## CONSENT

Thank you for taking the time to speak with me today. I am <NAME>, a researcher at <ORGANIZATION>, and this is <NAME> from <ORGANIZATION>. Please feel free to ask me any questions you might have as I move through the introduction.

Before we begin, I want to tell you a few things about this study and your participation in it.

The U.S. Department of Housing and Urban Development (HUD) hired a research team to conduct a study on HUD’s Community Choice Demonstration (Demonstration) program. The research team is led by Abt Global, and other researchers, including the Urban Institute. The purpose of the study is to determine whether mobility-related services are effective in helping families with a Housing Choice Voucher (HCV) move to higher-opportunity, lower-poverty neighborhoods.

As part of this study, we are talking with landlords in the local housing market, staff from Public Housing Agencies (PHAs), mobility service providers, and households who are participating in the Demonstration. We will ask you questions about what it’s like to be a landlord/property manager/owner, and your thoughts on the Demonstration. We estimate the interview will last about one hour. At the end of the interview, you will receive a \$30 gift card.

Your participation in the interview is voluntary. You can choose not to answer questions, and you can choose to end the conversation at any time. We hope that you will be candid about your experiences with the Demonstration. We are not evaluating your work as a landlord.

We will be conducting interviews again in the future and may reach out to you in a future year.

During the interview, [NAME/I] will be taking detailed notes; we will not identify your name in our notes. With your permission, I/we will audio record the interview to have an accurate record of what is said as a back-up to my/our notes; we will not record any video. I/we may contact you after the interview to ask for clarification. No one outside the research team will be allowed to listen to the audio recordings or review the notes. Only the people doing the research will see any information that identifies you personally and we will destroy the recording, transcript, and notes at the conclusion of the project.

What we learn from all the interviews will be published in reports to HUD. When we write our reports and discuss findings, the answers you provide during an interview will be combined with answers from many individuals. We never share any information that identifies you or any other respondents by name outside of our research team. However, we may identify the neighborhood your properties are in, and the location could allow an individual to indirectly attribute a statement to you. We make every effort to avoid this, but you should be aware of the possibility.

The questions in this interview have been reviewed by the Office of Management and Budget (OMB) under the Paperwork Reduction Act of 1995. The information requested under this collection is fully protected and kept private to the extent possible according to the Privacy Act of 1974.

Do you have any questions about the study or today’s discussion? *[Pause for response and address any questions]*

Do you agree to participate? *[Pause for response]*

Are you comfortable with this interview being recorded? *[Pause for response]*

Thank you, we are going to turn on the audio recorder now.

The audio recorder is now on.

Do you have any questions before we continue?

OK, let’s start.

Thank you for taking the time to talk with us today.
