

Tracking and OMB Number:

SUPPORTING STATEMENT  
FOR PAPERWORK REDUCTION ACT SUBMISSION

- 1. Explain the circumstances that make the collection of information necessary. What is the purpose for this information collection? Identify any legal or administrative requirements that necessitate the collection. Include a citation that authorizes the collection of information. Specify the review type of the collection (new, revision, extension, reinstatement with change, reinstatement without change). If revised, briefly specify the changes. If a rulemaking is involved, list the sections with a brief description of the information collection requirement, and/or changes to sections, if applicable.**

The Impact Aid Program, authorized by Title VII of the Elementary and Secondary Education Act (ESEA), as amended by the Every Student Succeeds Act (ESSA), provides financial assistance to Local Educational Agencies (LEAs) whose enrollment or revenues are adversely affected by Federal activities.

The Impact Aid Discretionary Construction Program provides grants to eligible Impact Aid school districts to assist in addressing their school facility emergency and modernization needs. The eligible Impact Aid school districts have a limited ability to raise revenues for capital improvements because they have large areas of Federal land within their boundaries. As a result, these districts find it difficult to respond when their school facilities are in need of emergency repairs or modernization.

This is a new information collection requesting approval through the streamlined discretionary grant application package process (1894-0001). This request is not related to rulemaking.

- 2. Indicate how, by whom, and for what purpose the information is to be used. Except for a new collection, indicate the actual use the agency has made of the information received from the current collection.**

The Department will use the information collected in the application to determine whether applicants meet the basic eligibility requirements of section 7007(b) and to determine which of the four priorities described in the statute applies to the individual application. Among the criteria the Secretary is required to consider are the applicant's total assessed value of real property that may be taxed for school purposes, its use of bonding capacity, and the nature and severity of its need for funds. In addition, information on the application will be used to rank applications. The Department has used this information to make grant awards in past fiscal years. 34 C.F.R. §222.184 and .185 describe the information required in an application for section 7007(b) emergency grants.

- 3. Describe whether, and to what extent, the collection of information involves the use of automated, electronic, mechanical, or other technological collection techniques or forms of information technology, e.g. permitting electronic submission of responses, and the basis for the decision of adopting this means of collection. Please identify**

**systems or websites used to electronically collect this information. Also describe any consideration given to using technology to reduce burden. If there is an increase or decrease in burden related to using technology (e.g. using an electronic form, system or website from paper), please explain in number 12.**

The grant application and work completion forms are fillable PDFs, able to be saved and submitted electronically through Grants.gov. Impact Aid grantees are used to filing applications electronically, as they must do so every year. The electronic application also reduces recordkeeping burden on Impact Aid Program staff.

**4. Describe efforts to identify duplication. Show specifically why any similar information already available cannot be used or modified for use for the purposes described in Item 2 above.**

The new application has removed all of the duplication in efforts. For example, we ask for information about the number of Federally connected students attending the school in question only if the applicant has more than one school facility. If they only have one school facility, we can obtain the information from the Section 7003 Impact Aid application that the LEA must have already filed in order to qualify for this grant. We also ensured that we do not repeat any questions that are asked on the SF-424, other than the applicant's name. When the applicant enters their name on the first page, each subsequent page will autofill the applicant name at the top.

**5. If the collection of information impacts small businesses or other small entities, describe any methods used to minimize burden. A small entity may be (1) a small business which is deemed to be one that is independently owned and operated and that is not dominant in its field of operation; (2) a small organization that is any not-for-profit enterprise that is independently owned and operated and is not dominant in its field; or (3) a small government jurisdiction, which is a government of a city, county, town, township, school district, or special district with a population of less than 50,000.**

The respondents are LEAs and local officials. Small businesses are not impacted by this collection of information.

Additionally, small entities, to include small school districts, are less burdened due to the fillable, fillable PDF, which is described in the answer to question 4. As described in question 5, we have eliminated all questions that duplicate efforts or request information that the Impact Aid Program already has.

**6. Describe the consequences to Federal program or policy activities if the collection is not conducted or is conducted less frequently, as well as any technical or legal obstacles to reducing burden.**

The statute requires applicants to apply for funds every other odd fiscal year. The Department would not be able to award these funds without the application to collect the required information.

**7. Explain any special circumstances that would cause an information collection to be conducted in a manner:**

- **requiring respondents to report information to the agency more often than quarterly;**
- **requiring respondents to prepare a written response to a collection of information in fewer than 30 days after receipt of it;**
- **requiring respondents to submit more than an original and two copies of any document;**
- **requiring respondents to retain records, other than health, medical, government contract, grant-in-aid, or tax records for more than three years;**
- **in connection with a statistical survey, that is not designed to produce valid and reliable results than can be generalized to the universe of study;**
- **requiring the use of a statistical data classification that has not been reviewed and approved by OMB;**
- **that includes a pledge of confidentiality that is not supported by authority established in statute or regulation, that is not supported by disclosure and data security policies that are consistent with the pledge, or that unnecessarily impedes sharing of data with other agencies for compatible confidential use; or**
- **requiring respondents to submit proprietary trade secrets, or other confidential information unless the agency can demonstrate that it has instituted procedures to protect the information's confidentiality to the extent permitted by law.**

This application is consistent with all of the guidelines in 5 CFR 1320.5.

**8. As applicable, state that the Department has published the 60 and 30 Federal Register notices as required by 5 CFR 1320.8(d), soliciting comments on the information collection prior to submission to OMB.**

**Include a citation for the 60 day comment period (e.g. Vol. 84 FR ##### and the date of publication). Summarize public comments received in response to the 60 day notice and describe actions taken by the agency in response to these comments. Specifically address comments received on cost and hour burden. If only non-substantive comments are provided, please provide a statement to that effect and that it did not relate or warrant any changes to this information collection request. In your comments, please also indicate the number of public comments received.**

**For the 30 day notice, indicate that a notice will be published.**

**Describe efforts to consult with persons outside the agency to obtain their views on the availability of data, frequency of collection, the clarity of instruction and record keeping, disclosure, or reporting format (if any), and on the data elements to be recorded, disclosed, or reported.**

**Consultation with representatives of those from whom information is to be obtained or those who must compile records should occur at least once every 3 years – even if the collection of information activity is the same as in prior periods. There may be circumstances that may preclude consultation in a specific situation. These circumstances should be explained.**

In accordance with 5 CFR 1320.8(d) a 30-day Federal Register notice will be published providing the public opportunity to comment on the Impact Aid Discretionary program specific application forms.

This is a request for a discretionary grant application package using the streamlined clearance process (1894-0006) which waives the 60-day Federal Register notice comment period.

**9. Explain any decision to provide any payment or gift to respondents, other than remuneration of contractors or grantees with meaningful justification.**

No gifts or payments will be made to respondents other than the funds awarded under the statute.

**10. Describe any assurance of confidentiality provided to respondents and the basis for the assurance in statute, regulation, or agency policy. If personally identifiable information (PII) is being collected, a Privacy Act statement should be included on the instrument. Please provide a citation for the Systems of Record Notice and the date a Privacy Impact Assessment was completed as indicated on the IC Data Form. A confidentiality statement with a legal citation that authorizes the pledge of confidentiality should be provided.<sup>1</sup> If the collection is subject to the Privacy Act, the Privacy Act statement is deemed sufficient with respect to confidentiality. If there is no expectation of confidentiality, simply state that the Department makes no pledge about the confidentiality of the data. If no PII will be collected, state that no assurance of confidentiality is provided to respondents. If the Paperwork Burden Statement is not included physically on a form, you may include it here. Please ensure that your response per respondent matches the estimate provided in number 12.**

There is no assurance of confidentiality provided to the respondents concerning these collections of information.

---

<sup>1</sup> Requests for this information are in accordance with the following ED and OMB policies: Privacy Act of 1974, OMB Circular A-108 – Privacy Act Implementation – Guidelines and Responsibilities, OMB Circular A-130 Appendix I – Federal Agency Responsibilities for Maintaining Records About Individuals, OMB M-03-22 – OMB Guidance for Implementing the Privacy Provisions of the E-Government Act of 2002, OMB M-06-15 – Safeguarding Personally Identifiable Information, OM:6-104 – Privacy Act of 1974 (Collection, Use and Protection of Personally Identifiable Information)

11. **Provide additional justification for any questions of a sensitive nature, such as sexual behavior and attitudes, religious beliefs, and other matters that are commonly considered private. The justification should include the reasons why the agency considers the questions necessary, the specific uses to be made of the information, the explanation to be given to persons from whom the information is requested, and any steps to be taken to obtain their consent.**

There are no questions of a sensitive nature in these collections of information.

12. **Provide estimates of the hour burden for this current information collection request. The statement should:**

- **Provide an explanation of how the burden was estimated, including identification of burden type: recordkeeping, reporting or third party disclosure. Address changes in burden due to the use of technology (if applicable). Generally, estimates should not include burden hours for customary and usual business practices.**
- **Please do not include increases in burden and respondents numerically in this table. Explain these changes in number 15.**
- **Indicate the number of respondents by affected public type (federal government, individuals or households, private sector – businesses or other for-profit, private sector – not-for-profit institutions, farms, state, local or tribal governments), frequency of response, annual hour burden. Unless directed to do so, agencies should not conduct special surveys to obtain information on which to base hour burden estimates. Consultation with a sample (fewer than 10) of potential respondents is desirable.**
- **If this request for approval covers more than one form, provide separate hour burden estimates for each form and aggregate the hour burden in the table below.**
- **Provide estimates of annualized cost to respondents of the hour burdens for collections of information, identifying and using appropriate wage rate categories. [Use this site](#) to research the appropriate wage rate. The cost of contracting out or paying outside parties for information collection activities should not be included here. Instead, this cost should be included in Item 14. If there is no cost to respondents, indicate by entering 0 b in the chart below and/or provide a statement.**

**Provide a descriptive narrative here in addition to completing the table below with burden hour estimates.**

It is estimated based on past grant competitions that ED will receive 25 applications. The section 7007(b) grant application takes an average of 5 hours and 15 minutes to complete or 5.25 hours. Applicants also complete and submit the Health/Safety Emergency Certification Letter which takes on average 45 minutes or .75 hours to complete. In total, an applicant will spend 6 hours on the application and certification letter. 25 applicants x 6 hours = 150 burden hours.

### Estimated Annual Burden and Respondent Costs Table

Information Activity or IC (with type of respondent)	Number of Respondents	Number of Responses	Average Burden Hours per Response	Total Annual Burden Hours	Estimated Respondent Average Hourly Wage	Total Annual Costs (hourly wage x total burden hours)
Section 7007(b) application (LEAs)	25	25	6	150	\$51.48	\$7,776
Annualized Totals	25	25		150		\$7,776

The annual number of responses for this collection totals 25. The average number of hours/response is 6 hours, a total of 150 annual burden hours.

13. **Provide an estimate of the total annual cost burden to respondents or record keepers resulting from the collection of information. (Do not include the cost of any hour burden shown in Items 12 and 14.)**
- **The cost estimate should be split into two components: (a) a total capital and start-up cost component (annualized over its expected useful life); and (b) a total operation and maintenance and purchase of services component. The estimates should take into account costs associated with generating, maintaining, and disclosing or providing the information. Include descriptions of methods used to estimate major cost factors including system and technology acquisition, expected useful life of capital equipment, the discount rate(s), and the time period over which costs will be incurred. Capital and start-up costs include, among other items, preparations for collecting information such as purchasing computers and software; monitoring, sampling, drilling and testing equipment; and acquiring and maintaining record storage facilities.**
  - **If cost estimates are expected to vary widely, agencies should present ranges of cost burdens and explain the reasons for the variance. The cost of contracting out information collection services should be a part of this cost burden estimate. In developing cost burden estimates, agencies may consult with a sample of respondents (fewer than 10), utilize the 60-day pre-OMB submission public comment process and use existing economic or regulatory impact analysis associated with the rulemaking containing the information collection, as appropriate.**
  - **Generally, estimates should not include purchases of equipment or services, or portions thereof, made: (1) prior to October 1, 1995, (2) to achieve regulatory compliance with requirements not associated with the information collection, (3) for reasons other than to provide information or keep records for the government or (4) as part of customary and usual business or private**

practices. Also, these estimates should not include the hourly costs (i.e., the monetization of the hours) captured above in Item 12.

**Total Annualized Capital/Startup Cost** : \_\_\_\_\_  
**Total Annual Costs (O&M)** : \_\_\_\_\_  
**Total Annualized Costs Requested** : \_\_\_\_\_

There are no start-up costs for this collection.

14. Provide estimates of annualized cost to the Federal government. Also, provide a description of the method used to estimate cost, which should include quantification of hours, operational expenses (such as equipment, overhead, printing, and support staff), and any other expense that would not have been incurred without this collection of information. Agencies also may aggregate cost estimates from Items 12, 13, and 14 in a single table.

Analysis and processing (5 hrs./app. x \$46.94 hr. x 25 apps.)	5,867.50
Peer Review: \$150/application (stipend) x 25 applications x 4 reviewers/application	15,000
<b>Annualized total</b>	<b>\$20,868</b>

15. Explain the reasons for any program changes or adjustments. Generally, adjustments in burden result from re-estimating burden and/or from economic phenomenon outside of an agency's control (e.g., correcting a burden estimate or an organic increase in the size of the reporting universe). Program changes result from a deliberate action that materially changes a collection of information and generally are result of new statute or an agency action (e.g., changing a form, revising regulations, redefining the respondent universe, etc.). Burden changes should be disaggregated by type of change (i.e., adjustment, program change due to new statute, and/or program change due to agency discretion), type of collection (new, revision, extension, reinstatement with change, reinstatement without change) and include totals for changes in burden hours, responses and costs (if applicable).

Provide a descriptive narrative for the reasons of any change in addition to completing the table with the burden hour change(s) here.

	Program Change Due to New Statute	Program Change Due to Agency Discretion	Change Due to Adjustment in Agency Estimate
<b>Total Burden</b>		150 hours	
<b>Total Responses</b>		25 responses	
<b>Total Costs (if applicable)</b>			

This is a new information collection request for a discretionary grant application that will result in 150 hours of burden and 25 responses from the public.

- 16. For collections of information whose results will be published, outline plans for tabulation and publication. Address any complex analytical techniques that will be used. Provide the time schedule for the entire project, including beginning and ending dates of the collection of information, completion of report, publication dates, and other actions.**

The information collected will not be published.

- 17. If seeking approval to not display the expiration date for OMB approval of the information collection, explain the reasons that display would be inappropriate.**

The expiration date will be displayed on the applications.

- 18. Explain each exception to the certification statement identified in the Certification of Paperwork Reduction Act.**

There are no exceptions to the certification statement.
