Welcome to the FAADroneZone

FAADroneZone is the FAA's official website for managing your drones whether you fly for recreation, education, government or business. Use FAADroneZone to register, apply for waivers and airspace authorizations, get recognized as a community-based organization, submit an accident report, and more...

Drone Operators and Pilots

Drone Operators and Pilots who need to complete the following tasks:

- Registration
Waivers
Airspace Authorizations

You must use the paper (N-number) registration process if:

- Your unmanned aircraft is 55 pounds or greater
You want to qualify a small unmanned aircraft for operation outside the United States
You hold title to an aircraft in trust
The small unmanned aircraft owner uses a voting trust to meet U.S. Citizenship requirements

REGISTER BY PAPER >

PRIVACY ACT STATEMENT: This statement is provided pursuant to the Privacy Act of 1974, 5 United States Code (U.S.C.) § 552a.

You are accessing a United States (U.S.) Government information system which includes (1) this site and (2) the computers and networks connected to this site. The information system is provided for U.S. Government-authorized use only. You may find information about how the Federal Aviation Administration (FAA) will handle information that you provide through this Site in our Privacy Policy and our Privacy Act Notice. Users have no expectation of privacy while using the site. For any lawful Government purposes, such as identifying wrongful attempts to upload or change information in the system or otherwise cause damage to the web service, the Government may monitor and intercept information transiting or stored on the system. Use of this system constitutes consent to such monitoring or interception. Unauthorized or improper use of this information system may result in civil and criminal penalties.

FAADroneZone / Registration

The authority for collecting personally identifiable information (PII) through the FAADroneZone website for purposes of registering a small (s)UAS is contained in 49 U.S.C. §§ 44101-44106 and §§ 44110-44113 which require aircraft to be registered as a condition of operation and establish the requirements for registration and registration processes. Pursuant to 49 U.S.C. § 44807, § 44809, and 14 C.F.R. § 107.13, persons operating small unmanned aircraft under 14 C.F.R. part 107 must comply with the registration requirements. Additionally, persons operating in accordance with the statutory exception for limited recreational operations of unmanned aircraft under 49 U.S.C. § 44809 must comply with the registration requirements pursuant to subsection (a)(8) of that section. The principal purpose for which information collected is intended to be used is to complete the aircraft registration process and identify the aircraft to its owner. Disclosure of this information is mandatory, and operation of a sUAS in violation of the applicable registration rules may result in enforcement action and/or civil penalties pursuant to 14 C.F.R. Part 13. Additionally, the failure to provide the required information will prevent the FAA from registering your aircraft which is required under 49 U.S.C. § 44101 to be completed prior to operation of the aircraft. The information collected to complete the aircraft registration process and issue the unique identifier is included in a Privacy Act System of Records known as Department of Transportation (DOT)/FAA 801, titled "Aviation Registration Records." Records from this system of records may be disclosed in accordance with the routine uses that appear in DOT/FAA 801, as published in the Federal Register at 81 Federal Register 54187 (August 15 2016), available at https://www.transportation.gov/individuals/privacy/privacy-act-system-records-notices.

Part 107 Waiver / Airspace Authorization Request Form for Part 107 and Recreational Flyers

The authority for collecting the information you provide on this form is codified at 49 U.S.C. § 44701, § 44807, and § 44809; see also FAA Modernization and Reform Act of 2012, Pub. L. 112-95 § 333, Special Rules for Certain Unmanned Aircraft Systems and 14 C.F.R. Part 107. The principal purpose for which the FAA intends to use the information is to receive, evaluate, and respond to requests for authorization to operate a sUAS pursuant to 14 C.F.R. Part 107 or 49 U.S.C. § 44809, in Class B, C, or D airspace or within the lateral boundaries of the surface area of Class E airspace designated for an airport, and evaluate requests for certificate of waiver to deviate safely from one or more sUAS operational requirements specified in Part 107. The information may include, but is not limited to, name, address, phone number, aircraft registration number, and a description of planned operation. Disclosure of this information is voluntary, but operation of a sUAS outside of the regulations at 14 C.F.R. Part 107 without a waiver or authorization in violation of that regulation may result in an enforcement action and/or civil penalties under 14 C.F.R. Part 13. Additionally, failure to provide all required information will result in the FAA being unable to issue a waiver or authorization for your operation under 14 C.F.R. Part 107, subpart D, or an airspace authorization under 49 U.S.C. § 44809. The information collected on this website will be included in a Privacy Act System of Records known as DOT/FAA 854, titled "Small Unmanned Aircraft Systems (sUAS) Waivers and Authorizations." Records from this system of records may be disclosed in accordance with the routine uses that appear in DOT/FAA 854, Small Unmanned Aircraft Systems (sUAS) Waivers and Authorizations, as published in the Federal Register at 84 Federal Register 32512 (July 8, 2019), available at https://www.transportation.gov/individuals/privacy/privacy-act-system-records-notices.

Part 107 Accident Reporting Form

The authority for collecting the information provided on this form is codified at 49 U.S.C. § 44701 and §44807; see also FAA Modernization and Reform Act of 2012, Pub. L. 112-95 § 333, Special Rules for Certain Unmanned Aircraft Systems, and 14 C.F.R. § 107.9. The principal purpose for which the FAA intends to use the information is to receive and evaluate accident reports submitted to the FAA involving sUASs. The Federal Aviation Administration will use the information provided in connection to accident reports to regulate and promote safety in air commerce, in accordance with its statutory authority at 49 U.S.C § 44701. Disclosure of this information is mandatory for remote pilots in command operating under 14 C.F.R. Part 107, and a certified remote pilot in command's failure to report an accident in accordance with the regulations may result in enforcement action and/or civil penalties pursuant 14 C.F.R. Part 13. Additionally, failure to provide all the information requested will delay the processing of the report. The information collected on this website will be included in a Privacy Act System of Records known as DOT/FAA 847, titled "Aviation Records on Individuals." The information collected to complete an accident report may be disclosed in accordance with the routine uses that appear in the DOT/FAA 847, as published in the Federal Register at 75 Federal Register 68849 (November 9, 2010), available at https://www.gpo.gov/fdsys/pkg/FR-2010-11-09/pdf/2010-28237.pdf.

Paperwork Reduction Act Burden Statement

A federal agency may not conduct or sponsor, and a person is not required to respond to, nor shall a person be subject to a penalty for failure to comply with a collection of information subject to the requirements of the Paperwork Reduction Act unless that collection of information displays a currently valid OMB Control Number. The OMB Control Numbers for this information collection are , , and . Public reporting for this collection of information is estimated to be approximately 5 minutes per response.

All responses to this collection of information are voluntary. Send comments regarding this burden estimate or any other aspect of this collection of information, including suggestions for reducing this burden to the FAA at: 800 Independence Ave. SW, Washington, DC 20591, Attn: Information Collection Clearance Officer, ASP-110.

PROCEED TO CHECKOUT

REGISTRATION FEE

- The registration fee is \$5.00.

REGISTRATION NUMBER

- When you register, you will receive a registration number that applies to all unmanned aircraft you own and operate under the Exception for Recreational Flyers.
- Registrations are valid for 3 years. After 3 years, you must renew your registration.
- You must mark the outside of all unmanned aircraft with your registration number before you operate them.

THE EXCEPTION FOR RECREATIONAL FLYERS

To fly under **The Exception for Recreational Flyers**, you must:

- Have a current registration
- Fly only for recreational purposes
- Follow the safety guidelines of a community based organization
- Keep your drone within your visual line of sight
- Give way and do not interfere with any manned aircraft
- Fly at or below 400' in controlled airspace and only with prior authorization
- Fly at or below 400' in uncontrolled airspace
- Comply with all airspace restrictions
- Pass The Recreational UAS Safety Test

Congratulations!

Your registration number is **FA39KYLCKP**

Your registration certificate has been sent to the email address you provided in your registration.

You can also [print your certificate](#).

Be sure to have your registration certificate available when you fly your UAS.

- All drones must be marked on the outside with a registration number.
- You can mark all drones that you own and fly exclusively under The Exception for Recreational Flyers with the same registration number.
- Recreational flyers must operate in accordance with community-based aero-modeling club safety guidelines and within the programming of a nationwide community-based aero-modeling organization.

To fly under **The Exception for Recreational Flyers**, you must:

- Have a current registration
- Fly only for recreational purposes
- Follow the safety guidelines of a community based organization
- Keep your drone within your visual line of sight
- Give way and do not interfere with any manned aircraft
- Fly at or below 400' in controlled airspace and only with prior authorization
- Fly at or below 400' in uncontrolled airspace
- Comply with all airspace restrictions
- Pass The Recreational UAS Safety Test

To update your registration please return to this site in the future.

Mark Your Drone

All drones must be marked on the outside with a registration number.

You can mark all drones that you own and fly exclusively under **The Exception for Recreational Flyers** with the same registration number.

Safety Guidance

To fly under **The Exception for Recreational Flyers**, you must:

- Have a current registration
- Fly only for recreational purposes
- Follow the safety guidelines of a community based organization
- Keep your drone within your visual line of sight
- Give way and do not interfere with any manned aircraft
- Fly at or below 400' in controlled airspace and only with prior authorization
- Fly at or below 400' in uncontrolled airspace
- Comply with all airspace restrictions
- Pass The Recreational UAS Safety Test

Recreational Flyer Airspace Authorizations

Recreational Flyers must obtain authorization before flying in controlled airspace (**Class B, C, D, and E**).

Airspace Authorizations through the Low Altitude Authorization and Notification Capability (LAANC)

Recreational Flyers can receive near real-time airspace authorizations for operations under 400 feet in controlled airspace through an **FAA Approved LAANC UAS Service Supplier**.

- The maximum altitude you can request to fly is shown in the FAA UAS Service Supplier application. The data comes directly from the **UAS Facility Maps** through the FAA UAS Data Exchange.

Authorizations through FAADroneZone

You should use the FAADroneZone to request an airspace authorization if:

- You want to fly in controlled airspace and are not covered by LAANC (the **red grids** on the **UAS Facility Maps**)

You currently do not have any authorizations.

Mark Your Drone

All drones must be marked on the outside with a registration number.

You can mark all drones that you own and fly exclusively under **The Exception for Recreational Flyers** with the same registration number.

Safety Guidance

To fly under **The Exception for Recreational Flyers**, you must:

- Have a current registration
- Fly only for recreational purposes
- Follow the safety guidelines of a community based organization
- Keep your drone within your visual line of sight
- Give way and do not interfere with any manned aircraft
- Fly at or below 400' in controlled airspace and only with prior authorization
- Fly at or below 400' in uncontrolled airspace
- Comply with all airspace restrictions
- Pass The Recreational UAS Safety Test

Recreational Flyer Airspace Authorizations

Recreational Flyers must obtain authorization before flying in controlled airspace (**Class B, C, D, and E**).

Airspace Authorizations through the Low Altitude Authorization and Notification Capability (LAANC)

Recreational Flyers can receive near real-time airspace authorizations for operations under 400 feet in controlled airspace through an **FAA Approved LAANC UAS Service Supplier**.

- The maximum altitude you can request to fly is shown in the FAA UAS Service Supplier application. The data comes directly from the **UAS Facility Maps** through the FAA UAS Data Exchange.

Authorizations through FAADroneZone

You should use the FAADroneZone to request an airspace authorization if:

- You want to fly in controlled airspace and are not covered by LAANC (the **red grids** on the **UAS Facility Maps**)
