

Interview Guide for PHA Staff

INSTRUCTIONS TO INTERVIEWER

This guide is for Public Housing Agency (PHA) staff knowledgeable about the Housing Choice Voucher (HCV) program and the Community Choice Demonstration (CCD) program, including agency executive directors, policy and program directors, HCV managers, HCV specialists, and any other PHA roles directly recruiting and enrolling HCV participants for Community Choice or standard services. Interviews with PHA staff will be conducted individually or in small groups, based on staff roles and availability. (Note: Interviews with staff providing comprehensive mobility-related services to mobility program participants will use the mobility service provider interview guide.) Make every effort to cover all questions in the guide and probe for in-depth responses.

How to use probes and prompts: *Probes* should be used if the respondent’s answer does not cover the topics listed in the probes. *Prompts* should be used when a respondent isn’t sure how to answer a question or seems unsure about what the question is asking. If a respondent provides an answer to a question, whether or not they include mention of the items listed as prompts, then the interviewer should not use the prompts.

Informed Consent:

- Prior to arriving for in-person interviews, print a copy of the appropriate consent form for each respondent.
- For interviews with the PHA staff, please have them read the consent form themselves. Review the key points verbally with the staff after they have read the consent.
- Provide a copy of the consent form to the staff person for their records. For in-person interviews this should be a hard copy and for virtual interviews, this should be sent to them via email.
- The following instructions do not need to be read aloud to respondent but prior to the interview, this information should be shared as appropriate.

If you would like translated materials, or to complete the interview in language other than English, please let us know and we will do our best to accommodate you. If you need information to be presented in an accessible format, for example, Braille, audio, large type, or sign language interpreters, or need a reasonable accommodation (a change or adjustment) so that you can participate, please let us know. Please feel free to ask me any questions you might have.

CONSENT

Thank you for taking the time to speak with me today. I am <NAME>, a researcher at <ORGANIZATION>, and this is <NAME> from <ORGANIZATION>. Please feel free to ask me any questions you might have as I move through the introduction.

Before we begin, I want to tell you a few things about this study and your participation in it.

The U.S. Department of Housing and Urban Development (HUD) hired a research team led by Abt Global and other researchers, including the Urban Institute, to conduct a study on HUD's Community Choice Demonstration (Demonstration) program. The research team and HUD want to determine whether mobility-related services are effective in helping families with a Housing Choice Voucher (HCV) move to opportunity neighborhoods. During this interview, we will ask you questions about the Demonstration, including questions about your role and [PHA_NAME's] involvement in the Demonstration, your perspective on the Demonstration, and how well the Demonstration meets the needs of participating families.

We hope that you will be candid in the information you provide about the program. We are not evaluating your agency or its services. As part of this study, we are talking with representatives from PHAs participating in the Demonstration, [IF PHA DOES NOT PROVIDE MOBILITY-RELATED SERVICES IN-HOUSE: along with mobility services providers], landlords, and participating families. We estimate this interview will last about 90 minutes.

We will be conducting interviews again in the future and may reach out to you in a future year.

During the interview, [NAME/I] will be taking detailed notes; we will not identify your name in our notes. With your permission, I/we will audio record the interview to have an accurate record of what is said as a back-up to our notes; we will not record any video. I/we may contact you after the interview to ask for clarification. No one outside the research team will be allowed to listen to the audio recordings or review the notes. Only the people doing the research will see any information that identifies you personally and we will destroy the recording, transcript, and notes at the conclusion of the project.

What we learn from all the interviews will be published in reports to HUD. When we write our reports and discuss findings, the answers you provide during an interview will be combined with answers from many individuals. We will never share any information that identifies you or any other respondents by name outside of our research team. However, we may identify the agency you work for, and unique roles could allow an individual to indirectly attribute a statement to you. We make every effort to avoid this, but you should be aware of the possibility.

The questions in this interview have been reviewed by the Office of Management and Budget (OMB) under the Paperwork Reduction Act of 1995. The information requested under this collection is fully protected and kept private to the extent possible according to the Privacy Act of 1974.

Do you have any questions about the study or today's discussion? *[Pause for response and address any questions]*

Do you agree to participate? *[Pause for response]*

Are you comfortable with this interview being recorded? *[Pause for response]*

Thank you, we are going to turn on the audio recorder now.

The audio recorder is now on.

Do you have any questions before we continue?

OK, let's start.

Thank you for taking the time to talk with us today
