Estimated Total Annual Burden on Respondents: 8 hours.

Abstract: The Agency requires borrowers to use standard contract forms under certain circumstances. The use of standard forms helps assure the Agency that appropriate standards and specifications are maintained, that the Agency's loan security is not adversely affected, and that loan and loan guarantee funds are used effectively and for the intended purpose.

Standardization of forms by the Agency results in substantial savings to Borrowers. If standard forms were not used, borrowers would be required to prepare documents, and the government would require extensively and costly review by both the Agency and the Office of General Counsel. The contract forms included in this collection of information are RUS Form 211, "Engineering Service Contract for the Design and Construction of a Generating Plant," RUS Form 220, "Architectural Services Contract," and RUS Form 236, "Engineering Service Contract, "Electric System Design and Construction."

Comments are invited on: (a) whether this collection of information is necessary for the proper performance of the functions of the Agency, including whether the information will have practical utility; (b) the accuracy of the Agency's estimate of the burden of the collection of information including the validity of the methodology and assumptions used; (c) ways to enhance the quality, utility, and clarity of the information to be collected; and (d) ways to minimize the burden of the collection of information on those who respond, including through the use of appropriate automated, electronic, mechanical or other technological collection techniques, or other forms of information technology.

Copies of this information collection can be obtained from Kimble Brown, Rural Development Innovation Center, Regulations Management Division, at Kimble.brown@usda.gov. All responses to this notice will be summarized and included in the request for OMB approval. All comments will also become a matter of public record.
