

CCE Screens for SSA-671

The CCE System will use smart pathing to leverage some of the information collected in the Retirement application path to determine what supplemental information is required. For instance, when an individual indicates that they worked in the railroad industry, the CCE path will bring up questions from the SSA-671 to collect information about any pensions from the Railroad Retirement Board (RRB).

If individuals answer "Yes" to RRB, then the subsequent questions are displayed for technicians to ask applicants.

The screenshot displays a series of questions from the SSA-671 form. A red dashed box highlights the first question, and a red dashed arrow points from it to a callout box. Below this, several other questions are visible. At the bottom, two dropdown menus are shown with callout boxes, and red dashed arrows point from them to their respective fields in the main form. A blue information banner is located at the bottom of the form.

***Receiving Railroad Retirement Board (RRB) pension/annuity**
 Yes No

***Number of months worked for railroad after 1936**

***Worked for railroad within the last 18 months**
 Yes No

***Received RRB sickness benefits or unemployment benefits in last 18 months**
 Yes No
