DEPARTMENT OF COMMERCE

National Oceanic and Atmospheric Administration

Agency Information Collection Activities; Submission to the Office of Management and Budget (OMB) for Review and Approval; Comment Request; Management and Oversight of the National Estuarine Research Reserve System

The Department of Commerce will submit the following information collection request to the Office of Management and Budget (OMB) for

review and clearance in accordance with the Paperwork Reduction Act of 1995, on or after the date of publication of this notice. We invite the general public and other Federal agencies to comment on proposed, and continuing information collections, which helps us assess the impact of our information collection requirements and minimize the public's reporting burden. Public comments were previously requested via the **Federal Register** on July 16, 2024 (89 FR 57875) during a 60-day comment period. This notice allows for an additional 30 days for public comments.

Agency: National Oceanic and Atmospheric Administration (NOAA), Commerce.

Title: Management and Oversight of the National Estuarine Research Reserve System.

OMB Control Number: 0648-0121.

Form Number(s): None.

Type of Request: Regular (extension of a current information collection).

Number of Respondents: 30 unique respondents.

Average Hours per Response: Management plan, 1,600 hours; site profile, 1,800 hours; site nomination documents, 2,500 hours; award application, 24 hours; award reports, 14 hours; NEPA documentation, 2 hours.

Total Annual Burden Hours: 9,879.

Needs and Uses: The National Estuarine Research Reserve System (NERRS) is a partnership between the National Oceanic and Atmospheric Administration (NOAA) and 24 states and Puerto Rico that protects more than 1.3 million coastal and estuarine acres in 30 Reserves for long-term research, monitoring, education, and stewardship, established under Section 315 of the *Coastal Zone Management Act* (CZMA) of 1972 (16 U.S.C. 1451), 16 U.S.C. 1461. The NERRS consists of carefully selected estuarine areas of the United States that are designated, preserved, and managed for research and educational purposes. The Reserves are chosen to reflect regional differences and to include a variety of ecosystem types according to the classification scheme of the national program as presented in *15 CFR part 921*. As part of a national system, the Reserves collectively provide a unique opportunity to address research questions and estuarine management issues of national significance. The Reserves also serve to enhance public awareness and understanding of estuarine areas and provide suitable opportunities for public education and interpretation. Regulations provide guidance for delineating Reserve boundaries and additional guidance for

arriving at the most effective and least costly approach to establishing adequate state control of key land and water areas. Any qualified public or private persons, organizations or institutions may compete for research funding to work in research Reserves. In fact, applicants are almost always states.

Subsection 315(e)(1)(B) of the CZMA authorizes the National Ocean Service (NOS) to make grants to, or cooperative agreements with, any coastal state or public or private institution or person for purposes of supporting research within the NERRS. This program is listed in the Catalog of Federal Domestic Assistance under "Coastal Zone Management Estuarine Research Reserve, Number 11.420." Applications for such grants follow the provisions of 2 CFR 200. During the site selection and designation process, information is collected from states in order to prepare a management plan and environmental impact statement. Designated Reserves apply annually for operations funds by submitting a work plan; subsequently, progress reports are required every six months for the duration of the award. Each Reserve compiles an ecological characterization or site profile to describe the biological and physical environment of the Reserve, research to date and research gaps. Reserves revise their management plans every five years. A competitive fellowship program supports opportunities for graduate students to conduct research at each Reserve. This information is required to ensure that Reserves are adhering to regulations and that the Reserves are in keeping with the purpose for which they were designated.

Affected Public: Non-profit institutions; state, local, or tribal government.

Frequency: On occasion.

Respondent's Obligation: Required to obtain or retain funding.

Legal Authority: Coastal Zone Management Act (CZMA) of 1972 (16 U.S.C. 1451), 16 U.S.C. 1461.

This information collection request may be viewed at www.reginfo.gov. Follow the instructions to view the Department of Commerce collections currently under review by OMB.

Written comments and recommendations for the proposed information collection should be submitted within 30 days of the publication of this notice on the following website www.reginfo.gov/public/do/PRAMain. Find this particular information collection by selecting "Currently under 30-day Review—Open for Public Comments" or by using the search function and

entering either the title of the collection or the OMB Control Number 0648–0121.

Sheleen Dumas,

Departmental PRA Clearance Officer, Office of the Under Secretary for Economic Affairs, Commerce Department.

DEPARTMENT OF COMMERCE

National Oceanic and Atmospheric Administration

Agency Information Collection Activities; Submission to the Office of Management and Budget (OMB) for Review and Approval; Comment Request; Data Collections To Support Comprehensive Economic and Socio-Economic Evaluations of the Fisheries in Regions of the United States Affected by Catastrophic Events

AGENCY: National Oceanic & Atmospheric Administration (NOAA), Commerce.

ACTION: Notice of information collection, request for comment.

SUMMARY: The Department of Commerce, in accordance with the Paperwork Reduction Act of 1995 (PRA), invites the general public and other Federal agencies to comment on proposed, and continuing information collections, which helps us assess the impact of our information collection requirements and minimize the public's reporting burden. The purpose of this notice is to allow for 60 days of public comment preceding submission of the collection to OMB.

DATES: To ensure consideration, comments regarding this proposed information collection must be received on or before January 27, 2025.

ADDRESSES: Interested persons are invited to submit written comments to Adrienne Thomas, NOAA PRA Officer, at NOAA.PRA@noaa.gov. Please reference OMB Control Number 0648–0767 in the subject line of your comments. All comments received are part of the public record and will generally be posted on <https://www.regulations.gov> without change. Do not submit Confidential Business Information or otherwise sensitive or protected information.

FOR FURTHER INFORMATION CONTACT: Requests for additional information or specific questions related to collection activities should be directed to Dr. Joe Terry, Office of Science and Technology, 1315 East-West Hwy., Bldg. SSMC3, Silver Spring, MD 20910–3282, (858) 454–2547, joe.terry@noaa.gov.

SUPPLEMENTARY INFORMATION:

I. Abstract

This is a request for extension of a currently approved information collection. The National Marine Fisheries Service (NMFS) Office of Science and Technology's Economics and Social Analysis Division seeks to conduct as-needed data collections to support mandated comprehensive economic and socio-economic evaluations of the fisheries in regions of the United States affected by catastrophic events. The six NMFS Fisheries Science Centers will assist in conducting the proposed collections.

The Magnuson-Stevens Fishery Conservation and Management Act (MSA) includes the following requirement (see SEC. 315(c)), "Within 2 months after a catastrophic regional fishery disaster the Secretary [of Commerce] shall provide the Governor of each State participating in the program a comprehensive economic and socio-economic evaluation of the affected region's fisheries to assist the Governor in assessing the current and future economic viability of affected fisheries, including the economic impact of foreign fish imports and the direct, indirect, or environmental impact of the disaster on the fishery and coastal communities." The MSA permits the proposed collection, and NMFS would conduct it under the MSA.

This collection will provide information that NMFS will use to produce the comprehensive economic and socio-economic evaluation required by the MSA. For a rapid catastrophic event, such as a hurricane, NMFS seeks to collect data on the immediate and long-term disruption and impediments to recovery of normal business practices to the commercial and recreational fishing industries, including fishing dependent businesses. In addition, for an ongoing event, such as a pandemic or red tide that lingers for many months in the same region(s), NMFS seeks to collect data quarterly to semi-annually as needed to evaluate the ongoing event. NMFS would collect the data from commercial and recreational for hire fishermen, fish dealers, seafood processors, bait and tackle shops, and boat repair/marine supply/other associated businesses.

NMFS will use the data to prepare the required economic and socio-economic evaluations and to improve research and analysis of potential fishery management actions by understanding the immediate, quarterly or semi-annual, and/or long-term compounding effects of catastrophic events on the

commercial and recreational fishing industries and the communities most dependent on those industries. The frequency of reporting will be from one to four times a year for each catastrophic event.

II. Method of Collection

NMFS will use a combination of in-person, telephone and video call interviews, as well as mail and internet surveys, to collect the required information.

III. Data

OMB Control Number: 0648–0767.

Form Number(s): None.

Type of Review: Regular submission. Extension of a current information collection.

Affected Public: Individuals or households and business or other for-profit organizations.

Estimated Number of Respondents: 7,184.

Estimated Time per Response: Regional surveys of fishing operations: 30 minutes; Regional surveys of other fishing related businesses: 30 minutes; National surveys of fishing operations: 20 minutes; and National surveys of other fishing related businesses: 20 minutes.

Estimated Total Annual Burden Hours: 3,200 hours.

Estimated Total Annual Cost to Public: \$0.

Respondent's Obligation: Voluntary.

Legal Authority: Magnuson-Stevens Fishery Conservation and Management Act SEC. 315(c).

IV. Request for Comments

We are soliciting public comments to permit the Department/Bureau to: (a) Evaluate whether the proposed information collection is necessary for the proper functions of the Department, including whether the information will have practical utility; (b) Evaluate the accuracy of our estimate of the time and cost burden for this proposed collection, including the validity of the methodology and assumptions used; (c) Evaluate ways to enhance the quality, utility, and clarity of the information to be collected; and (d) Minimize the reporting burden on those who are to respond, including the use of automated collection techniques or other forms of information technology.

Comments that you submit in response to this notice are a matter of public record. We will include or summarize each comment in our request to OMB to approve this information collection request. Before including your address, phone number, email address, or other personal identifying
