Important Information About PRAMS

Please Read Before Starting the Survey

The Pregnancy Risk Assessment Monitoring System (PRAMS) is a research project sponsored by the Centers for Disease Control and Prevention and the South Carolina Department of Health and Environmental Control

The purpose of the study is to find out why some babies are born healthy and others are not.

We are asking 1,280 women in South Carolina to answer the same questions. All of your names were picked by a computer from recent birth certificates.

It takes about 25-42 minutes to answer all questions. Some questions may be sensitive, such as questions about smoking or drinking during pregnancy.

You are free to do the survey or not. If you don't want to participate at all, or if you don't want to answer a particular question, that's okay. There is no penalty or loss of benefits for not participating or answering all questions.

Your survey may be combined with information the health department has from other

Centers for Disease Control and Prevention
1600 Clifton Rd, Atlanta, GA 30333, U.S.A

 [Department of Health and Human Services](#)

Prams Web Survey Module Ports x +

prams-test.cdc.gov

Department of Health and Human Services
Centers for Disease Control and Prevention

sources.

If you choose to do the survey, your answers will be kept private and will be used only to answer questions related to the purpose of this study. This is so because this study has been given a Certificate of Confidentiality. This means that we may not share information that may identify you in legal suits or proceeding, even if a court orders us to do so, unless you say it's okay.

If you are currently in jail, your participation in the study will have no effect on parole.

Your name will not be on any reports from PRAMS.

Your answers will be grouped with those from other women. What we learn from PRAMS will be used to plan programs to help mothers and babies in South Carolina.

If you have any questions about your rights in the project, please call Daniela Nitcheva, PhD at 803-898-3627.

If you have any questions about PRAMS, please contact us at 1-800-286-6968.

I have read the information above and agree to continue with the survey.

The next questions are about using other tobacco products around the time of pregnancy.

E-cigarettes (electronic cigarettes) and other electronic nicotine products (such as vape pens, e-hookahs, hookah pens, e-cigars, e-pipes) are battery-powered devices that use nicotine liquid rather than tobacco leaves, and produce vapor instead of smoke.

Hookahs are water pipes used to smoke tobacco. These are not e-hookahs or hookah pens.
