SUPPLEMENTARY INFORMATION: Under the Homeland Security Presidential Directive-19: Combating Terrorist Use of Explosives in the United States, the Department of Homeland Security (DHS) was mandated to educate private sector security providers about IED threats, including tactics, techniques, and procedures relevant to their usage, so they are knowledgeable about terrorist use of explosives and contribute to a layered security approach.

The President’s Policy Directive-17: Countering Improvised Explosive Devices (PPD-17) reaffirms the 2007 Strategy for Combating Terrorist Use of Explosives in the United States. It provides guidance to update and gives momentum to our ability to counter threats involving improvised explosive devices (IEDs). DHS was mandated to deliver standardized IED awareness and familiarization training for federal, state and local responders and public safety personnel.

Over the past 10 years, incidents involving IEDs has increased worldwide. This highlights the existing threat of IED attacks by terrorists, transnational criminal organizations, and individuals domestically that have radical political, environmental, or international viewpoints. IEDs have been used in the theater of war, mass

transit systems overseas (London, Spain), in global aviation plots (December 2009), assignment attempts against political leaders, and other attempts here within the United States (Portland, Times Square, Boston Marathon 2013). They have also been used to threaten our ability in the secure movement of goods in accordance with the National Strategy for Global Supply Chain Security (print cartridge).

The Office for Bombing Prevention (OBP) must collect this information to effectively deliver training without concern that an individual who acts as a volunteer role player in support of official OBP training sustains an injury or death during the performance of his or her supporting role. Additionally, OBP must collect conference attendee information to properly identify key stakeholder segments and to ensure ongoing engagement and dissemination of OBP products to those who desire them.

The purpose of the Volunteer Participant Release of Liability Agreement is to collect necessary information in case an individual who acts as a volunteer role player in support of official OBP training sustains an injury or death during the performance of his or her supporting role. If legal action is taken, this information can serve as a “hold harmless” statement/agreement by the Government. In the unlikely event that an injury or death is sustained in the performance of support for training, this information will be used by CISA/ISD/OBP to protect against legal action by the volunteer or their family. If legal action is taken, this information can serve as a “hold harmless” statement/agreement by the Government.

The purpose of the Gratuitous Services Agreement is to establish that no monies, favors or other compensation will be given or received by either party involved. The information from the Gratuitous Services Agreement will be used by CISA/ISD/OBP in the event that questions arise regarding remuneration or payment for volunteer participation in training events.

The purpose of the OBP interest sign-up sheet is to collect basic contact information, on a voluntary basis, of those who attend the OBP conference booth and desire further engagement or additional products from OBP. The information is used by OBP to follow-up with the individuals who provide their contact information.
