Web and CATI Survey Programming Specification

OVERALL PROGRAMMING NOTES

COMMENTS FOR ENTIRE CATI INSTRUMENT:

- * Add question numbers to screens for easy reference, if needed.
- * Please always have right bracket at the end of the IF NEEDED text.
- * Don't know =77 for single-select questions unless indicated otherwise
- * Refused=66 for single-select questions unless indicated otherwise
- * CATI instrument should disallow skipping of questions.

- This survey will be offered in English.
- In banner (and repeated on all pages):
 - CDC Health Survey
 - "CDC Health Survey" text
- Blue = text for alerts/error message text
- Green = programming notes
- For each survey question within this spec:
 - Display one question per screen for both PC and mobile phone. The one exception is for PC, in which some items (noted within this spec) will be presented in a grid format.
 - Do not display question numbers.
 - The default is to display all question stem text in **bold**. Do not bold the response options.
 - For emphasis of text within question stems, a **dark blue bold font color** will be used.
 - Italicized text is used in some questions to indicate additional information for Rs to read (separate from the bold stem).
 - For CATI use: some response options are in CAPS.
 - Numeric codes will not appear next to fixed-choice answer options. Selection bubbles or boxes will appear instead.
 - Do not display response option values.
 - Display "Previous" and "Next" buttons at the bottom of the screen to navigate between questions.
- During testing, question labels may appear on the screen but they will not appear in the final version shown to sample members.
- At the bottom of each screen, the following static text will appear: "If you would like more information about the study, please feel free to call our survey manager at 1-855-928-0777 or send an email to statehealthsv@westat.com."
- For web use

2024 BRFSS Pilot
Web and CATI Survey Programming Specification

- o There will be soft edit checks for items that have logical ranges (or ranges known from CDC's prior data collections), but Rs do not have to answer them to move on or submit the survey. The ranges are noted for each item.
- o These soft edit checks will explicitly state the issue (e.g., high or low value, question not answered)
- For web use: missing Responses to Gate Questions -- Treatment of Follow-up Questions
 - o If Respondents skip (leave blank) or provided DK/REF (in CATI) to certain questions that have follow-up questions, the follow-up questions will not be shown to the R (e.g., if R answers No about ever being told of having had asthma, the follow-up question 8.2b (Do you still have asthma?) should not be shown.
- Ranges for any questions that have text fill boxes
 - o In this document, 99 or 9999 is the top value for range checks for many questions. We will ask CDC if they want alternative top range values, based on prior years' BRFSS data).
- In banner (and repeated on all pages):
 - o CDC logo
 - o "CDC Health Survey" text in place of the following 2013 year, looking like this:
- Welcome message text: Welcome to the CDC Health Survey.
- Field for respondents to enter the login ID they receive from Westat
 - o The assigned login ID consists of an 8 digit code consisting of numbers and characters
