Customer Experience: OMB Circular A-11, Section 280
Implementation"
(OMB Control Number: 1601-0029)**

TITLE OF INFORMATION COLLECTION: FEMA Customer Experience (CX) Survey

PURPOSE OF COLLECTION:

What are you hoping to learn / improve? How do you plan to use what you learn? Are there artifacts (user personas, journey maps, digital roadmaps, summary of customer insights to inform service improvements, performance dashboards) the data from this collection will feed?

The purpose of the FEMA Customer Experience (CX) survey is to ensure 'excellent service' as a focus in future strategic planning efforts according to the March 2018 President's Management Agenda. This effort is supported by an interagency team and guidance in Circular A-11 requiring the collection of customer feedback data and increasing the use of industry best practices to conduct customer research. These Presidential actions and requirements establish an ongoing process of collecting customer insights and using them to improve services. This new request complies with FEMA's ability to act under the Department of Homeland Security (DHS) in accordance with OMB Circular A-11 Section 280 to ultimately transform the experience of its customers to improve both efficiency and mission delivery and increase accountability by communicating about these efforts with the public.

This collection is part of the government-wide effort to embed standardized customer metrics within high-impact programs to create government-wide performance dashboards. Data collected from the questions listed will be submitted by FEMA to DHS to OMB at a minimum quarterly for updating of customer experience dashboards on performance.gov.

These surveys will be consistent with all the guidelines in 5 CFR 1320.5, especially those provisions in subsection (g) which require that a statistical survey be designed to produce results that can be generalized to the universe of study. There are no special circumstances that would cause this information collection to be conducted in an unusual or intrusive manner. All participation will be voluntary from disaster survivors who register for assistance and provide an email address.

Respondents comprise a sample from disaster survivors who register for assistance and provide an email address.

4. How will you ask a respondent to provide this information?
