SUPPLEMENTARY INFORMATION:

I. Background

The Department of Labor, as part of the continuing effort to reduce paperwork and respondent (i.e. employer) burden conducts a preclearance consultation program to provide the public with an opportunity to comment on proposed and continuing information collection requirements in accordance with the Paperwork Reduction Act of 1995 (PRA) (44 U.S.C. 3506(c)(2)(A)). This program ensures that information is in the desired format, reporting burden (time and costs) is minimal, the collection instruments are clearly understood, and OSHA's estimate of the information collection burden is accurate. The Occupational Safety and Health Act of 1970 (OSH Act) (29 U.S.C. 651 *et seq.*) authorizes information collection by employers as necessary or appropriate for enforcement of the OSH Act or for developing information regarding the causes and prevention of occupational injuries, illnesses, and accidents (29 U.S.C. 657). The OSH Act also requires that OSHA obtain such information with minimum burden upon employers, especially those operating small businesses, and to reduce to the maximum extent feasible unnecessary duplication of effort in obtaining information (29 U.S.C. 657).

The following sections describe who uses the information collected under each requirement, as well as how they use it. The purpose of these requirements a number of standards issued by OSHA contain requirements that specify employers use only equipment, products, or material tested or approved by a Nationally Recognized Testing Laboratory (NRTL). These requirements ensure that employers use safe and efficacious equipment, products, or materials in complying

with the standards. Accordingly, OSHA promulgated the Program Regulation for Nationally Recognized Testing Laboratories, 29 CFR 1910.7 (the Regulation). The Regulation specifies procedures that organizations must follow to apply for, and to maintain, OSHA's recognition to test and certify equipment, products, or material for safe use in the workplace.

II. Special Issues for Comment

OSHA has particular interest in comments on the following issues:

- Whether the proposed information collection requirements are necessary for the proper performance of the agency's functions to protect workers, including whether the information is useful;
- The accuracy of OSHA's estimate of the burden (time and costs) of the information collection requirements, including the validity of the methodology and assumptions used;
- The quality, utility, and clarity of the information collected; and
- Ways to minimize the burden on organizations that must comply, for example, by using automated or other technological information collection and transmission techniques.

III. Proposed Actions

OSHA is requesting that OMB extend the approval of the information collection requirements contained in the Definition and Requirements for a Nationally Recognized Testing Laboratory. The agency is requesting an adjustment increased in burden hours from 1,572 to 1,588, a total increase of 16 hours. This increase is due to an increase in the number of audits conducted each year from 47 to 48. Also, the total capital cost increased from \$757,440 to \$767,736.

The agency will summarize the comments submitted in response to this Notice and will include this summary in the request to OMB to extend the approval of these information collection requirements.

Type of Review: Extension of a currently approved collection.

BILLING CODE 4510-26-P

NATIONAL AERONAUTICS AND SPACE ADMINISTRATION

[NASA Document Number: 24-048; NASA Docket Number: NASA-2024-0006]

Name of Information Collection: NASA Communications Research

AGENCY: National Aeronautics and Space Administration (NASA).

ACTION: Notice of a new information collection.

SUMMARY: NASA, as part of its continuing effort to reduce paperwork and respondent burden, invites the general public and other Federal agencies to take this opportunity to comment on proposed and/or continuing information collections, as required by the Paperwork Reduction Act of 1995 (PRA).

DATES: Comments are due by September 30, 2024.

ADDRESSES: Written comments and recommendations for this information collection should be sent within 60 days of publication of this notice at <http://www.regulations.gov> and search for NASA Docket NASA-2024-0006.

FOR FURTHER INFORMATION CONTACT: Requests for additional information or copies of the information collection instrument(s) and instructions should be directed to NASA PRA Clearance Officer, Stayce Hoult, NASA Headquarters, 300 E Street SW, JC0000, Washington, DC 20546, phone 256-714-8575, or email hq-ocio-pra-program@mail.nasa.gov.

SUPPLEMENTARY INFORMATION:

I. Abstract

This information collection supports NASA's efforts to implement the National Aeronautics and Space Act, as amended, 51 U.S.C. 20112(a)(3) to better understand and inform strategies to improve the outcomes in how we "provide for the widest practicable and appropriate dissemination of information concerning its activities and the results thereof." Through this effort, NASA seeks to collect information that will help best understand the current results of its communications to the American public, and how to apply resources to most efficiently and effectively fulfill that foundational function of NASA. This data collection is part of an effort to have an audience-oriented and data-driven approach to assessing NASA's performance against this mandate in a manner that is objective, standardized, and repeatable.

This information will be used by NASA to measure the American public's knowledge of the agency, its activities,

the overall sector and the government's role in it, and how those factors vary across demographics. This type of research is standard in the commercial communications industry. NASA will use the information to adjust its communication strategies and methods, widen dissemination, better reach demographics with low awareness or misinformation, and tailor information to specific appropriate audiences, ensuring more effective and equitable dissemination.

II. Methods of Collection

Web-based, email, and telephone.

III. Data

Title: NASA Communications Research.

OMB Number: 2700-xxxx.

Type of Review: Review of New Information Collection.

Affected Public: Individuals in the U.S. Population.

Estimated Annual Number of Activities: 1,500.

Estimated Number of Respondents per Activity: 1.

Annual Responses: 1,500.

Estimated Time per Response: 15 minutes.

Estimated Total Annual Burden Hours: 375.

IV. Request for Comments

Comments are invited on: (1) Whether the proposed collection of information is necessary for the proper performance of the functions of NASA, including whether the information collected has practical utility; (2) the accuracy of NASA's estimate of the burden (including hours and cost) of the proposed collection of information; (3) ways to enhance the quality, utility, and clarity of the information to be collected; and (4) ways to minimize the burden of the collection of information on respondents, including automated collection techniques or the use of other forms of information technology.

Comments submitted in response to this notice will be summarized and included in the request for OMB approval of this information collection. They will also become a matter of public record.

Stayce Hoult,

PRA Clearance Officer, National Aeronautics and Space Administration.
