	time perpetration and first-time victimization. Primary prevention is stopping domestic and dating violence before they occur. Primary prevention includes, but is not limited to: School-based violence prevention curricula, programs aimed at mitigating the effects on children of witnessing domestic or dating violence, community campaigns designed to alter norms and values conducive to domestic or dating violence, worksite prevention programs, and training and education in parenting skills and self-esteem enhancement.
Underserved populations	Populations who face barriers in accessing and using victim services, and includes populations underserved because of geographic location, religion, sexual orientation, gender identity, underserved racial and ethnic populations, and populations underserved because of special needs including language barriers, disabilities, immigration status, and age. Individuals with criminal histories due to victimization and individuals with substance use disorders and mental health issues are also included in this definition.
