Identify the diagnois using the following diagnosis types: **Admitting Diagnosis** - the condition identified by the physician at the time of the patient’s admission requiring hospitalization. **Other Diagnoses -** other condition(s) coexist or develop(s) subsequently during the patient’s treatment. **Patient’s Reason for Visit** - the condition the patient reports as the reason for their visit. **Principal Diagnosis** - the condition established after study to be chiefly responsible for this encounter. **Reason for Visit** - (up to three (3) diagnoses) May enter up to 23 total diagnosis codes.
Not include on UB04 form

Enter the appropriate two-digit code indicating the patient's discharge status.
Enter the appropriate two-digit admission time referring to the hour during which the patient was admitted for inpatient care.

Unique identifier for each patient encounter, assigned by NHSN.

Up to four modifiers, two characters each. Various CPT (Level I HCPCS) and Level II HCPCS codes may require the use of modifiers to improve the accuracy of coding. Hospitals should not report a separate HCPCS (five-digit code) instead of the modifier. When appropriate, report a modifier based on the CPT (Level I HCPCS) and Level II HCPCS.
Enter the number used by the primary (51a) health plan to identify itself. Enter a secondary (51b) or tertiary (51c) health plan, if applicable.

Enter the marital status of the patient at the time of admission.
The NHSN-assigned facility ID when enrolled in NHSN.
Enter the health plan that the provider might expect some payment from for the claim - Primary, Secondary, Tertiary

Enter the code indicating the source of the referral for this admission or visit
Enter the diagnosis code of the condition that was present when the patient was admitted.

Enter the procedure code(s) to describe any procedure(s) performed during this encounter.

Enter the number that corresponds to the procedure to indicate the order in which the procedure was preformed.
Enter the required value of “9” or only for the special conditions enter a “0”. Note: “0” is allowed if ICD-10 is named as an allowable code set under HIPAA.
Enter the date that the procedure was performed.
Required. The patient’s mailing address, including street number and name, post office box number or RFD.
Required. The patient’s city.
Required. The patient’s State.
Required. The patient’s ZIP Code.
Enter the patient’s unique alphanumeric control number assigned to the patient by the facility. This number is unique for every encounter.

Required. The patient's month, day, and year of birth (MMDDCCYY) of patient. If full birth date is unknown, indicate zeros for all eight digits.
Patient's Ethnicity
The number assigned to the patient’s medical/health record by the provider (not FL3a).
Required. The patient’s first name.
Required. The patient’s last name.
Required. The patient’s middle name.
Patient's Race.
Required. The patient’s sex as recorded at admission, outpatient service, or start of care.
Enter the applicable Revenue Code for the services rendered
Enter the applicable six-digit format (MMDDYY) for the service line item if the claim was for outpatient services, SNF\PPS assessment date, or needed to report the creation date for line 23.
The beginning service dates of the period included on the bill included on the bill using a six-digit date format (MMDDYY).

The ending service dates of the period included on the bill included on the bill using a six-digit date format (MMDDYY).
This four-digit alphanumeric code gives three specific pieces of information after a leading zero. CMS will ignore the leading zero. CMS will continue to process three specific pieces of information. The second digit identifies the type of facility. The third classifies the type of care. The fourth indicates the sequence of this bill in this particular episode of care. It is referred to as a “frequency” code.
