

2020/25 BEGINNING POSTSECONDARY STUDENTS LONGITUDINAL STUDY (BPS:20/25)

Appendix C Student Contacting Materials

OMB # 1850-0631 v.21

**Submitted by
National Center for Education Statistics
U.S. Department of Education**

October 2024

This appendix includes all contacting materials that may be sent to sample members to request their participation during data collection for the 2020/25 Beginning Postsecondary Students Longitudinal Study (BPS:20/25). These materials are listed in tentative schedule for sample member contacts. BPS:20/25 contact materials include a brochure, website text, letters, e-mails, postcards, text messages, interesting facts and trend data, merge fields, and “as needed” materials that may be used during data collection.

We will send these materials to students at varying times throughout data collection. ‘As Needed Contacts’ may be sent in addition to scheduled contacts, in place of scheduled contacts, or may not be sent at all. We will review response rates throughout data collection and determine the most effective communication to impact response. We may also reuse some contacts during different phases of data collection. Once a sample member’s case has been finalized (either as a final refusal, other final status, or a completed survey), we will stop all contacting attempts.

We have inserted fills and merge fields into each contact to indicate where language may differ, for example, if used in a different data collection phase (early completion or production). Merge fields within the contact materials include the incentive payment options, the length of the survey, and other details specific to the case. The merge fields also account for the Office of Foreign Assets Controls (OFAC) cases that must either be paid via check or, for some cases, cannot be paid at all. ControlID, addressID, and emailID are fills that we will use to track undeliverable contacts. For example, a unique e-mail ID is assigned to each e-mail address that we have for a particular case. The e-mail ID is included at the bottom of each e-mail as a way of tracking any undeliverable or bounced e-mails, ControlID is used for QC purposes, and AddressIDs are used to track undeliverable physical mail.

Materials may include items from the ‘Interesting Facts’ section. Not all the data contained in that section will be used at one time, but rather, selected facts will be pulled from this section to be included in contact materials.

Once language is approved by OMB, we will adjust the formatting and graphics of all contacting materials as needed, including letterheads, logos, QR codes, borders, and graphics.

Contact materials that are being translated into Spanish are denoted by a * in the tentative schedule and on the individual contact materials. Page references to merge fields will be updated once language is approved by OMB and tracked changes are removed.

Summary of updates from BPS:20/25 Field Test:

- Added Interesting Facts using updated data including BPS:20/22 First Look and derived variables data that is near-final, but has not undergone full NCES review
- Removed mention of “field test” where applicable
- Removed address confirmation experiment language
- Added language to accommodate the abbreviated survey
- Updated academic years for full scale
- Updated sample size for full scale
- Removed reinterview contact materials

- Updated minor typos and spacing issues
- Updated language to be clearer/concise
- Added minor updates/improvements

2020/25 Beginning Postsecondary Students Longitudinal Study (BPS:20/25)*

***Includes both current and former students.**

Who is conducting BPS?

The 2020/25 Beginning Postsecondary Students Longitudinal Study (BPS:20/25) is conducted by the National Center for Education Statistics (NCES), in the U.S. Department of Education's Institute of Education Sciences, with data collection being carried out under contract by RTI International, a U.S.-based nonprofit research organization.

NCES is authorized to conduct BPS by the Education Sciences Reform Act of 2002 (ESRA, 20 U.S.C. §9543) and to collect students' education records from educational agencies or institutions for the purposes of evaluating federally supported education programs under the Family Educational Rights and Privacy Act of 1974 (FERPA, 34 CFR §§ 99.31(a)(3)(iii) and 99.35).

How will my information be protected?

NCES is required to follow strict procedures to protect personal information in the collection, reporting, and publication of data. All of the information provided by individuals or institutions may be used only for statistical purposes and may not be disclosed, or used, in identifiable form for any other purpose except as required by law (20 U.S.C. §9573 and 6 U.S.C §151).

BPS data security procedures are reviewed and approved by NCES data security staff. Your answers are secured behind firewalls and are encrypted during internet transmission using Secure Sockets Layer (SSL) protocol. All surveys are password protected and require the user to log in before accessing the data. NCES employees and contractors are subject to large fines or imprisonment if individual responses are disclosed.

What is BPS?

The 2020/25 Beginning Postsecondary Students Longitudinal Study (BPS:20/25) follows students who started postsecondary education in the 2019-2020 academic year. BPS will survey about 29,000 current and former students in 2025 to collect information about their educational progress and plans, experience in the workforce, earnings and expenses, family status, and personal and professional goals. Postsecondary education is any education beyond high school, including career and technical school, college, and graduate school.

Why am I being asked to participate?

You are being asked to participate in BPS because you were enrolled in postsecondary education for the first time during the 2019-20 academic year. Your participation is critical to help policymakers and others better understand the experiences of students who began postsecondary education for the first time in 2019-20. Your personal circumstances are unique, and you cannot be replaced in this study. **You may recall being asked to complete a survey in 2022, as part of the BPS:20/22 study.**

What happens to the results?

Results from the current study will be posted on the NCES website (<https://nces.ed.gov/surveys/bps/>) as soon as they are available. Your responses will

be combined with those of other students and will be presented in summary form only. No individually identifiable information will be published.

Researchers will use BPS data to explore a wide variety of topics, such as how financial aid influences persistence in and completion of postsecondary education.

How do I participate?

Participation is easy! You can complete the BPS survey online or over the phone.

Online

Log on to the study website at <https://surveys.nces.ed.gov/bps/> using the Study ID and password provided to you in your study materials.

What to Expect

Why am I being asked to participate?

You are being asked to participate in the 2020/25 Beginning Postsecondary Students Longitudinal Study (BPS:20/25) because you were enrolled in postsecondary education (any education beyond high school) for the first time during the 2019–20 academic year. Your participation is critical to help policymakers and others understand the experiences of **current and former students** who began postsecondary education for the first time in 2019-20. Your personal circumstances are unique, and you cannot be replaced in this study. **You may recall being asked to complete a survey in 2022, as part of the BPS:20/22 study.**

How can I complete the BPS survey?

You may complete the BPS survey on the Web – simply log in [<https://surveys.nces.ed.gov/BPS/>](https://surveys.nces.ed.gov/BPS/) by entering your Study ID number and password, which are provided in the BPS letter or e-mail you received. You can even complete it on your mobile device. If you need assistance accessing the survey on the website, or if you want to complete the survey by telephone, contact the BPS Help Desk by calling 800-247-6056 or sending an e-mail to <<bps@ed.gov>>//<<bps@rti.org>>.

Will I receive reminders to take the survey?

During data collection, you could receive reminder communications in any of the following ways:

- Mailings from the National Center for Education Statistics
- E-mails from <<bps@ed.gov>>//<<bps@rti.org>>
- Text messages and phone calls on behalf of the U.S. Department of Education or from a 202 area code

How long will the survey take?

For most people, we expect the survey will take about 30 minutes, depending on your answers. You do not have to complete the survey in one session. You can get started and, if you choose, you can easily log out and resume the survey later.

Do I have to participate?

Participation in this study is voluntary; however, your involvement is very important to the success of this study. By participating, you have the opportunity to help researchers, educators, and policymakers at the local, state, and national levels gain a better understanding of enrollment in postsecondary education, school expenses and financial aid, employment during and after school, demographics, and living expenses.

Can I refuse to answer a question?

You may refuse to answer any question at any time. If you choose not to answer or are unable to answer a particular question, you may still continue with the rest of the survey. Just leave the question blank and click the ‘next’ button to move on to the next question.

How do I know your website is secure?

The BPS website is protected by Secure Sockets Layer (SSL) technology. Your survey responses are collected over a secure server and connection also protected by SSL. SSL encrypts the communication between your browser and the BPS web server so your data will be kept secure.

Should I use a particular web browser to take the web survey?

The survey requires a browser that supports HTML5 and JavaScript. The latest versions of Firefox, Chrome, and Safari will work. If you are having any trouble completing the survey, please call our Help Desk at 800-247-6056 and we will be happy to assist you.

Previous Results

As with all prior Beginning Postsecondary Students Longitudinal Study surveys, results will be presented in summary form only; no individual results will be published in a way that identifies any participant. Data collected from BPS will enable researchers, educators, and policymakers to gain a better understanding of enrollment in postsecondary education, school expenses, financial aid, employment during and after school, demographics, <<experiences related to the coronavirus pandemic,>> and living expenses.

Here's what we've learned from previous BPS surveys...

A BPS 5-year follow-up was last conducted with students who were first enrolled in the 2011-2012 academic year and included about 22,000 study members. Selected findings from previous BPS surveys are presented below.

First-time beginning college students who entered postsecondary education in 2011-12 borrowed an average of **\$19,090** of subsidized and unsubsidized Title IV loans by June of **2017**.

- Female: **\$19,410**
- Male: **\$18,590**

SOURCE: U.S. Department of Education, National Center for Education Statistics, 2012-17 Beginning Postsecondary Students Longitudinal Study (BPS:12/17).

First-time beginning college students in 2011-12 attended **1.8** postsecondary institutions on average through June of **2017**.

- One institution: **50%**
- Two institutions: **33%**
- Three institutions: **13%**
- Four or more institutions: **5%**

Confidentiality

The National Center for Education Statistics (NCES) is required to follow strict procedures to protect personal information in the collection, reporting, and publication of data. All of the information provided by individuals or institutions may be used only for statistical purposes and may not be disclosed, or used, in identifiable form for any other purpose except as required by law (20 U.S.C. §9573 and 6 U.S.C §151).

Data security procedures for BPS are reviewed and approved by NCES data security staff. Your answers are secured behind firewalls and are encrypted during internet transmission using Secure Sockets Layer (SSL) protocol. All data entry modules are password protected and require the user to log in before accessing confidential data. Project staff are subject to large finer and/or imprisonment if they knowingly publish or communicate any individually identifiable information.

Congress has authorized the National Center for Education Statistics (NCES) of the U.S. Department of Education's Institute of Education Sciences to collect data about the costs of postsecondary education because policymakers at all levels need reliable and current national data in order to make decisions about postsecondary education.

NCES is authorized to conduct the 2020/25 Beginning Postsecondary Students Longitudinal Study (BPS:20/25) by the Education Sciences Reform Act of 2002 (ESRA, 20 U.S.C. §9543) and to collect students' education records from educational agencies or institutions for the purposes of evaluating federally supported education programs under the Family Educational Rights and Privacy Act of 1974 (FERPA, 34 CFR §§ 99.31(a)(3)(iii) and 99.35).

The study has been approved by the U.S. Office of Management and Budget (OMB). The valid OMB control number for this information collection is 1850-0631. The expiration date is 02/28/2027.

Important note regarding text message communications for federal studies and the TCPA

The Telephone Consumer Protection Act (TCPA), under 47 U.S. Code §227, is a federal statute enacted in 1991 to safeguard consumer privacy. This legislation restricts **telemarketing** communications via voice calls, SMS texts, and fax without explicit prior consent. Per a July 2016 Declaratory Meeting before the Federal Communications Commission, it was confirmed that TCPA **does not** restrict research survey communications, provided those communications are lawfully made by the federal government or by agents acting under authority validly conferred on them by the federal government. Because it is authorized by the U.S. Department of Education to collect data on postsecondary education, BPS:20/25 falls under this provision.

During the course of data collection, you may receive text message reminders regarding survey participation. You have the option to opt out of text message reminders at any time. **Neither text messaging contact or consent information will be shared with any third parties unless required by law.**

You can learn more about TCPA by [clicking here](#). If you have any questions regarding our use of text message reminders, you can reach us by e-mail at <<bps@ed.gov>>//<<bps@rti.org>> or by phone at **800-844-8959**.

About BPS

The **2020/25 Beginning Postsecondary Students Longitudinal Study (BPS:20/25)** collects data from about 29,000 students who started postsecondary education in the 2019–20 academic year. The study collects information from **current and former students** about their education progress and plans, experience in the workforce, earnings and expenses, family status, and personal and professional goals. Data for BPS are collected through a web or telephone survey, as well as through linkages to college records provided by the postsecondary institution and other data sources. The information collected will provide researchers, educators, and policymakers with a better understanding of enrollment in postsecondary education, school expenses and financial aid, employment during and after school, demographics, and living expenses.

The BPS:20/25 study is the second follow-up survey of a cohort of students who were enrolled in college or another postsecondary institution for the first time during the 2019–20 academic year. Most participants will remember being asked to complete a survey in 2022 as part of the BPS:20/22 study.

Congress has authorized the National Center for Education Statistics (NCES) of the U.S. Department of Education's Institute of Education Sciences to collect data about the costs of postsecondary education because policymakers at all levels need reliable and current national data in order to make decisions about postsecondary education.

BPS:20/25 is administered for NCES by RTI International, a U.S.-based nonprofit research firm.

To learn more about the data from previous BPS cycles, visit **NCES's BPS website** <https://nces.ed.gov/surveys/bps>.

We understand that you may have questions or concerns about BPS—and we're here to help! Here are the answers to some of the most frequently asked questions about BPS.

Why is my participation important?

This survey is a follow-up for current and former students like you, who were first enrolled in postsecondary education in 2019-2020. Your participation is important because it provides a national picture of students' educational progress and future plans, experience in the workforce, earnings and expenses, family status, and personal and professional goals. Your experiences are unique, and no one can replace you.

How can I participate in BPS?

It's easy! The survey can be completed on any electronic device, including a mobile device or tablet.

Hard Refusal E-mail

SUBJECT: Please Reconsider Participating in the BPS Study

Dear «fname»,

Recently, you declined to participate in the 2020/25 Beginning Postsecondary Students Longitudinal Study (BPS:20/25) «because [refusalreason]». BPS is a survey designed to help inform educators, researchers, and policymakers about factors affecting enrollment and degree attainment in postsecondary education, including how students pay for college, and employment during and after college, regardless of whether you have already graduated, are still enrolled, or are no longer enrolled in postsecondary education. We understand your hesitation, but we are hoping you will reconsider participating in this very important research conducted by the U.S. Department of Education.

We know your time is valuable—please consider some of the following reasons for participating:

- You have the **unique opportunity** to provide reliable data that otherwise would not be available for policymakers.
- Your information is **vital** in helping policymakers and researchers better understand national trends in enrollment patterns, education goals, financial aid, employment, and backgrounds of students.
- You were selected to represent other current and former students who are not being provided the opportunity to participate. **No one can replace you.**

You can complete the <<time>> **minute** survey at your leisure! If you start your survey and need to stop for any reason, you can come back at another time to finish. Unclaimed PayPal E-mail*

Subject: Claim Your BPS PayPal Payment

Hi «fname»,

Thank you for completing your 2020/25 Beginning Postsecondary Students Longitudinal Study (BPS:20/25) survey. We are e-mailing to remind you that your **\$«inc_amount»** PayPal payment is ready for you. We sent this payment to the e-mail address you provided, «emailaddress».

The payment will expire after 30 days, so please accept the payment soon.

Typically, an 'unclaimed' status means one of 3 things:

- You haven't signed up for a PayPal account yet.
- The email address we sent your payment to hasn't been added and confirmed to your PayPal account. You should be able to add this email address to your account.
- You haven't confirmed your bank account information with PayPal.

Once you have updated your PayPal account to accept our payment, it should automatically show up in your account when you log into PayPal.

Please let us know if you have any problems claiming the payment.

Thank you,

Estudio Longitudinal de Estudiantes Postsecundarios Principiantes de 2020/25 (BPS:20/25)*

*** Incluye tanto a alumnos actuales como a ex alumnos.**

¿Quién lleva a cabo BPS?

El Estudio Longitudinal de Estudiantes Postsecundarios Principiantes de 2020/25 (BPS:20/25) está patrocinado por el Centro Nacional para Estadísticas de la Educación (NCES, por sus siglas en inglés) del Instituto de Ciencias de la Educación del Departamento de Educación de los Estados Unidos. RTI International, una organización sin fines de lucro con sede en los Estados Unidos, lleva a cabo bajo contrato la recopilación de datos para el estudio.

NCES está autorizado para hacer el estudio BPS por el Acta de Reforma de las Ciencias de la Educación de 2002 (ESRA, 20 U.S.C. §9543) y a obtener récords educativos de los estudiantes de agencias o instituciones educativas para propósitos de evaluación de programas de educación con fondos federales, bajo la Ley de Derechos Educativos y Privacidad Familiar de 1974 (FERPA, 34 CFR §§ 99.31(a)(3)(iii) and 99.35).

¿Cómo se protegerá mi información?

NCES está obligado a seguir procedimientos estrictos para proteger la información personal al recopilar, reportar y publicar los datos. Toda la información que proporcionen individuos o instituciones podrá usarse solamente para propósitos estadísticos y no podrá divulgarse ni usarse de manera que permita identificar a los participantes para ningún otro propósito, salvo que lo requiera la ley (20 U.S.C. §9573 y 6 U.S.C §151).

Los procedimientos de protección de datos de BPS son examinados y aprobados por el personal de protección de datos de NCES. Tus respuestas se resguardarán con servidores de seguridad y estarán encriptadas durante la transmisión por Internet, en la que se usa el protocolo de Capa de Protección Segura (SSL, por sus siglas en inglés). Todas las encuestas están protegidas con una contraseña y obligan a que el usuario inicie sesión antes de acceder a los datos. El personal y los contratistas de NCES están sujetos a fuertes multas o prisión si las respuestas individuales se divulgan.

¿Qué es BPS?

El Estudio Longitudinal de Estudiantes Postsecundarios Principiantes de 2020/25 (BPS:20/25) sigue a estudiantes que comenzaron la educación postsecundaria en el año académico 2019-20. El BPS encuestará aproximadamente a 29,000 estudiantes actuales y anteriores en el 2025 para recopilar información sobre su progreso y planes educativos, su experiencia en la fuerza laboral, sus ingresos y gastos, su situación familiar, y sus objetivos personales y profesionales. La educación postsecundaria es cualquier educación más allá de la escuela superior o *high school*, incluyendo la carrera y la escuela técnica, la universidad y los estudios graduados.

¿Por qué me piden a mí que participe?

Se te pide que participes en el estudio BPS porque estuviste matriculado(a) en estudios de educación postsecundaria (cualquier educación después de *high school*)

por primera vez durante el año académico 2019–20. Tu participación es esencial para ayudar a los legisladores y a otras personas a entender las experiencias de los estudiantes que comienzan sus estudios de educación postsecundaria por primera vez. Tus circunstancias personales son únicas, y no podemos reemplazarte por otra persona en este estudio. **Tal vez recuerdes que te pidieron que completaras una encuesta en 2022, como parte del estudio BPS:20/22.**

¿Qué pasa con los resultados?

Los resultados del estudio de este año se publicarán en la página de NCES en Internet (<https://nces.ed.gov/surveys/bps/>) tan pronto estén disponibles. Tus respuestas se combinarán con las respuestas de otros estudiantes y se presentarán solamente en forma de resumen. No se publicará ninguna información que pudiera identificar a los participantes de manera individual.

Los investigadores usarán los datos de BPS para explorar una amplia variedad de temas, como la forma en que la ayuda financiera influye en la persistencia y la finalización de la educación postsecundaria.

La encuesta requiere un navegador compatible con HTML5 y JavaScript. Las últimas versiones de Firefox, Chrome y Safari funcionarán. Si tiene algún problema para completar la encuesta, llame a nuestro servicio de asistencia al 800-247-6056 y estaremos encantados de ayudarle.

Resultados Anteriores

Como en todas las encuestas anteriores del Estudio Longitudinal de Estudiantes Postsecundarios Principiantes, los resultados se presentarán únicamente en forma de resumen y no se publicarán resultados individuales en ninguna forma que permitan identificar a cualquier participante.

Los datos recolectados del estudio BPS ayudarán a los investigadores, educadores, y legisladores a entender mejor la matriculación en estudios de postsecundaria, los gastos escolares, la ayuda económica, el empleo durante y después de la escuela, características demográficas, << experiencias únicas relacionadas con la pandemia del coronavirus,>> y gastos de manutención.

Esto es lo que hemos aprendido de las encuestas anteriores de BPS ...

La última vez que se realizó un estudio de seguimiento 5 años después, se hizo con estudiantes que se habían matriculado por primera vez en el año académico 2011-2012 e incluyó a cerca de 22,000 estudiantes. A continuación, presentamos algunos resultados de encuestas anteriores de BPS.

Hasta junio de 2017, los estudiantes universitarios matriculados por primera vez en educación postsecundaria en 2011-12 habían tomado un promedio de \$19,090 en préstamos subsidiados y no subsidiados de Título IV.

- Mujeres: \$19,410
- Hombres: \$18,590

NOTA: Es posible que los detalles no sumen los totales debido al redondeo.

Hasta junio de 2017, los estudiantes universitarios matriculados por primera vez en la educación postsecundaria en 2011-12 habían asistido en promedio a 1.8 instituciones de educación postsecundaria.

- A una Institución: 50%
- A dos Instituciones: 33%
- A tres Instituciones: 13%
- A cuatro o más instituciones: 5%

Confidencialidad

El Centro Nacional para Estadísticas de la Educación (NCES) está obligado a seguir procedimientos estrictos para proteger la información personal al recolectar, reportar y publicar los datos. Toda información identificable a nivel individual, proporcionada por individuos o instituciones, podrá usarse solamente para propósitos estadísticos y no podrá divulgarse ni usarse de manera que permita identificar a los participantes para ningún otro propósito, salvo que lo requiera la ley (20 U.S.C. § 9573 y 6 U.S.C § 151).

Los procedimientos de protección de datos de BPS son examinados y aprobados por el personal de protección de datos de NCES. Tus respuestas se resguardarán con *firewalls* (servidores de seguridad) y estarán encriptadas durante la transmisión por Internet, en la que se usa el protocolo de Capa de Protección Segura (SSL, por sus siglas en inglés). Todos los módulos de ingreso de datos están protegidos con una contraseña y obligan a que el usuario inicie sesión antes de acceder a datos confidenciales. El personal del proyecto está sujeto a fuertes multas y/o prisión si conscientemente publica o comunica cualquier información individual que permita identificar a participantes.

El Congreso ha autorizado al Centro Nacional para Estadísticas de la Educación (NCES) del Instituto de Ciencias de la Educación del Departamento de Educación de los Estados Unidos a recolectar datos acerca del costo de la educación postsecundaria porque los legisladores a todos los niveles necesitan datos nacionales actuales y confiables a fin de tomar decisiones acerca de la educación postsecundaria.

NCES está autorizado para hacer el Estudio Longitudinal de Estudiantes Postsecundarios Principiantes de 2020/25 (BPS:20/25) por el Acta de Reforma de las Ciencias de la Educación (ESRA, por sus siglas en inglés) de 2002 (ESRA 2002, 20 U.S.C. §9543) y recolectar información de los récords de los estudiantes en agencias o instituciones educativas con el propósito de evaluar programas educativos con financiamiento federal bajo la Ley de Derechos Educativos y Privacidad Familiar (FERPA, 34 CFR §§ 99.31(a)(3)(iii) y 99.35).

Este estudio ha sido aprobado por la Oficina de Administración y Presupuesto de los Estados Unidos (OMB, por sus siglas en inglés). El número válido de OMB para esta recolección de información es 1850-0631. La fecha de expiración es 02/28/2027.

Nota importante sobre comunicación a través de mensajes de texto para estudios federales y la Ley de Protección Telefónica al Consumidor (TCPA, por sus siglas en inglés)

La ley de protección telefónica (TCPA), bajo el código U.S. 47 § 227 es un estatuto federal promulgado en 1991 para proteger la privacidad del consumidor. Esta legislación restringe las comunicaciones de **telemarketing** vía llamadas telefónicas, mensajes de texto y fax sin consentimiento explícito previo. Por una Reunión Declaratoria de julio de 2016 ante la Comisión Federal de Comunicaciones, se confirmó que la TCPA **no restringe** las comunicaciones para encuestas de investigación, siempre que dichas comunicaciones sean efectuadas legalmente por el gobierno federal o por agentes que actúen en virtud de la autoridad que les haya conferido válidamente el gobierno federal. Dado que BPS:20/25 está autorizado por el Departamento de Educación de los EE. UU., para recopilar datos sobre la educación postsecundaria, entra dentro de esta disposición.

Durante el periodo de recolección de datos es posible que recibas mensajes de texto recordándote que participes en la encuesta. Tienes la opción de dejar de recibir estos mensajes de texto en cualquier momento. Ni la información de contacto de los mensajes de texto ni la información de consentimiento se compartirán con terceros a menos que la ley lo requiera.

Puedes obtener más información acerca de TCPA [haciendo clic aquí](#). Si tienes preguntas acerca del uso de mensajes de texto como recordatorios, puedes contactarnos vía correo electrónico a <<bps@ed.gov>>//<<bps@rti.org>> o telefónicamente al **800-844-8959**.

Acerca de BPS

El **Estudio Longitudinal de Estudiantes Postsecundarios Principiantes de 2020/25 (BPS:20/25)** recolecta datos de alrededor de 29,000 estudiantes que comenzaron la educación postsecundaria en el año académico 2019-20. El estudio recolecta información de **estudiantes actuales y anteriores** acerca de su progreso y planes educativos, sus experiencias en la fuerza laboral, sus ingresos y gastos, su situación familiar y sus objetivos personales y profesionales. Los datos para BPS se recopilan a través de una encuesta por Internet o por teléfono, así como mediante la vinculación con los récords académicos proporcionados por las instituciones de educación postsecundaria y otras fuentes de datos. La información recolectada ayudará a investigadores, educadores, y legisladores a entender mejor la matriculación en estudios de postsecundaria, los gastos escolares, la ayuda económica, el empleo durante y después de la escuela, características demográficas, y gastos de manutención.

El estudio BPS:20/25 es la segunda encuesta de seguimiento de un grupo de estudiantes que se matricularon en *college* u otra institución de educación postsecundaria por primera vez durante el año académico 2019-20. La mayoría de los participantes recordarán que se les pidió que completaran una encuesta en 2022 como parte del estudio BPS:20/22.

El Congreso ha autorizado al Centro Nacional para Estadísticas de la Educación (NCES) del Instituto de Ciencias de la Educación del Departamento de Educación de los Estados Unidos a recolectar datos acerca del costo de la educación postsecundaria porque los legisladores a todos los niveles necesitan datos nacionales actuales y confiables, a fin de tomar decisiones acerca de la educación postsecundaria.
