

2024 NANPA Survey

Information Page

OMB Control No. 3060-1307,
[month, year] Not yet approved by OMB

15 minutes per response

PURPOSE: The Numbering Administration Oversight Working Group (NAOWG) of the North American Numbering Council (NANC) seeks aggregated input from your organization as to the yearly performance of the North American Numbering Plan Administrator (NANPA) services. Responses to the questions contained in this survey are intended to provide information relative to your satisfaction with the performance of the NANPA.

Please note that while the NANPA, Pooling and Routing Number Administration functions have been combined, the websites and systems were separate until 4Q 2024. Therefore, this survey requests input on the performance of the **North American Numbering Plan Administrator (NANPA)**, and not the Thousands-Block Pooling Administrator (PA) or the Routing Number Administrator (RNA). If you wish to comment on those services, please complete the PA survey and/or the RNA survey.

EVALUATION PERIOD: January 1, 2024 through December 31, 2024

SUBMISSION DEADLINE: 5 PM ET, March 31, 2025

QUALIFICATION: Respondents are asked to submit only one (aggregated) survey per functional entity, i.e., per service provider/other NANPA user or per state or territorial regulatory agency. If multiple surveys for an entity are received, the NAOWG will consolidate the responses to ensure that one response per entity type is counted.

SURVEY DESCRIPTION: Your satisfaction ratings will be combined with all other survey responses for each of the questions. Your comments recorded in the comment box at the end of the survey are strongly encouraged, especially if a rating of "Not Met" has been selected. Specific examples of your

experiences with the NANPA will provide valuable information concerning current processes that are working well and in identifying areas where process improvements are needed.

Please complete all fields marked with an asterisk "**".

FURTHER INFORMATION: Direct all inquiries to the following NAOWG contacts:

SURVEY RESULTS: Overall survey results will be incorporated into the *NANPA/PA/RNA 2024 Performance Evaluation Report* and will be posted at [NANC - North American Numbering Council \(nanc-chair.org\)](http://nanc-chair.org).

We have estimated that your response to this collection of information will take an average of 15 minutes. Our estimate includes the time to read the instructions, look through existing records, gather and maintain required data, and actually complete and review the response. If you have any comments on this estimate, or on how we can improve the collection and reduce the burden it causes you, please write the Federal Communications Commission, Office of Managing Director, AMD-PPM, Washington, DC 20554, Paperwork Reduction Act Project (3060-1307). We will also accept your PRA comments via the Internet if you send an e-mail to PRA@fcc.gov.

Please DO NOT SEND COMPLETED SURVEYS TO THIS ADDRESS. You are not required to respond to a collection of information sponsored by the Federal government, and the government may not conduct or sponsor this collection, unless it displays a currently valid OMB control number and/or we fail to provide you with this notice. This collection has been assigned an OMB control number of 3060-1307. **THIS NOTICE IS REQUIRED BY THE PAPERWORK REDUCTION ACT OF 1995, PUBLIC LAW 104-13, OCTOBER 1, 1995, 44 U.S.C. SECTION 3507.**

Privacy Act Statement

Authority: The Commission is authorized to pursue this collection pursuant to the authority contained in 47 U.S.C. §§ 151, 152, 154 (i)-(j) & (o), 155, 251(e)(1) & (3), 254, 257, 301, 303, 332, 402, 1302; and 5 U.S.C. §§ 602(c) and 609(a)(3).

Purpose: The purpose of this performance satisfaction survey is to provide input for the annual performance evaluation report of the Federal Communications

Commission (FCC) vendor(s) acting as administrator for telephone number management functions. These functions may be performed by one or multiple vendors under one or multiple contracts. The relevant vendor contract(s) require that the FCC and/or its designee shall develop and conduct a performance survey for the administrator. The results of this customer satisfaction survey will provide FCC with indicators regarding how well the vendor(s) are acting as administrator. At least a portion of the survey results will be incorporated into the annual performance evaluation report. The survey will collect personally identifiable information (PII) in the form of the survey respondents' business contact information, including the name of entity representative submitting the survey. This PII needs to be collected to help monitor the accuracy of the survey, facilitate sending the respondent a copy of the survey, and allow any necessary follow-up communications with the respondent.

Routine Uses: The FCC may release information provided in this form to individuals and entities when necessary and appropriate under 5 U.S.C. § 552a(b) of the Privacy Act to: the public in FCC releases of notices or actions or when required to comply with federal laws or FCC regulations requiring public disclosure of the information contained in our records; to third parties, including individuals and businesses in the communications industry and public safety, FCC vendors and their contractors, and to other federal agencies or state, local, U.S. territorial, and Tribal government entities to administer, support, participate in, or receive information related to, FCC programs and activities; or to ensure compliance with the confidentiality and other rules regarding information sharing in the FCC's programs and activities; to other federal agencies or to other administrative or adjudicative bodies before which the FCC is authorized to appear; to federal, state, or local law enforcement when FCC becomes aware of an indication of a violation or potential violation of a civil or criminal statute, law, regulation, or order; to Federal agencies, non-Federal entities, their employees, and agents for the purpose of detecting and preventing fraud, waste, and abuse in Federal programs; to non-federal personnel, including contractors, grantees, and volunteers who have been engaged to assist the FCC in the performance of a contract service, grant, cooperative agreement, or other activity related to this system of records and who need to have access to the records in order to perform their activity; and, to appropriate agencies, entities, and persons when the FCC suspects or has confirmed that there has been a breach of information related to this system.

A complete list of the routine uses can be found in the system of records notice associated with this collection, FCC-2, Business Contacts and Certifications, posted at <https://www.fcc.gov/managing-director/privacy-transparency/privacy-act-information>.

Disclosure: Responding to this survey is voluntary. However, if you do not respond, it

will harm the ability of the FCC to evaluate the vendor(s) performance pursuant to their contracts and the FCC will lack the necessary information to modify the vendor(s) policies and procedures. This will, in turn, harm the FCC's ability to meet its policy goals related to numbering.

Geographic Central Office Code (NXX) Administration*

	Met	Not Met	N/A
NANPA provided timely, accurate, and courteous service in the assignment, reclamation, and administration of geographic central office codes.			

Geographic Central Office Code (NXX) Administration*

	Met	Not Met	N/A
NANPA effectively managed the process of geographic central office code administration and reclamation, and coordinated with state regulators to address abandoned resources.			

NPA (Area Code) Relief Planning

NPA (Area Code) Relief Planning*

	Met	Not Met	N/A
NANPA demonstrated regional knowledge and effective facilitation skills in NPA relief planning activities, and kept the industry apprised of the status and changes related to NPA relief projects.			

NPA (Area Code) Relief Planning*

	Met	Not Met	N/A
NANPA initiated communications with state and territorial regulators and responded to their requests for assistance with and information about NPA relief planning and pending NPA relief activities.			

Numbering Resource Utilization/Forecast (NRUF) Reporting

Numbering Resource Utilization/Forecast (NRUF) Reporting*

	Met	Not Met	N/A
NANPA provided accurate and timely updates and assistance for completing and submitting utilization and forecast data via the NRUF Form 502 reporting process.			

Numbering Resource Utilization/Forecast (NRUF) Reporting*

	Met	Not Met	N/A
NANPA assisted state and territorial regulators with access to and understanding of the NRUF utilization and forecast data available to them via NAS and/or the state NRUF database.			

Other NANP Resources Administration

Other NANP Resources Administration*

	Met	Not Met	N/A
NANPA provided direction in applying for other NANP resources, such as non-geographic 5XX and 9YY codes, Carrier Identification Codes and Vertical Service Codes, and provided assistance in understanding the purpose of these resources and associated reclamation processes.			

NANP Administration System (NAS) Functionality

NANP Administration System (NAS) Functionality *

	Met	Not Met	N/A
The NAS provided accurate numbering information and access to reports. The NAS-NANP Notification System (NAS-NNS) communicated planned NAS maintenance and availability, changes to system features and functions, and information pertaining to NANP administration (e.g., NPA relief planning, NRUF submissions, Planning Letters).			

NANPA Website and Reports

NANPA Website and Reports*

	Met	Not Met	N/A
The existing NANPA website (www.nationalnanpa.com) and the new combined NANPA website (www.nanpa.com) were accessible and easy to navigate, and contained accurate and up-to-date information and reports.

Transition to Combined NAS

Transition to Combined NAS*

	Met	Not Met	N/A
NANPA provided sufficient testing and training for service providers and state and territorial regulators so that the transition from the NAS/PAS/RNAS systems to the new Combined NAS did not unreasonably delay the processing of requests for numbering resource applications by service providers or the processing of information requests by state and territorial regulators.			

Performance of Combined NAS*

	Met	Not Met	N/A
The new combined NAS provided similar or better functionality.			

Overall Assessment of the NANPA

Overall Assessment of the NANPA*

	Met	Not Met	N/A
Based upon your experiences in the current performance year, how would you rate the NANPA's overall service?
