

Progress Report – Quality Improvement Fund (QIF)

Introduction

This document contains a form for QIF award recipients to report on their project’s progress. Award recipients will use this form to report information related to overall project implementation.

The questions in this form are intended to gather information on recipients’ progress and are applicable to QIF topics across fiscal years. Grant recipients will share information about their progress towards project-specific goals and evaluative measures based on the QIF Notice of Funding Opportunity.
